

# VILLAGE of PALATINE

## SPRING CLEANUP WEEK MAY 5 - 10, 2023

Take advantage of Palatine's annual spring cleanup week by placing refuse out in advance of your collection day as early as Friday, May 5, 2023. Refuse will be collected the following week only on your scheduled collection day.

All refuse items placed at the curb must be prepared according to specifications for curbside pickup. Refuse that does not fit into the cart may be bagged or bundled. Each bag or bundle shall not exceed 50 lbs. Visit [Refuse & Recycling](#) for collection guidelines.

Bulk items that are too large to be put into the cart or bagged may be placed at the curb for collection. Examples of bulk items include furniture, mattresses and box springs, bicycles, lawn mowers, grills etc. Any gas and propane tanks must be removed. For collection of oversized bulk items greater than 50 lbs. or 4 feet in length contact Groot at **800-244-1977** to schedule a pickup at no additional charge. Please note that construction debris must be properly bagged or bundled and is limited to a maximum volume of two cubic yards. **Items restricted** from cleanup week include appliances, tires, paints, household chemical waste, electronics and **more**. Please consider recycling, reusing, or donating these items instead.

The Solid Waste Agency of Northern Cook County (SWANCC) provides the [Reuse and Recycling Directory](#), a useful resource for residents seeking locations and outlets to dispose of items they no longer need such as books, clothing, sports equipment, toys and other items. The Directory also features recycling and disposable services for appliances, batteries, construction materials, electronics, gasoline, motor oil and many other items.

For more information, please call the Environmental Health Division at **(847)359-9042**.

## THE CORRECT WAY TO RECYCLE

Trash is simple—you throw an item away, it gets picked up and sent to the landfill. Recycling, on the other hand, is anything but simple. Many of us love to recycle, but deciding to recycle items is just the first step. We must make sure items are recycled correctly.

Recycling is a regional enterprise with differing guidelines. When non-recyclable items (contamination) end up in your recycling cart, it may ruin the entire load and require it to be dumped in the landfill. This may also result in additional processing and disposal costs. An average of 25% of what is placed in curbside carts is contamination and does not belong. As a community, let's raise the bar on our efforts!

Knowing these rules and putting them into practice will help ensure that everything in your bin finds a second life. Recycling properly begins with you!

The basic rules of recycling correctly are that all material must be put into the cart LOOSE – NO BAGS. All material must also be EMPTY, CLEAN, and DRY. Please recycle ONLY the following materials and be sure to close the lid on your cart:

**Plastic:** tubs, jugs and bottles (caps on – do not crush)

**Metal:** aluminum, steel or tin cans

**Glass:** bottles and jars only

**Cartons:** juice, milk, wine and soup

**Paper:** newspaper, magazines, junk mail, office / school paper and flattened cardboard

**NO** plastic bags

**NO** single use items (i.e., plastic cups, cutlery and straws)

**NO** foods, liquids, diapers or medications

**NO** electronics

**NO** batteries or sharps

**NO** textiles

**NO** "tanglers" (i.e., rubber hoses, string lights or wires)

**NO** toys or bulk plastic

Lastly, do NOT wishcycle (optimistically putting non-recyclable objects in recycling bins). **IF YOU DON'T KNOW, THROW IT OUT!**

## NEW COMMUNITY SOLAR PROGRAM

where **energy** comes from

The Village of Palatine is excited to announce a new community solar program for the community. This past fall, the Council heard a presentation on the Community Solar Clearinghouse Solutions Program (CS2) administered by MC Squared Energy Services LLC (mc2) and the benefits to residents, and subsequently passed a resolution of support.

A community solar project is a single site solar installation shared by multiple subscribers. Community solar allows subscribers to receive net metering credits on their electricity bill and support the development of new renewable energy resources, without needing to install equipment on their property

When Palatine residents join a solar array, they will save 20% of the solar generation credits achieved on their monthly ComEd electric utility bill. Community Solar is an easy way to support clean energy generation located within Illinois. Supporting these types of projects helps reduce the dependence on fossil fuels and support clean energy generation. In addition, you do not have to invest in a solar asset on your rooftop, which may not be right for everybody. You will receive a net metering credit on your monthly ComEd electric utility bill for your share of the generation created by these projects.

Mc2 will be handling the sign-ups and account administration. To **join the mc2 Community Solar wait list** you will need your ComEd bill handy to sign up. Once you have submitted your information, mc2 will contact you when a solar farm is ready. The expected waiting period is three to six months.

You do not need to contact the Village to participate in this program. Contact mc2 at [solar@mc2energyservices.com](mailto:solar@mc2energyservices.com) or call 833-970-3552.

If you have questions or problems signing up, you can reach out to the Village Manager's Office at 847-359-9050.

**Learn more** on how community solar works.

## YARD WASTE COLLECTION RESUMES WEEK OF APRIL 3

Groot curbside bagged yard waste and bundled brush collection resumes the week of April 3, 2023.

Please note the following requirements for yard waste collection:

- All yard waste (grass or shrubbery clippings and leaves) shall be disposed of in two-ply brown paper yard waste bags. No plastic bags, boxes, or containers of any kind are permitted for yard waste disposal. Each paper bag shall not exceed 60 pounds in weight.
- Branches or limbs cannot exceed four inches in diameter and must be bundled not to exceed four feet in length. Bundles shall be secured with biodegradable cotton twine or rope. Bundles must not weigh more than 60 pounds each.
- Please have all yard waste at the curb no later than 6:30 AM on the scheduled collection day.

For further information, contact the Environmental Health Division at (847)359-9042 or visit [Refuse-Recycling](#).

## LANDSCAPE MULCH AVAILABLE FOR RESIDENTS

Residents can take advantage of the Village's efforts to maintain a green environment with ground wood mulch created from trees removed throughout the Village.

A layer of mulch can enhance and protect plants, shrubs and trees by reducing root damage caused by temperature extremes. Mulch also helps soil retain moisture, inhibits weed growth, controls soil erosion and prevents soil compaction.

Call the Public Works Department starting March 1st to schedule a delivery appointment. Deliveries will be made on Fridays in April to residents' driveway aprons. The cost is just \$16 per cubic yard, with a three cubic yard minimum order size and a maximum of ten cubic yards.

For smaller amounts of mulch, residents may visit the mulch bins at the holding center located at 550 N. Smith Street. Please bring your own shovel and containers. There is no charge to pick up your own mulch. For more information, visit our [website](#) or call Public Works at (847)705-5200.

## PROPER MULCHING TECHNIQUES

Properly applied mulch can give landscapes a handsome, well-groomed appearance and is one of the most beneficial acts homeowners can do for the health of trees. However, over mulching can actually cause harm to trees and other landscape plants. Over mulching, or "mulch volcanoes", are excessive piles of mulch applied around the base of trees. The following problems are associated with improper mulching:

- Deep mulch can lead to excess moisture in the root zone, stressing the plant and causing root rot.
- Mulch piled high against the trunks of trees may create habitats for rodents that chew the bark and can girdle the trees.
- Piling mulch against the trunks or stems of plants can stress stem tissues and may lead to insect and disease problems.
- Thick blankets of fine mulch can become matted and may reduce the penetration of water and air.

The recommended mulching depth is 2 to 4 inches. Decomposition rates may vary, so if sufficient mulch is already present, do not add more mulch. To refresh the appearance, break up any matted layers with a rake. Pull mulch back several inches so the base of the trunk or stem is exposed to prevent stress to the stem tissues.

For more information regarding proper mulching, please contact the Public Works Department Forestry Division at (847)705-5200.

## 2023 HOMETOWN PRIDE AWARDS

Do you put a lot of work into landscaping at your residence or know someone who does?

If the answer is "Yes!", put a place holder on your calendar this summer as the Village of Palatine Beautification Commission is again looking to recognize properties in Palatine with outstanding landscaping and curb appeal for the 2023 Hometown Pride Awards. Nominate yourself or any property in one of the five categories: single-family home, multi-family home, subdivision entrance/cul-de-sac island, business, or "Doors of Palatine". Nominations and judging will take place in July. To view last year's winners and for more information, visit our [website](#).

## VILLAGE OF PALATINE COMPREHENSIVE PLAN

Palatine has kicked off a major update to its Comprehensive Plan. The current plan was adopted in 2011 and a lot has changed since then!

What is a Comprehensive Plan? It's a guiding document for the Village intended to guide policy over the next twenty years on important issues like:

- Commercial districts and corridors
- Transportation and mobility
- Residential neighborhoods and housing
- Open space and recreation
- Infrastructure and utilities

We want you to be involved! Stay tuned to our e-Newsletter, social media and Village website for links to documents, dates for open houses, public engagement exercises, and opportunities to share your voice and your vision for the Village of Palatine as we look ahead to the next twenty years.

## CONSOLIDATED ELECTION - APRIL 4, 2023

Early Voting for the upcoming Consolidated Election will take place March 20th through April 3rd, including weekends, at 150 W. Wilson Street during the following hours:

### HOURS

Monday thru Saturday: 9 am to 5 pm

Sunday: 10 am to 4 pm

### VOTER REGISTRATION:

Non-registered voters can register to vote and cast their ballot at all early voting sites. Two forms of identification must be presented with one ID showing the voter's current address.

### ELECTION DAY:

Polls are open on Election Day from 6 am to 7 pm at designated polling places. Non-registered voters can register to vote at their home precinct (**polling place**). Two forms of identification must be presented with one ID showing the voter's current address.

The Palatine Village Clerk's office will resume voter registration during our regular business hours Monday thru Friday: 8 am to 4 pm on April 6, 2023.

Please call the Village Clerk's office with any questions at (847)359-9050.

**Village Hall is not a polling place. [FIND YOUR POLLING PLACE HERE.](#)**

## HANDS-ONLY CPR

### WHY LEARN HANDS-ONLY CPR?

Cardiac arrest – an electrical malfunction in the heart that causes an irregular heartbeat (arrhythmia) and disrupts the flow of blood to the brain, lungs, and other organs – is a leading cause of death. Each year, more than 350,000 EMS-assessed out-of-hospital cardiac arrests occur in the United States. When a person has a cardiac arrest, survival depends on immediately receiving CPR from someone nearby. According to the American Heart Association, about 90 percent of people who suffer out-of-hospital cardiac arrests die. CPR, especially if performed immediately, can double or triple a cardiac arrest victim's chance of survival.

American Heart Association  
**CPR & First Aid**  
Emergency Cardiovascular Care

### BE THE DIFFERENCE FOR SOMEONE YOU LOVE

If you are called on to give CPR in an emergency, you will most likely be trying to save the life of someone you love: a child, a spouse, a parent, or a friend. About 70 percent of out-of-hospital cardiac arrests happen in homes. About 46 percent of people who experience an out-of-hospital cardiac arrest receive the immediate help that they need before professional help arrives.

Hands-Only CPR has been shown to be as effective as conventional CPR for cardiac arrest at home, at work, or in public

**Hands-Only CPR has just two easy steps, performed in this order:**

- 1. Call 911 if you see a teen or adult suddenly collapse.**
- 2. Push hard (2 inches of depth) and fast in the center of the chest to the beat of a familiar song that has 100 to 120 beats per minute.**

### MUSIC CAN SAVE LIVES

Song examples include "Stayin' Alive" by the Bee Gees, "Crazy in Love" by Beyoncé featuring Jay-Z, "Hips Don't Lie" by Shakira or "Walk the Line" by Johnny Cash. People feel more confident performing Hands-Only CPR and are more likely to remember the correct rate when trained to the beat of a song.

When performing CPR, you should push on the chest at a rate of 100 to 120 compressions per minute, which corresponds to the beat of the song examples above.

### TAKE 90 SECONDS TO LEARN HOW TO SAVE A LIFE

Watch the 90-second video. Visit **Hands-Only CPR** to watch the instructional video and share it with the important people in your life. Hands-Only CPR is a natural introduction to CPR. The Palatine Fire Department and the AHA encourage everyone to learn conventional CPR as a next step. For more information about learning CPR please call 847-202-6340 or visit [cpr.heart.org](http://cpr.heart.org).

# BLOOD DRIVE

## Palatine Board of Health Community Blood Drive

Thursday, Mar. 23  
Noon to 6 p.m.  
Palatine Village Hall  
200 E. Wood St.  
Room Community B

To schedule an appointment please call vitalant at 877.258.4825 or visit vitalant.org, and use group code: ORDOA103.

**Appointments Recommended.**  
**Walk-ins Welcome.**

 **GIVE BLOOD TODAY | vitalant.org**  
Eligibility questions? Call 877.258.4825

vitalant

TO SCHEDULE

### Prepare:

- Eat well
- Hydrate
- Bring ID

## Safety with Oily Rags

### wet with flammable or combustible liquid

Oil-based paints, stains, and varnishes are often used for home improvement projects. It is common to use rags to wipe up spills or clean brushes. But wet rags can ignite on their own. They can start a fire if not handled carefully. The same is true of the liquids themselves.

#### How can rags start a fire?

The oils commonly used in oil-based paints and stains release heat as they dry. If the heat is not released in the air, it builds up. That is why a pile of oily rags can be dangerous. As the rags dry, the heat is trapped. The heat builds up and finally causes a fire. Be aware that this does not happen with water-based finishes.

#### How can liquids start a fire?

Vapors from flammable and combustible liquids can ignite, causing a fire. There are many commonly used flammable liquids. Gasoline, lacquers, and nail polish are just a few examples. There are many commonly used combustible liquids. Paint thinner, kerosene, and oil-based paints and stains are some examples.

#### RAGS WET WITH PAINT AND STAIN

- Never leave cleaning rags in a pile. At the end of the day, take the rags outside to dry.
- Hang the rags outside or spread them on the ground. Weigh them down. Do this so they do not blow away. Make sure they are not in a pile. Keep them away from buildings.
- Put dried rags in a metal container. Make sure the cover is tight. Fill the container with a water and detergent solution. This will break down the oils.
- Keep containers of oily rags in a cool place. Keep them out of direct sunlight. Keep them away from other heat sources. Check with your town for information on disposing of them.

#### LIQUIDS THAT CAN CATCH FIRE

- Flammable and combustible liquids should not be used near an open flame. Do not smoke when working with these liquids.
- If you spill liquids on your clothing, remove your clothing and place it outside to dry. Once dry, clothing can be laundered.
- Keep liquids in their original containers. Keep them tightly capped or sealed. Never store the liquids in glass containers.

#### GASOLINE

- Use gasoline only as motor fuel. Never use it as a cleaner. Never use it to break down grease. Never bring gasoline indoors, even in small amounts.
- Store gasoline ONLY in a container that is sold for that purpose. Make sure the container is tightly capped when not in use. NEVER store gasoline containers in a basement or in the occupied space of a building. Keep them in an outbuilding, a detached garage, or a shed outdoors.

 **NATIONAL FIRE  
PROTECTION ASSOCIATION**  
The leading information and knowledge resource  
on fire, electrical and related hazards

[www.nfpa.org/education](http://www.nfpa.org/education) ©NFPA 2017

#### FACTS

! An average of 1,600 home fires per year are caused by instances of spontaneous combustion or chemical reaction

! An average of 800 home fires per year are started when oily rags catch fire or are ignited.

## DOG BITE PREVENTION

Dog bites pose a serious health risk to our communities and society. In the United States, each year more than 800,000 people receive medical attention for dog bites, according to the U.S. Centers for Disease Control (CDC). At least half of those bitten are children. Any dog can bite: big or small, male or female, young or old. Even the cuddliest, fuzziest, sweetest, pet can bite if provoked. Most dog bites are preventable, and there are many things you can do at home and within your community to help prevent them.

### WHAT CAN YOU DO TO PREVENT DOG BITES?

**KEEP YOUR DOG ON A LEASH** – Per Palatine Ordinance Sec. 5-6. (Control of animals) it shall be unlawful to permit any dog or other domestic animal, whether licensed or not, to run at large within the village. A dog or other animal shall be deemed to be “running at large” when off the premises of its owner, and not on a leash (including retractable leash), tether, chain, rope or the like held by its owner or other person able to control such dog or other animal.

**RESPONSIBLE PET OWNERSHIP** – Responsible pet ownership builds a solid foundation for dog bite prevention. Basics of responsible dog ownership that can help reduce the risk of dog bites include proper training, regular exercise, and keeping it leashed. If you witness an irresponsible pet owner walking their dog without being controlled on a leash, you should call 9-1-1 immediately to hopefully prevent the dog from biting someone. Be prepared to provide the 9-1-1 dispatcher with a description of the unleashed dog and its owner, as well as their last known location / direction of travel.

**AVOID RISKY SITUATIONS** – It is important to know how to avoid escalating risky situations and to understand when you should and should not interact with dogs. You should avoid petting, or even getting too close to someone’s dog in these scenarios:

- If the dog is not with its owner / not on a leash
- If the dog is with its owner but the owner does not give permission to pet the dog
- If the dog is on the other side of a fence – don’t reach through or over a fence to pet a dog - it may defend its territory
- If a dog is sleeping, eating or playing with a toy
- If a dog appears to be sick or injured

**REPORT ALL DOG BITE INCIDENTS** – By law, all dog bites of a person or domestic animal must be reported to the police. Dial 9-1-1 immediately and a member of the Palatine Police Department will respond to investigate and document the incident. The Palatine Police Animal Warden, along with the Cook County Animal and Rabies Control Department, track all dog bite cases and follow up with the dog owners to help prevent future incidents.

Finally, National Dog Bite Prevention Week® takes place during the second full week of April each year and focuses on educating people about preventing dog bites. The dates in 2023 are April 9 – 15. For more details visit the **AMVA website**.

Source: American Veterinary Medical Association

## IDENTITY THEFT AWARENESS AND PREVENTION

Identity theft is when someone uses your personal or financial information without your permission. They might steal your name and address, credit card, or bank account numbers, Social Security number, or medical insurance account numbers. They could use this information to buy things with your credit cards, get new credit cards in your name, open a phone/electricity/gas account in your name, steal your tax refund, use your health insurance to get medical care, or pretend to be you if they are arrested.

Taking steps to protect your personal information can help you avoid identity theft. Here is what you can do to stay ahead of identity thieves:

### PROTECT DOCUMENTS THAT HAVE PERSONAL INFORMATION

Keep your financial records, Social Security and Medicare cards, and any other documents that have personal information in a safe place. When you decide to get rid of those documents, shred them before you throw them away. If you do not have a shredder, look for a local shred day, or use a marker to block out personal information. If you get statements with personal information in the mail, take your mail out of the mailbox as soon as you can.

### ASK QUESTIONS BEFORE GIVING OUT YOUR SOCIAL SECURITY NUMBER

Some organizations need your Social Security number to identify you. Those organizations include the IRS, your bank, and your employer. Organizations like these that do need your Social Security number will not call, email, or text you to ask for it. Other organizations that might ask you for your Social Security number might not really need it. Those organizations include a medical provider, a company, or your child’s school. Ask these questions before giving your Social Security number:

- Why do you need it?
- How will you protect it?
- Can you use a different identifier?
- Can you use just the last four digits of my Social Security number?

### PROTECT YOUR INFORMATION FROM SCAMMERS ONLINE AND ON YOUR PHONE

If you are logging in to an online account, use a strong password. Add multi-factor authentication for accounts that offer it. Multi-factor authentication offers extra security by requiring two or more credentials to log in to your account. The additional credentials you need to log in to your account fall into two categories: something you have – like a pass code you get via text message or an authentication app, or something you are – like a scan of your fingerprint, your retina, or your face. Multi-factor authentication makes it harder for scammers to log in to your accounts if they do get your username and password. Do not give your personal information to someone who calls, emails, or texts you. If could be a scammer trying to steal your information.

### WHAT YOU CAN DO TO DETECT IDENTITY THEFT

- Track what bills you owe and when they’re due
- Review your bills
- Check your bank account statement
- Get and review your credit reports

Source: Federal Trade Commission

# Lithium Ion Battery Safety for Consumers

Lithium ion batteries supply power to many kinds of devices including smart phones, laptops, scooters, e-cigarettes, smoke alarms, toys, and even cars. Take care when using them. In rare cases, they can cause a fire or explosion.

## The problem

- These batteries store a large amount of energy in a small amount of space.
- Sometimes batteries are not used the right way; batteries not designed for a specific use can be dangerous.
- Like any product, a small number of these batteries are defective. They can overheat, catch fire, or explode.

## Safety Tips

- Purchase and use devices that are listed by a qualified testing laboratory.
- Always follow the manufacturer's instructions.
- Only use the battery that is designed for the device.
- Put batteries in the device the right way.
- Only use the charging cord that came with the device.
- Do not charge a device under your pillow, on your bed or on a couch.
- Keep batteries at room temperature.
- Do not place batteries in direct sunlight or keep them in hot vehicles.
- Store batteries away from anything that can catch fire.

## Signs of a Problem

Stop using the battery if you notice these problems: odor, change in color, too much heat, change in shape, leaking, odd noises. If it is safe to do so, move the device away from anything that can catch fire. Call 9-1-1.

## Battery Disposal

- Do not put lithium ion batteries in the trash.
- Recycling is always the best option.
- Take them to a battery recycling location or contact your community for disposal instructions.
- Do not put discarded batteries in piles.

## High-Tech Luggage

Some major airlines no longer accept 'smart' luggage with non-removable lithium ion batteries as checked or carry-on luggage. The powerful batteries can potentially overheat and pose a fire hazard during flight.

In some instances, smart bags with removable lithium ion batteries will be allowed on board if the battery can be removed on site and taken on board with the customer. Check with your airline for restrictions.

## CARING FOR NEW GRASS SEED

Snow plowing, water main breaks, and other emergency work can all take their toll on residents' lawns. If your turf was damaged due to Village activity, Public Works Department crews can restore it in the spring. Crews will level out any damaged areas and then apply grass seed. Residents that receive grass restoration should follow the below guidelines to help the new grass seed germinate and establish.

The best advice for watering new grass seed is to **keep it moist all the time**.

- The top inch of soil should stay moist at all times. This may take only 2-3 minutes of watering or 5-6 minutes (or sometimes longer), depending on your sprinkler system and the soil type.
- Watering should be repeated 2 or even 3 times each day if the weather is hot enough to require it. Frequent watering is the only way to maintain adequate surface moisture.
- After about 2-3 weeks of growth, watering can be shifted to every other day, and then to every 3 days later on.
- Quicker establishment allows fewer weeds to grow, so stay vigilant!

Once the grass has sprouted, filled in and reached a height of about 3-4 inches, it's ready to be cut. Wait to apply any weed control products until your newly seeded lawn has been mowed at least 2 times.

Residents who believe their grass was damaged by the Village should report it as soon as it is noticed to the **Public Works Department at (847)705-5200 or PublicWorks@palatine.il.us**. Turf restoration is done in the spring, and usually occurs in early April.

## PUBLIC WORKS SEEKS SEASONAL LABORERS FOR GROWING SEASON

The Public Works Department is accepting applications for seasonal laborers for the upcoming growing season. Laborers are needed to work primarily with the Forestry Division for mowing, landscape maintenance, and tree care. These positions are seasonal for a 6-9 month duration and require a high school diploma or equivalent. Possession of an Illinois

Class B Commercial Driver's License is a plus, and starting pay is \$16 per hour.

Click [here](#) for more information and to apply online. Positions are open until filled.

## PACE'S VANGO PROGRAM COMING SOON!

Starting this Spring, commuters traveling between the Palatine Metra station and nearby businesses will be able to use a new self-service transportation option from Pace called VanGo. VanGo is a reservation-based service, in which drivers reserve a van for the next business day.

This new pilot program provides a last-mile transit option for commuters traveling round-trip between the Palatine Metra Station and work locations in a designated zone bounded by Lake-Cook Road on the north, Roselle Road on the west, I-90 on the south, and IL 53 on the east.

More information will be available soon at [pacebus.com/vango](http://pacebus.com/vango).

## 2023 INFRASTRUCTURE IMPROVEMENTS

### STREET RECONSTRUCTION

- Crescent Avenue from Kenilworth Avenue to Dorset Avenue
- Ellis Street from Quentin Road to the dead end
- Lilac Drive from Capri Drive to Tulip Way
- Tulip Way from Capri Drive to the dead end

### DOWNTOWN STREET REHABILITATION

- Bothwell Street from Wilson Street to Station Street
- Greeley Street from Palatine Road to Wilson Street
- Station Street from Bothwell Street to Plum Grove Road
- Wilson Street from Smith Street to Greeley Street

### WATER MAIN REPLACEMENTS

- Rand Road from Lilly Lane to Capri Drive
- Dundee Road from Aspen Court to Quentin Road
- Cunningham Drive from Elmwood Avenue to Rohlwing Road
- Lytle Drive from Morris Drive to Flake Drive
- Bedford Drive from Whitehall Drive to Chatham Drive
- Maple Street from Wilson Street to 128 North Maple Street
- Hunting Drive from Mallard Drive to the cul-de-sac
- Leonard Road from 39 S. Leonard Road to 21 S. Leonard Road

### WATER MAIN EXTENSIONS

- Northwest Highway at Route 53.

For more information about these public improvement projects, please contact the Public Works Department Engineering Division at (847)705-5200.

## NEW BUSINESSES

### Armanetti Beer - Wine - Spirit

RETAIL LIQUOR STORE  
44 W. Illinois Avenue | 224-801-8938

### Florist by Laura

FLORIST  
1850 N. Rand Road | 224-539-6992

### Grid Werks Automotive

AUTOMOTIVE  
544 W. Colfax St, Unit 2 | 312-298-9606

### Inverness Wine & Spirits

LIQUOR STORE  
1557 N. Quentin Road | 847-921-9200

### Mellow Tone Music Academy

MUSIC STUDIO  
830 W. Northwest Hwy, #5 | 224-460-0352

### Optimum Senior Care Corp.

STAFFING COMPANY  
252 W. Northwest Highway | 847-483-8800

### Palatine Reyna's Nutrition

NUTRITION CENTER  
1713 N. Rand Road, #20 | 224-800-5304

### Pinks Shrimp

RESTAURANT  
773 N. Quentin Road | 224-801-6998

### SCWJ LLC

SMALL BUSINESS CONSULTING  
110 N. Brockway St., #344 | 847-274-3788

### Shahi Zaiqa LLC

RESTAURANT  
1910 N. Rand Road | 224-875-1614

### Snack Zone

SNACK BAR  
545 S Consumers Avenue | 331-245-6718

### Superior Physical Therpay

PHYSICAL THERAPY  
841 North Quentin Road | 847-489-9031

### Synctrans International Inc.

### Zoo-Tropic Exotics

PET STORE  
1518 W. Algonquin Road | 847-783-7539

## SIDEWALK REPLACEMENT AND IMPROVEMENT PROGRAMS

The Public Works Department conducts three sidewalk programs each year: the Sidewalk Replacement Program, the 50/50 Sidewalk Program and the Sidewalk Cutting Program. Construction for these programs typically begins in early summer to early fall.

### SIDEWALK REPLACEMENT PROGRAM

This program is intended to identify and eliminate the most severe tripping hazards and cycles through a different section of the Village each year. The target area this year is roughly from Helen Road south to Illinois Avenue between Quentin Road and Hicks Road. Click [here](#) to view a map of the current replacement schedule.

### 50/50 SIDEWALK PROGRAM

This program addresses sidewalks that are uneven, severely cracked or deteriorated, and meet specific safety standards. The cost is shared on a 50/50 basis, with the Village and homeowner each contributing half of the replacement cost. The homeowner's cost is approximately \$95 for a typical sidewalk square. Applications are accepted on a first come, first served basis and the deadline for submission is June 1st. To obtain a copy of the 50/50 application, visit our [website](#).

### SIDEWALK CUTTING PROGRAM

The Sidewalk Cutting Program will continue to address heaved sidewalk squares with vertical displacements of up to two inches. This process uses a machine to "cut" the raised portion of concrete down to reestablish a smooth surface and is much more cost effective than removal and replacement.

For more information about these programs, click [here](#) or call Public Works at (847)705-5200.

## POLICE FOCUS ON EDUCATION, THEN ENFORCEMENT

The Palatine Police Department promotes safety through Education first, followed by Enforcement. As winter weather fades and the thought of warmer weather is right around the corner, do not forget about safety first! Over the next four months, Palatine Officers will use focused enforcement to address the following initiatives that affect the safety of Palatine residents.

### HANDS-FREE WHILE DRIVING: TALKING AND TEXTING

On January 1, 2014 Illinois banned the use of all hand-held electronic devices while driving (625 ILCS 5/12-610.2). A motorist who violates this section shall be fined a maximum of \$75 for a first offense, \$100 for a second offense, \$125 for a third offense, and \$150 for a fourth or subsequent offense. Only hands-free technology such as speakerphones and headsets are permitted. Did you also know that all cell phone use is prohibited while driving in a school zone and construction zone? As the weather warms up, pedestrian and bicycle traffic will significantly increase the odds of a potential tragedy. According to the National Highway Traffic Safety Administration (NHTSA), distracted driving claimed 3,142 lives in 2020 alone. Sending or reading a text takes your eyes off the road for 5 seconds. At 55 mph, that's like driving the length of an entire football field with your eyes closed. You cannot drive safely unless the task of driving has your full attention. Any non-driving activity you engage in is a potential distraction and increases your risk of crashing. Aggressive initiatives such as Safety Zone Enforcement Areas will be established to send distracted drivers a clear message: "Drive Distracted; You Got Our Attention!"

## SPECIAL MATERIALS DROP OFF AT THE VILLAGE

The Village of Palatine offers a Special Materials Drop Off Program in cooperation with the Solid Waste Agency of Northern Cook County (SWANCC). This **FREE** drop off program is for residentially generated special materials including: medications, needles, fluorescent light bulbs and mercury containing items. Only residents that live in a SWANCC member community (Palatine included) are eligible to participate. No waste is allowed from businesses, schools, or institutions.

### MEDICATIONS

**Acceptable Items:** Bring unused and expired prescription medications, prescription cough syrup, prescription eye and ear drops and unused and expired over-the-counter medications.

**Unacceptable Items:** No controlled substances or non-prescription liquids allowed.

\*Medications must be in the original container with labels to identify contents. Personal info such as name, address or phone on the prescription label can be blackened out.

### NEEDLES

Bring needles (sharps) in a red biohazard container or a rigid plastic laundry detergent bottle with a lid. All needles must be put into containers at home. No loose or bagged needles will be accepted. The Environmental Health Division provides free 1-quart or 1-gallon sharps containers to residents who administer home-injections, while supplies last. When the sharps container is full, the resident should bring the container back for proper disposal.

### FLOURESCENT LIGHT BULBS AND MERCURY CONTAINING ITEMS

Bring light bulbs that contain mercury, such as compact fluorescent light (CFL) bulbs. Bring fluorescent light tubes up to 4 feet in length. Do not bring any incandescent or LED bulbs, as they contain no mercury and can be disposed of in the garbage. No broken light bulbs or tubes. Bring mercury containing items such as thermometers, thermostats and wall switches. All light bulbs, tubes and mercury containing items shall be brought in a sealed in a plastic bag.

### MOST COMMON CONTROLLED SUBSTANCES - NOT ACCEPTED!

Actiq® (fentanyl citrate)	Oxycontin® (Oxycodone)
Tequin® Tablets (gatifl oxacin)	Reyataz® Capsules (atazanavir sulfate)
Daytrana™ Transdermal Patch (methylphenidate)	Avinza® capsules (morphine sulfate)
Zerit® for Oral Solution (stavudine)	Xyrem® (Sodium oxybate)
Duragesic® Transdermal System (fentanyl)	Baraclude® tablets (entecavir)
Meperidine HCl tablets	Fentora® (fentanyl buccal tablet)
	Percocet® (oxycodone and acetaminophen)

**Drop Off Location: Village of Palatine  
200 E. Wood Street - Village Services Counter - First Floor  
Monday - Friday: 8 am - 4 pm**

For more information visit [palatine.il.us](http://palatine.il.us) and search 'Special Materials' or contact the Environmental Health Division at (847)359-9042.

Revised 01/23

## HYDRANT FLUSHING HELPS ENSURE WATER QUALITY

The Public Works Department will conduct its annual "flushing" of fire hydrants throughout the Village in April, depending on the weather. This process moves water through the pipelines at a fast rate to clean the lines, clear stagnant water, identify broken hydrants, and ensure water delivered to homes and businesses is of the highest quality. Residents who are concerned that this process wastes water can be assured that the Department only flushes lines when necessary as part of protecting public health by providing safe, high quality, consumable water.

For questions about hydrant flushing, call the Public Works Utilities Division at (847)705-5200.

## CLEAN WATERS: WHAT'S THE BIG DEAL ABOUT WATER QUALITY ANYWAY?

There are plenty of reasons to worry about water and water quality. We expect to have crystal-clear, pure water for drinking, food production, and recreation at the same time we use our waters for waste disposal. The old slogan, "the solution to pollution is dilution", typified the feeling that anything dumped down a drain, into a river, or even into the ocean was going to disappear without a trace. We now know that NO aquatic system can absorb unlimited human pollution. Through our everyday activities, we all cause water pollution without realizing it. The exhaust and oil from driving cars, materials washed down drains or flushed down the toilet, pet wastes, fertilizers and pesticides used in yards, all contribute to water pollution.

Making simple changes in our everyday activities can help reduce some types of pollution. For example, choosing non-toxic alternatives for household cleaning products reduces water pollution, cleaning bills, and our exposure to hazardous materials. Rethinking landscaping and gardening practices reduces the need for pesticides, fertilizer, and irrigation, thus reducing the potential for contaminating local waters.

To learn more about different ways to help prevent water pollution, visit the U.S. Environmental Protection Agency's [website](#). **To report possible illegal discharges to the storm drain system, call the Public Works Department at (847)705-5200.**

## NEW FEMA RESOURCES TO HELP PUBLIC BETTER UNDERSTAND FLOOD RISKS AND WAYS TO PROTECT THEIR PROPERTIES

A new FEMA webpage is now available as a one-stop-shop to the public about how to protect themselves and their property from the nation's number one disaster—flooding. The webpage includes free resources and information to learn about, understand, and take action to reduce flood risk.

The FEMA Map Service Center allows Visitors to enter a street address to learn more about flood risks in their community. Other information includes resources about flood maps, flood zones, flood risk, and flood insurance. In addition to learning about flood hazards, visitors may also explore the National Risk Index. This tool identifies communities' risk to 18 natural hazards, and can be used to support mitigation planning, hazard mitigation assistance grants and risk communication.

For additional information, visit our [website](#) or call the Public Works Department Engineering Division at (847)705-5200.

## DOCUMENT DESTRUCTION EVENT - JULY 22, 2023

On Saturday, July 22, 2023, the Village of Palatine, Palatine Park District, and Palatine High School are partnering with the Solid Waste Agency of Northern Cook County (SWANCC) to host a Document Destruction Event. The event will be held at Palatine High School, 1111 North Rohlwing Road from 9 AM to 12 PM. All vehicles must follow the signs provided. No vehicles will be allowed to enter the event after 12 PM.

Residents from Palatine and other SWANCC communities are eligible to participate. IDs will be checked for verification of residency. Materials will not be accepted from non-SWANCC residents, businesses, schools, or institutions.

All participants must follow safety guidelines for the event. Participants must be in a vehicle and remain in their vehicle. No walk ups are allowed. Participants will be asked to unlock/open the trunk to allow staff to unload the boxes or bags. Boxes will be returned.

Bring only sensitive documents for shredding. **There is a limit of six (6) file-size boxes or paper bags per vehicle.** Remove all plastic spines/covers and metal clips/binders. Staples are ok. NO paper in plastic bags. NO magazines, newspapers, photos or books.

Do NOT bring electronics, batteries, household chemical waste, light bulbs, or other unacceptable materials. Do NOT drop off materials other than during the posted event date and times.

For more information on other SWANCC one day events and weekly drop off locations, visit [swancc.org](http://swancc.org) or contact (847)724-9205.

# Palatine Fire Department

Lt. Aichholzer  
39 E Colfax St  
Palatine, IL 60067

**Hear the BEEP where you SLEEP**

Every Bedroom Needs a Working Smoke Alarm!

Half of home fire deaths happen between 11 p.m. and 7 a.m., when most people are asleep.

For the best protection, install interconnected smoke alarms in your home. When one sounds, they all sound.

Install smoke alarms in every bedroom, outside each separate sleeping area, and on every level of the home, including the basement. Larger homes may need more alarms.

**How to Test & Maintain your Smoke Alarm**

- Test alarms at least once a month by pushing the test button.
- Replace all smoke alarms when they are 10 years old or if they do not sound when tested.
- Some people, especially children and older adults, may need help to wake up. Make sure someone will wake them if the smoke alarm sounds.
- When the smoke alarm sounds, get outside and stay outside until the fire department says it's safe to go back inside.
- Call the fire department from a telephone or a neighbor's phone. Stay outside until the fire department says it's safe to go back inside.

[www.usfa.fema.gov](http://www.usfa.fema.gov) [www.nfpa.org](http://www.nfpa.org)

## The Importance of Smoke Alarms

Smoke alarms come in 2 different power configurations: hard wired or battery powered. Regardless of the configuration, smoke alarms save lives. According to the National Fire Protection Association (NFPA), the risk of dying in a fire drops 55% by installing and maintaining a working smoke alarm.

## The Palatine Fire Department Smoke Alarm Program

The Palatine Fire Department has partnered with the Palatine Fire Fighters Local 4588 & the Northern Illinois Fire Safety Alliance to provide FREE smoke alarms to the local Senior, Disabled, and Low-income population at no charge.

## How to Participate in the Smoke Alarm Program

Achieving peace of mind is easy. Call our SMOKE ALARM HOTLINE at (847) 202-6310. Please leave your name, address, and phone number and your call will be returned to schedule your installation. Palatine residents can also email [smokealarms@palatine.il.us](mailto:smokealarms@palatine.il.us) to participate.

\*\*\*Hard-wired smoke alarms are not included in this program. This program provides stand-alone, battery-operated smoke alarms\*\*\*

## UPDATED ILLINOIS SMOKE ALARM LAW

- Effective January 1, 2023 -

In 2017, the Illinois Fire Safety Alliance worked with the General Assembly to pass a law which will require Illinois residents to replace their old smoke alarms with the type that has a long-term, 10-year sealed battery beginning January 1, 2023. This would apply to residents that are still using alarms with removable batteries or alarms that are not hardwired.

### What is the Updated Illinois Smoke Alarm Law?

- Since 1988, all dwellings in Illinois have been required to have smoke alarms.
- In 2017, Public Act 100-0200 was passed to update the Illinois Smoke Detector Act to reflect advances in alarm technology.
- Come January 1, 2023, any new smoke alarm being installed within a single or multi-family home are required to be featured with a 10-year sealed battery.
- Smoke alarms in single or multi-family homes prior to January 1, 2023 may remain in place until they exceed 10 years from their manufactured date, fails to respond to operability tests, or otherwise malfunctions.

### Exemptions

- Homes built after 1988 that already have hardwired smoke alarms.
- Homes with wireless integrated alarms that use low-power radio frequency communications, Wi-Fi, or other Wireless Local Area Networking capability.

To view the Illinois law in its entirety, visit [www.IFSA.org/smoke-alarm-law](http://www.IFSA.org/smoke-alarm-law)

Illinois Fire Safety Alliance  
(847) 390-0911  
[www.IFSA.org](http://www.IFSA.org) | [ifsa@ifsa.org](mailto:ifsa@ifsa.org)

## UPGRADED OUTDOOR WARNING SIRENS

The Village will be upgrading its ten (10) Outdoor Warning Sirens during the spring. The upgraded sirens will cover 100% of Palatine's geographical area. New technology will allow for the sirens to be monitored remotely to ensure they are working properly and allow for independent activation during severe weather events.

## THUNDERSTORM AND TORNADO SAFETY

Thunderstorms and tornados can develop quickly and occur with little to no warning. Heavy winds and lightning from storms can cause extended power outages, uprooted trees, landslides, and downed or broken utility lines. Additionally, heavy rains can cause flash floods.

Familiarize yourself with the following terms to stay alert and prepared during heavy storms:

- **Severe Thunderstorm Watch:** conditions are favorable for the development of severe thunderstorms.
- **Severe Thunderstorm Warning:** large hail and/or damaging wind has been reported by spotters or is about to develop. Immediately go to a substantial shelter.
- **Tornado Watch:** conditions that are favorable for the development of tornadoes.
- **Tornado Warning:** a tornado has been reported by spotters, or National Weather Service (NWS) meteorologists have determined that one is about to form in the next several minutes. Immediately go to a substantial shelter.

### DURING THE STORM

- Avoid contact with metal, electrical equipment, telephones, bathtubs, water faucets or sinks, because electric currents from lightning can travel through wires and pipes.
- If you are outside, take cover in a stable facility. Avoid sheltering under trees.
- Tune in to local TV/radio channels for emergency advisories and instructions.
- Avoid walking through water that has seeped into your home; it may contain hazardous materials.

### AFTER THE STORM

- Call the Public Works Department at **(847)705-5200** or Village Hall at **(847)359-9050** to report fallen trees or tree limbs, clogged catch basins or flooded streets.
- Avoid downed power lines and broken gas lines. Report them by calling **9-1-1**.

## COMMUNITY EVENTS

### Winter Farmers' Market

**Saturday, March 4 & 18, April 1 & 15, 2023**

Palatine Train Station parking lot (137 W. Wood Street)

The Palatine Farmers' Market brings the highest quality local bread, meat, eggs, fish, mushrooms, garlic, honey, spice blends, pet treats, sweets, and hot tacos & tamales twice a month to the Palatine train station parking lot. We also welcome the finest Greek olive oil and chocolates from Ecuador. The 2-hour Power Market from 10 am-12 pm offers drive-thru and walk-up shopping March 4 and 18, April 1 and 15. The full **Summer Market Season opens May 6**, adding produce, acai bowls, avocado toast, cheese, kettle corn, pies, and more—brought to you by Marg Duer and Palatine Sister Cities. Visit us on [Facebook](#) or [palatinesistercities.org](http://palatinesistercities.org).

### Swing into Spring

**Thursday, May 4, 2023**

Downtown Palatine (Brockway Street and Slade Street)

The Downtown Palatine Business Association (DPBA) is hosting this Shop & Dine event in downtown Palatine. Merchants open their doors on this fun and festive Friday night and provide an opportunity for guests to experience all that the DPBA members have to offer. Event giveaways, specials and raffles are all part of the fun, along with hors d'oeuvres and wine tastings at select locations! More information to come soon, visit [downtownpalatine.org](http://downtownpalatine.org).

### Memorial Day Parade and Ceremonies

**Monday, May 29, 2023**

Starts at Hillside Cemetery (Smith Street north of Colfax Street)

The American Legion Post 690 is sponsoring the Memorial Day Parade and other activities on Monday, May 29, 2023 beginning at 10 am with a service at Hillside Cemetery on Smith Street. The annual parade will start at 10:15 am at Cornell Avenue and Smith Street. Following the parade at 11:00 a.m. there will be a short program at the Veterans Memorial in Community Park and another ceremony at the Legion Memorial in Towne Square beginning at 12:15 pm. Community members are invited to the American Legion (across the street from Towne Square) following the ceremonies. For more info, or if your group would like to participate in the parade, call the American Legion weekdays after 1 pm at **847-359-1606** or e-mail [bmunagian@comcast.net](mailto:bmunagian@comcast.net).

*\*All dates and times are subject to change.*

### Clayson House

Palatine Historical Society

2023 marks the 150th anniversary of the George H. Clayson House, home of Palatine Historical Society.

An entire year of celebration is planned - see reverse for details or visit [palatinehistoricalsociety.com](http://palatinehistoricalsociety.com).

Stop in to visit and tour this beautiful and historic home located at 224 E. Palatine Road, Palatine, during regular hours of operation:

Tuesdays	9:00am-4:00pm
Thursdays	Noon-4:00pm
Sundays	1:30pm-4:30pm

847-991-6460
