A glowing crystal ball is held in two hands, symbolizing a look into the future. The crystal ball is bright and emits a warm, golden light, with faint, ethereal patterns visible within. The hands are positioned on either side, with fingers slightly curled as if supporting the sphere. The background is dark, making the light from the crystal ball stand out prominently.

# Village of Palatine Annual Budget & Capital Investment Plan

A look into the unknown future

December, 2009

Honorable Mayor and Village Council:

On behalf of the Leadership Team and staff of the Village of Palatine, it is my privilege to present the 2010 Annual Budget and Capital Investment Plan.

The Annual Budget serves as a comprehensive financial guide for our organization. Our service oriented philosophy attempts to balance the community's needs and provide responsive and fiscally responsible services to the nearly 70,000 residents and businesses that choose to make Palatine their home.

The 2010 Annual Budget and Capital Investment Plan totals \$126,582,355. \$61,346,845 represents the Operations Budget and the remaining \$65,235,510 represents our Capital Budget (including a new Police Headquarters), TIF Districts, Debt Service, Transfers, Casualty/Liability and Health Self-Insurance Programs, and Pension Administration requirements. In total, this represents a decrease of 13% over the Amended 2009 Budget.

The 2010 Annual Budget reflects the uncertain economic climate. While there are some economic indicators suggesting the recovery has begun, other indications are a recovery is still in the future. Regardless, we are cognizant that the future will clearly be different from the past.

The economic uncertainty was cause to reprioritize all Village services to make sure that the core programs addressing the public health, safety and welfare of our stakeholders remain funded and delivered in an exemplary manner. This has resulted in sacrifice.

---

**BACKGROUND**

The expenditure and personnel reductions included in this budget will require employees to continue to be flexible and adaptable. Palatine historically has been one of the most efficient municipal corporations in the Chicagoland area. With few exceptions, the Village has been able to provide excellent service and meet rising service demands with a constant number of employees and tightening budgets.

This coming year will include some service level adjustments as we refocused on our core programs.

**Budget Policies and Parameters**

Like previous years, operating budget guidelines were established by the Village Manager and provided to the department directors. These guidelines were as follows:

- All budget requests should be predicated upon providing our core services. Recognizing the economic climate, there was to be no program expansion or personnel expansion.
- All non-personnel operating expenditures including commodities and contractual services were to receive no collective increase. Fixed costs or areas with contractual obligations or outside influences such as salt and motor fuel must be funded through reprioritization of other expenditures.
- Departments were to explore public/private partnerships and intergovernmental cooperation opportunities wherever possible.
- Benefit related expenditures would meet all statutory requirements for funding.
- The Capital Investment Plan must continue to address the needs of our residents and a systematic replacement of our aging infrastructure, roads and facilities.
- All expenditures should be evaluated as to timing of expense to identify potential projects that could be delayed to address the uncertain economic climate.

We were successful in achieving all of the parameters in the development of the 2010 Annual Budget.

The Annual Budget continues to recognize the need to maintain adequate fund reserves. 2010 will mark the seventh consecutive year that the general fund will end within or above our targeted range. This is a significant accomplishment given the climate of the past two years. Our conservative stewardship of our funds has provided security in these unstable times. The Village has continued to maintain our outstanding bond rating over the past year. Our conservative approach to finance and the strong fund balance coupled with untapped revenue resources places us in high stature with the rating agencies. Since January 1, 2004, the Village has returned more than \$10 million to our general fund balance. This represents an increase of 130% and places us at the highest levels of the “best practices” and the guidelines recommended by Moody’s and Standard and Poor’s.

As indicated elsewhere within this message, there remains work to be done to bring the budget into balance. At the time of adoption, there will be no use of general fund reserves to fund ongoing operations. This is a balanced budget.

### **Revenues**

Our budget process begins with a complete review of our existing revenue sources. Palatine does not take the approach held by some governmental units of setting expenses and then identifying the revenues to match. Rather, we review existing revenues and make every effort to live within our means and be sensitive to the multiple demands placed upon every dollar earned by our stakeholders. As previously mentioned, staff understands that our expenditures and service levels need to be adjusted to reflect the financial future of our community and the global economy in which we live.

I am a firm believer that government cannot simply “take more from the people.” Every expense needs to be reviewed and reconsidered/reprioritized to make sure there is value added in every dollar spent.

Many of our residents are still feeling the tremendous “sticker shock” from last year’s property tax bills. There appeared to be little logic to the process used by the County to assess properties. There were vast differences in bills - some residents were fortunate

to experience a decline in their bills while others experienced double digit increases – some more than 20%.

Recognizing this lingering sticker shock and in an effort to be sensitive to the economic pressures facing our residents and businesses, every attempt was made by staff to minimize any increase in our property tax dependency and levy. The Annual Budget anticipates a 0.71% increase in our Property Tax Levy. This represents a capture of “new growth” in our assessed valuation due to the nominal new construction that has taken place. This is the smallest levy increase in the last 14 years. This translates to an estimated real estate tax rate of \$0.9121 per \$100 of Equalized Assessed Valuation, a reduction of \$0.0019 and the lowest rate since 1982.

We continue to diversify our revenue base through the retention and expansion of existing businesses, attraction of new businesses to our community and the redevelopment of underperforming areas within the community.

Along our Rand and Dundee corridor, this past year marked the construction and opening of Arlington Toyota, the opening of a new and expanded Tore and Luke’s and the commencement of construction for a vastly expanded and relocated City Limits Harley Davidson. These projects alone will generate over \$1 million in new annual sales taxes to fund Village operations upon their completion. Additionally, zoning approval was recently granted for a Sonic restaurant further increasing investment in this corridor.

Our downtown area saw the first full operating year of Emmett’s Tavern, Gianni’s Restaurant and Mint Julep. The private investment we have experienced during uncertain economic times is a tribute to the entire community.

Our other retail and commercial corridors have seen a variety of investment. Along Northwest Highway the Glencoe Street shopping center was recently completed which contains Agio restaurant, the Slice of Chicago carryout restaurant, and an Alexian Brothers medical office facility. In addition, by the end of 2009 Taco Bell should complete the reconstruction of their drive-thru restaurant on Northwest Highway.

Other notable projects include the recent opening of Anthem Grill in the former Marlowe’s building at Euclid & Quentin Roads, as well as support of a Cook County 6B

tax classification for the building at 500 S. Hicks Road to help facilitate the relocation of two existing businesses from Arlington Heights.

Despite the poor economy, the Village has not lost focus on sales taxes as an economic driver of our organization. We continue to put forth significant efforts to market our community and sites to both end users as well as the commercial brokers. We hope to realize gains through these efforts when the economy does improve. In 2010, sales tax receipts will comprise over 27.5% of our general fund operating revenues. The recently approved projects will help with further diversification of our sales tax base as well.

The sales tax projections utilized in the formulation of this budget considers the level of estimated actual receipts for the current year, additions from major new sales tax producers, reductions from major outgoing sales tax producers, the state of the economy, and other implicit factors (such as the Cook County sales tax increase).

The overall projection of sales tax for 2010 is an increase of 2% over the 2009 Approved Budget. This takes into account the actual level of 2009 receipts which are well below budgeted expectations, the poor economy, and the introduction of new receipts from users such as Arlington Toyota. Unfortunately much of the increase we had expected from the new Toyota dealership was eroded through the poor economy and the economy's impact on other businesses.

The economic conditions facing the country and our community impact revenues beyond sales tax and property tax receipts. Other significant revenue sources being impacted by the economy are:

- **Food and Beverage** – These receipts have remained relatively stable with projections. The budget anticipates \$1,050,000 from this source. This is a decrease of \$44,600 from the 2009 Budget. A stable and/or improving economy and success of newer restaurants should drive this source higher in the coming years.
- **State Income Tax** – This revenue source was one of the hardest hit due to the economy. Our projected receipts are \$5,636,800. This represents a decrease of \$850,700 or more than 13%.

- **Simplified Telecommunications Tax** – The 2010 Annual Budget contemplates the continuing decline in this revenue source. Projected receipts are \$3,019,670 representing a decline of \$179,330. This represents the 3<sup>rd</sup> consecutive year that this revenue has declined. This revenue is the main funding source for the capital equipment and improvement program. The cost of our equipment and improvements are continuing to rise and our infrastructure and facilities are aging. In years past, the declining Telecommunications Tax required a larger subsidy from our General Fund to meet our needs. The General Fund can no longer sustain our capital programs and additional dedicated revenues will be required to maintain our equipment and infrastructure. By policy we allocate any General Fund surplus at the end of a year to these funds, which to date has allowed us to continue to fund our improvements.
- **Building Permit/Inspection Fees** – As you would expect based upon current conditions, this revenue source has experienced significant decline. Building permit revenues are projected to drop by 20% or \$108,300. One or two large projects could completely turn this around; however, given the state of the economy, we do not anticipate larger projects moving forward for several more years. There is still activity taking place – just on much smaller projects.
- **Fines and Violation Fees** – We are experiencing a decline in Circuit Court fines. We attribute this to a recent Cook County increase in court costs. Data suggests that the total court cost and fines imposed by judges has remained the same although the County raised their court fees. Thus when the total is collected, the County retains a much higher percentage to cover the higher court costs. Additionally, the proposed budget recommends that we double the administrative fee for impounding a car that was taken as part of a DUI or drug related traffic arrest. This will generate approximately \$100,000 in revenues.
- **Red Light Violations** – This revenue has performed better than expected during the first year of operation. Despite a relatively low percentage of tickets written (40%), the total revenue for 2009 is projecting towards more than \$700,000. The Proposed 2010 Budget is projecting total revenues of \$600,000. This assumes that there will be higher compliance rates as well as some known downtime in the system due to the IDOT scheduled work on some of the intersections. These revenues help offset the costs of our traffic unit which includes three police officers dedicated to traffic and truck enforcement efforts throughout the village.
- **Tax Increment Proceeds** – The Annual Budget includes the appropriation of \$400,000 in surplus revenues from the Dundee Road TIF District. The Village has retired the outstanding debt from this project area and as we undertake a

comprehensive review of any further public obligations and improvements, we are recommending that a surplus be declared which will provide a revenue source for our operating budget as well as help all other local taxing bodies.

Many of our other revenues continue to remain relatively constant. Our Code of Ordinances provides for all other Village fees to increase as provided by the Municipal Price Index. You may recall that last year the index would have allowed an increase of 8.1%. Recognizing the trying times and constraints placed upon our taxpayers, we reduced it to 3.5%. This year the Annual Budget reflects a 0% increase in these fees.

### **Reserves**

This budget was created with careful consideration of the existing reserve levels and their projected levels in future years. When considering the existence of reserves and the year-to-year surpluses or deficits that create or deplete them, it is important to keep a multi-year perspective. In many cases, a surplus or deficit is merely a timing difference between receiving revenues and paying expenditures. An example of this situation is when a bond is issued in year one of a multi-year project. The first year shows a large surplus, while future years show deficits as expenditures are incurred. This is particularly evident in capital and utility funds.

The targeted operating reserves set by the Reserve Policy are at levels considered prudent to provide for uninterrupted municipal services and preferred bond ratings. This can be clearly illustrated in the case of the lagging revenues, such as the Simplified Tax or even the delay in receipt of property taxes this year. The Village has been able to provide uninterrupted service delivery while using reserves to cash flow operations until the budgeted revenue comes in.

The General Fund Reserves are projected to be approximately \$17.1 Million, which is at the higher end of the reserve range that is recommended by the bond rating agencies.

In the case of capital related funds, these reserves are considered sinking funds. It would not be fiscally prudent or practically feasible to fund current capital expenditures with current dollars nor to issue bonds for all capital purchases. In this case, these reserves can be likened to a savings account. A present example is the reserve levels we are establishing knowing the 100 foot aerial ladder truck will need to be replaced in

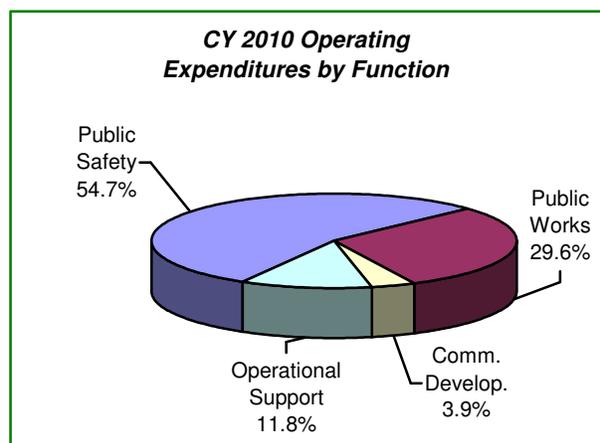

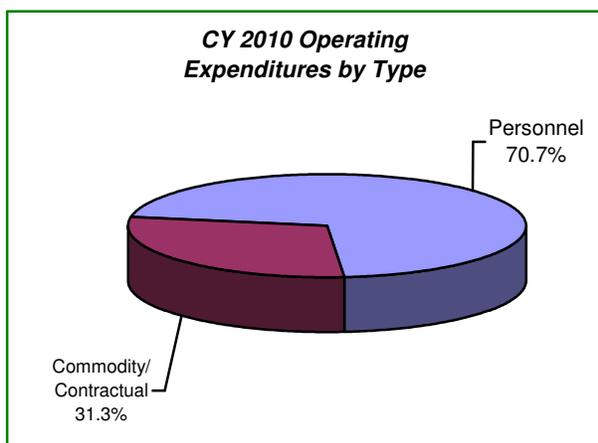

another 3 to 4 years at a price well in excess of \$1 million. Additionally, these funds can be used to fund one-time emergency purchases, such as was done with the lift station generators in CY 2007 and excess road salt in CY 2008.

**Annual Operating Budget**

The Annual operating budget demonstrates a very modest 1.09% increase in actual operating costs over our 2009 Budget. This included a need for \$761,605 in expenditure reductions to bring the general fund operating budget into balance. This was accomplished through personnel reductions and service level adjustments. The net result of the changes since the Proposed Budget was submitted have resulted in an operating budget of \$61,346,845 which is 1.09% over last year. Our mandated pension costs for police and fire alone represent a \$1.6 million increase. But for these increases, our budget would be decreasing by more than 1%.

Our current operating expenditures are summarized as follows:

<b>Expenditures by Category</b>	<b>Amended 2009</b>	<b>Annual 2010</b>	<b>% Change</b>
Personnel	\$ 41,836,920	\$ 43,401,195	3.74%
Commodities/Contractual	18,848,864	17,945,650	(4.79)%
<b>Total Operations</b>	<b>60,685,784</b>	<b>61,346,845</b>	<b>1.09%</b>

The 2009 operations budget, as amended, includes the decisions made during the first three quarters of the year. A comparison of the current operations budget as amended to the 2010 operations budget demonstrates how “today’s” operation will compare to

“tomorrow’s”. While this is an important and probably most realistic comparison, it is incumbent on us from a transparency standpoint to also look back and compare the original adopted operations budget to The Annual operations budget. This comparison shows that The Annual operating budget has a lower .78% increase. This is mainly attributable to the mid-year budget reductions that were made in response to lagging revenues.

Local government is a service business. As such, personnel costs, including all benefits comprise a significant portion of our operating budget. In 2010, these costs will comprise 70.7% of the Village’s Operating Budget. This poses unique challenges in a time when the public wants reduced costs and reduced taxes and fees. Many services provided by the Village are mandated services and/or absolutely essential in promoting the public health, safety and welfare. 88.25% of our operating budget funds the services of our police, fire, public works and community development functions. The Village has little choice in whether to provide these services. We continually strive to make sure we are providing the most efficient and cost effective services to ensure the highest return on the investment made by our stakeholders.

In the coming year, the single largest increase within our Operating Budget will be the cost of adequately funding our pension obligations. By law, the Village is mandated to fund pension benefits for all municipal employees. The Illinois General Assembly determines the benefits afforded the employees as well as the employee contributions. The Village of Palatine has absolutely no control over these benefits. We in essence provide the elected officials in Springfield with a blank check every year. Unlike the school system, the municipal government pensions are 100% funded by municipal employees and employers.

Over the past five years, the poor equity markets have had an impact on our pension plans and their actuarially based funding requirements. However, the continuous “pension sweeteners” authorized by the General Assembly – particularly for police and fire pensions, has further added to the costs of these programs.

With no legal way to increase the employee contributions, reduce benefits or defer payments, the Village is left with the daunting task of funding these programs. The proposed budget includes an increase of \$1.85 Million (41.6%) to simply meet the

statutory obligation we face. This one expense has made the difference between having a budgeted surplus and property tax relief as opposed to service cuts, personnel reductions and other fee increases.

Without legislative change by the Illinois General Assembly, municipalities will be facing significant reductions in public safety, longer response times, and significantly higher taxes to pass along to the residents. The system is absolutely broken and there needs to be the political will of our elected state leaders to address this manmade catastrophe. Fortunately, our two elected state officials have not supported the “pension sweeteners.” Unfortunately, they are two voices in a minority opinion in Springfield.

We are struggling to fund existing obligations; any further enhancements will put the local pension funds on the verge of collapse.

Our liability insurance which includes all property and casualty insurance as well as our Workers' Compensation insurance is again a positive story for the Village. We are completing our second year as a self insured organization. The first two years alone have saved us an estimated \$1.47 million. We have been able to fully fund a self insurance reserve fund that will end 2009 with an approximate balance of \$2.2 million. This will protect our funds and limit exposure moving forward. The Proposed Budget recommends a 0% increase in this program.

Our Health Insurance Fund has also outperformed the general trends seen throughout the country. We continue to have exceptionally high network penetration by our employees which has contributed to our success. While national trends suggest increases of 11% for 2010 health insurance costs, the Village is projecting a 0% increase. Had our self-insured plan mirrored the national average, we would have seen an increase in costs of \$530,000.

The departments' operating budgets have all become victims of the economy. There were no increases provided for contractual services and supplies/materials. In fact, most areas actually were reduced to live within our available resources. Programs were reviewed and prioritized to ensure the core Village services would continue to be delivered in the most cost effective manner. Significant program and personnel changes for CY 2010 include:

- **Personnel Reductions** – The budget includes the elimination of 11 FTE positions. These position eliminations have come through a combination of hiring freezes, an early separation program and involuntary reduction in force. The personnel reductions have resulted in a savings of over \$750,000.
- **School Officer** – The Budget calls for the elimination of one police officer assigned to Community Consolidated School District 15. The Village is committed to funding the position through the current 2009/10 school year. At present, District 15 reimburses the Village for 10 months salary of one police officer. We have two officers assigned to their schools. Previously the District had covered two officers but reduced their funding due to budget constraints. Most other police departments that serve District 15 and other surrounding school districts have made similar personnel reductions. It is my hope that through open discussion with District 15 as well as the Village of Inverness, there may be an ability to restore this position prior to the start of the 2010/11 school year. The Inverness residents attend District 15 schools yet contribute absolutely nothing to the cost of the second officer. Total savings of this reduction is \$55,000 for the proposed budget. CY 2011 savings would be an additional \$55,000.
- **Phone System Savings** – Through a detailed review of our current land line phone usage and data lines requirement, we have been able to achieve a \$40,000 (24%) reduction in expected expenses for land-line telecommunications. This reduction was achieved by removing duplicate services, redesigning our data network redundancies, merging voice and data networks where possible, and leveraging our existing fiber network to provide the required connections without reduced quality or service. We are hoping to continue capitalizing on these efforts for additional gains in 2010.
- **Police Overtime Reduction** – The Police Department will be reassigning two officers to the beat program which will increase our manning levels and reduce the need for overtime within the department. The overtime savings throughout the department will be approximately \$50,000 over the 2009 budgeted levels. These officers previously were assigned to the CALEA program which has been recommended for elimination as well as the officer assigned to the front desk. The added personnel on the street will assist our neighborhood policing efforts.
- **Newsletter Reduction** – With the widespread acceptance of our new website, we are increasing electronic communication options including PalatinE-news which will allow more regular communication and information sharing with our residents. The reduction of one newsletter cycle will generate savings of more than \$14,000.

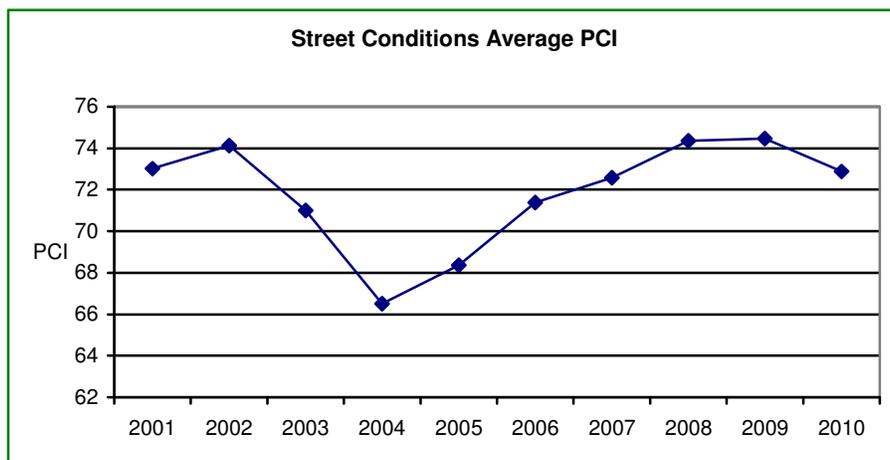

- **Tree Trimming** – Based upon reductions within the public works budget, tree trimming will be reduced from a 5 year cycle to a 9 year cycle. This will generate savings of \$71,000.

**Annual Capital Investment Plan**

Our budget continues a renewed emphasis of investing in our infrastructure. Palatine is a community at a crossroad when it comes to our infrastructure. There are significant portions of the Village that were built 40 to 100 years ago and the infrastructure, from roads to sewers, are showing their age. A significant reinvestment in the infrastructure is necessary for Palatine to remain a strong, vibrant community and safe place to live. The capital investment plan set forth in CY2010 continues this focus. Unfortunately, the investment levels required to protect the public health, safety and welfare of our residents exceed what is available in the current economic climate. There will be difficult decisions that need to be made in the next one to two years to provide ongoing funding to maintain our infrastructure.

**Street Maintenance Programs**

Over the past five years, the village has made significant strides in our street maintenance programs. On an annual basis, streets are evaluated and assigned a numeric rating utilizing a computer model. When streets fall below 60 they begin to enter the 5 year capital plan for resurfacing. In 2004 we were facing the lowest street rating since the early 1990’s. Through increased funding levels back log in streets requiring resurfacing was eliminated last year. In fact, we are ending 2009 at a 10+ year high for street ratings.

Looking to the future, our streets program will be undergoing a significant change. Over the last twenty (20) plus years, the Village has been either in a catch up mode or a sustaining mode when it came to street maintenance. Funding levels for street maintenance have been designed to provide a street system with an average rating in the lower “very good” range (72-74 PCI). In 2009, the Village caught up to this standard once more. However, there are growing concerns about the future condition of our streets and the funding required to maintain them. Additionally, as part of our continuous improvement process, we have a desire to improve upon our efforts which has required a rethinking of our philosophy.

Although many of our streets are approaching their second resurfacing since being constructed, there is a growing number of streets that will need a third resurfacing. Simply resurfacing these streets for a third time is not cost effective, especially given the long-term funding requirements of a more frequent resurfacing schedule. Accordingly, a new program is being proposed called pavement rehabilitation which is designed to essentially rebuild the entire pavement as well as make base repairs, both in an effort to prolong the useful life of the street. Although initially more expensive, the long term impacts insofar as reducing cost are substantial. This budget begins this process.

Based upon the original Village street maintenance philosophy and making the proposed adjustments, the Village will be embarking on a comprehensive, **pro-active** maintenance program designed to not only maintain our street system but to improve it while attempting to minimize future funding levels. This comprehensive program consists of:

- *Crack-filling:* Performed within the first four or five years after a street is constructed or resurfaced.
- *Milling & Patching:* In some instances patching of streets precedes resurfacing by two or three years and in other cases it will address spot or isolated problems.
- *Surface Rejuvenation:* Six (6) years ago the Village eliminated micro-surfacing as a maintenance activity. A comparison of streets with and without micro-surfacing was performed and the program was reinstated in 2009 with plans to continue in 2010.

- *Curb and Gutter:* Multiple programs designed to extend, repair and upgrade curb and gutters throughout the Village. These programs include: the spot curb repair; 50/50 curb replacement; concrete edging; as well as repairs to curbing under the street resurfacing program.
- *Resurfacing:* This activity still remains the backbone of the maintenance program and is usually preformed when the street PCI falls below 50.
- *Street Rehabilitation Program:* This program will start in 2010 and will address those streets that have been resurfaced numerous times, yet do not need to be reconstructed. This activity is usually applied to streets where base failure has occurred or where resurfacing has an anticipated life of less than 10 years. Under this program, activities such as recycling or replacement of pavement, rejuvenation of base or drainage improvements would be addressed.
- *Partial or Total Street Reconstruction:* This activity occurs whenever the condition of the street has fallen to a PCI range of 30 or below and where other maintenance activities are no longer cost effective.

The economic downturn has had a direct impact on the remainder of the 2010 Capital Investment Program. Many popular programs from the past have been either delayed or suspended due to funding limitations. Additionally, there were many equipment purchases or facility projects delayed. Some of these delayed and/or suspended programs include:

- ***Fire Rescue Squad Replacement***
- ***2 Police Vehicles and 1 Administrative Vehicle***
- ***Public Works Trucks and Equipment***
- ***Facility Landscaping***
- ***Forestry Tree Chipper***
- ***Gateway Entrance Program***
- ***Street Lighting***
- ***Pocket Park Beautification***

In total, more than \$1.8 million in equipment, projects and other capital improvements have been either delayed or suspended. Reinstatement of these important projects will require a combination of economic recovery as well as a new funding sources.

Despite the delayed and suspended projects, there is continued investment in our community. Highlights of recommended projects include:

- ***Construction of Police Headquarters***
- ***Replacement of 4 Police Vehicles***
- ***Replacement of 5 Public Works Trucks***
- ***Continuation of Technology Replacement Program***
- ***Sidewalk Replacement/Extension/Hazardous Program***

### **Water and Sewer Funds**

The most significant focus of the capital investment plan over the past decade has been the investment in our storm water and sanitary sewer systems. While there remain new projects to complete, the infrastructure has been significantly rebuilt and expanded, our focus begins to shift towards long term maintenance of that system. Since 2002, well over \$16 million has been invested in improving our sewer systems and providing relief from major rain events. Thousands of properties through the Village have been protected. The 2010 Capital Investment Plan continues to invest in storm water management and other critical sewer and water projects.

More than \$1.79 Million in improvements are proposed for the water and sewer systems. Highlights of these improvements include:

- ***Sliplining Program (\$225,000)***
- ***Private and Isolated Public Drainage Improvements (\$132,000)*** – This will offer assistance to residents with isolated water management areas.
- ***Buffalo Creek Erosion Control and Capacity Enhancements (\$300,000)***
- ***Storm Inlet Reconstruction (\$60,000)*** – This program reconstructs failing storm sewer inlets.

- ***Bridge and Culvert Construction (\$60,000)*** – The 2010 scheduled work is Rose Street at the West Branch of Salt Creek
- ***Storm Sewer Extension (\$200,000)***
- ***Water Main Replacement (\$216,300)***
- ***Osage Park Water Tank Maintenance (\$300,000)***
- ***Storm Sewer Televising (\$90,000)***

The Capital Investment Plan did not provide the funding for \$300,000 in water system improvements. Like our street maintenance program, we are at a critical juncture with our water system. Palatine has many watermains that will be nearing the end of their life in the next 5 to 7 years. It would not be fiscally responsible to wait until that time to establish a funding mechanism to systematically upgrade and reinvest in our system. Our water system is the backbone of our community's public health.

Palatine has historically had some of the lowest water rates within the entire Chicago region. In fact, our current rate is more than 50% below the average rate. It is imperative that our rate begin to adjust to reflect what it truly costs to maintain the high quality water infrastructure we need.

The following table illustrates the Village of Palatine's current 2009 and 2010 water fees in comparison to forty-eight other suburban Chicago communities. Even considering the increase, Palatine water remains a "Best Buy". The approved rate results in an annual increase of \$14.40 for a typical user.

We are presently awaiting the results of the long-range water plan from our consulting engineers. This study will serve as a foundation for setting future water rates. A preliminary estimate would indicate that water rates may need to be adjusted to the range of \$3.00 to \$3.50 per 1,000 gallons used. This would continue to keep us well below the average rate and demonstrate our commitment to providing the most cost effective services.

Municipality	Water Rate per 1,000 Gallons	Bill Amount 10,000 Gallons
Westmont	\$ 9.00	\$ 90.00
Schaumburg	6.24	62.40
Mt. Prospect	6.19	61.90
Rolling Meadows	5.83	58.30
Oakbrook Terrace	5.75	57.50

Target Rate

## TIF Districts

The Annual Budget for the Rand Corridor TIF District is \$1,420,000. The majority of the costs relate to the development of the new City Limits Harley-Davidson motorcycle dealership, the Arlington Toyota dealership, and the construction of the Sonic drive-thru restaurant.

The Village continues to take an active role in promoting the redevelopment of the Rand Road corridor. As one of the Village's primary commercial corridors, the long term viability of the corridor and its various uses is critical to the Village. Ensuring a consistent sales tax revenue stream allows the Village to reduce its dependency on property taxes.

Notable projects planned for 2010 include:

- ***Relocation of City Limits Harley-Davidson*** – construction of the new dealership will occur in 2010. In conjunction with construction of the new motorcycle dealership the Village will be completing the extension of a water main along the Rand Road frontage. This extension will provide an overall benefit to the Village's water supply system within the area.
- ***Sonic restaurant*** - construction of a new Sonic restaurant on the former Fuddrucker's site will commence in the spring of 2010, with completion anticipated by early summer.

The Downtown Area TIF District budget for 2010 is \$604,000. The primary project included within the Downtown Area TIF District is the Palatine Road/Plum Grove Road intersection improvement project, completion of The Heritage condominium/brownstone development, and the remodeling of the former bank building at the southwest corner of Bothwell and Slade Streets.

## Refuse Fund

The Annual Budget includes no rate increase for refuse collection for the second consecutive year for single family homes. In fact, we continue to enjoy rates that are

below our 2000 level. Our residents continue to shift more materials into recycling which saves the Village money and offsets rate increases.

### **Debt Service**

The Village continues to maintain its Aa2 Bond Rating from Moody's and AA+ from Standard & Poor's. As noted in the last bond rating review, these ratings reflect the Village's large and growing tax base with above average income indices; healthy financial position with significant financial flexibility; and moderate debt burden largely supported by revenue sources other than the general tax levy. We believe that the Village's strong financial position (healthy reserves, strong revenues, etc.) and management's fiscal responsibility, as demonstrated by this budget, will be strong factors to maintain or perhaps increase our ratings in the future.

The Annual budget includes an appropriation of \$12,870,370 for the purpose of paying annual principal and interest on the Village's outstanding debt. Of the total \$12.9 million appropriation, \$6.87 million (53.4%) is provided by TIF Revenues, \$2.30 million (17.9%) is provided by Water and Sewer Revenues, and \$1.08 million (8.4%) is provided by the Flood Control Fee. These other sources reduce the property tax burden on our stakeholders by a total \$10.25 million or approximately \$0.50 per \$100 EAV on the tax rate. More than 79% of our debt is paid through sources other than property taxes levied throughout the Village.

An economic development success story related to debt is the Dundee Road and Rand/Dundee (Target – Home Depot) TIF Districts. Due to the financial success of these Districts, accelerated principal payments on the TIF Revenue Bonds were scheduled for January 1 of each year beginning in CY 2008. These accelerated payments were made in the amounts of \$6.475 million and \$4.635 million in CY 2008 and CY 2009, respectively. These accelerated payments (along with an accelerated payment of \$5.8 million in CY 2004) fully retired this bond issue in CY 2009 and effectively retired this bond issue 8 years sooner than originally scheduled. This early retirement of debt totaling \$16.91 million saved interest expense in the amount of \$6.325 Million and, as previously noted, will potentially provide the opportunity for the Village to realize its portion of the increment (currently \$400,000) sooner.

---

## The Future

Last year, the Proposed Budget was presented with a “Hold List”. This list represented projects that could be delayed or dropped in an effort to have a balanced budget at the end of the year. The Village did have to take action on many items on the “Hold List”.

The Annual 2010 Budget has no additional room for such a “Hold List”. Millions of dollars in projects and programs as well as personnel have been cut from the budget prior to its submittal to the Village Council. Any further reductions will require elimination of programs all together and significant personnel reductions.

Staff will again closely monitor revenues over the first six months of the year and provide the Council with a detailed review and recommendations on any necessary adjustments based upon this review.

The economic world we live in has forever changed. This budget begins the realignment process with the new economy. Our programs and projects have changed to reflect the revenues that exist. We are at a critical juncture when it comes to our infrastructure. There will need to be new dedicated funding sources for us to maintain our roads, bridges, watermains and sewers if we are to continue to have a safe environment to call home.

## Conclusion

The 2010 Annual Budget and Capital Investment Plan will serve as a strategic guide for our organization in the coming year. The Annual Budget reflects a renewed focus and prioritization on the core services that local government must deliver. Our employees continue to be the key to operational and financial success. We are committed to providing the highest quality services at one of the lowest costs.

I believe that the Annual Budget will meet the needs of our diverse community while recognizing the economic reality that we are living within.

The Annual Budget is the outcome of a great deal of hard work, dedication and effort of many people. All of the department directors and their staff are to be commended for their continued stewardship of the public dollar and assistance in the development of

this document.

Finally, I would like to personally express my gratitude to the budget team. The leadership demonstrated by Paul Mehring, Susan Conn, and Michael Jacobs helped make this process a collaborative effort.

Respectfully submitted,

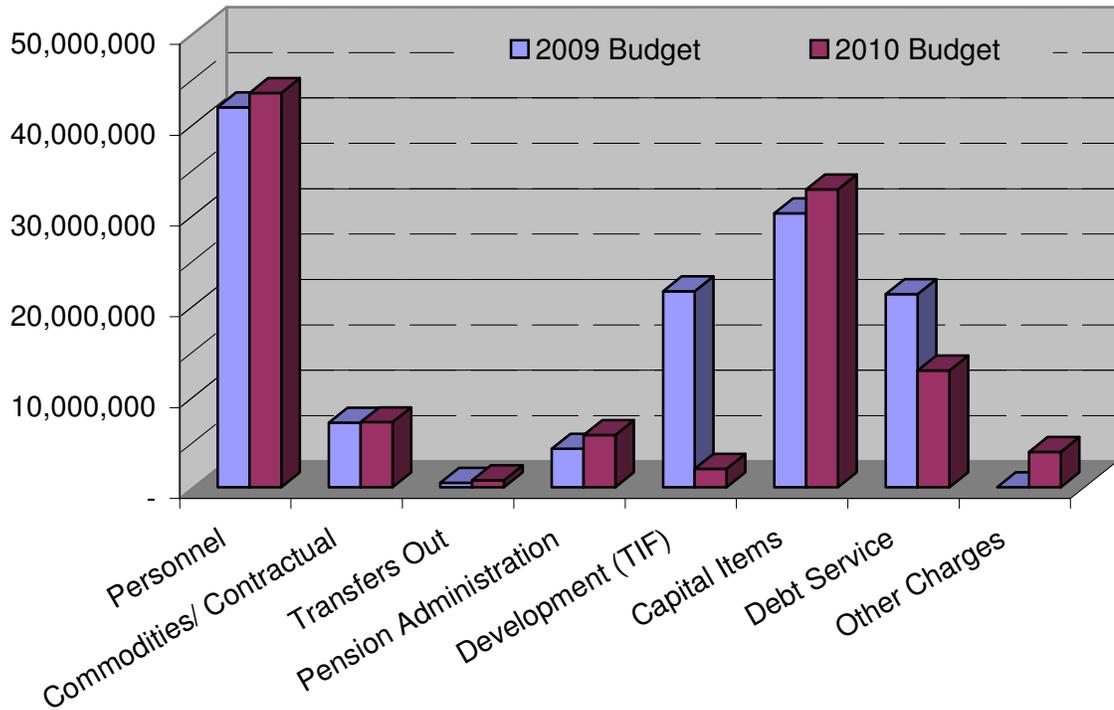

Reid T. Ottesen  
Village Manager

WHERE EACH PROPERTY TAX DOLLAR GOES

---

2008 (PAYABLE 2009) TAX BILL

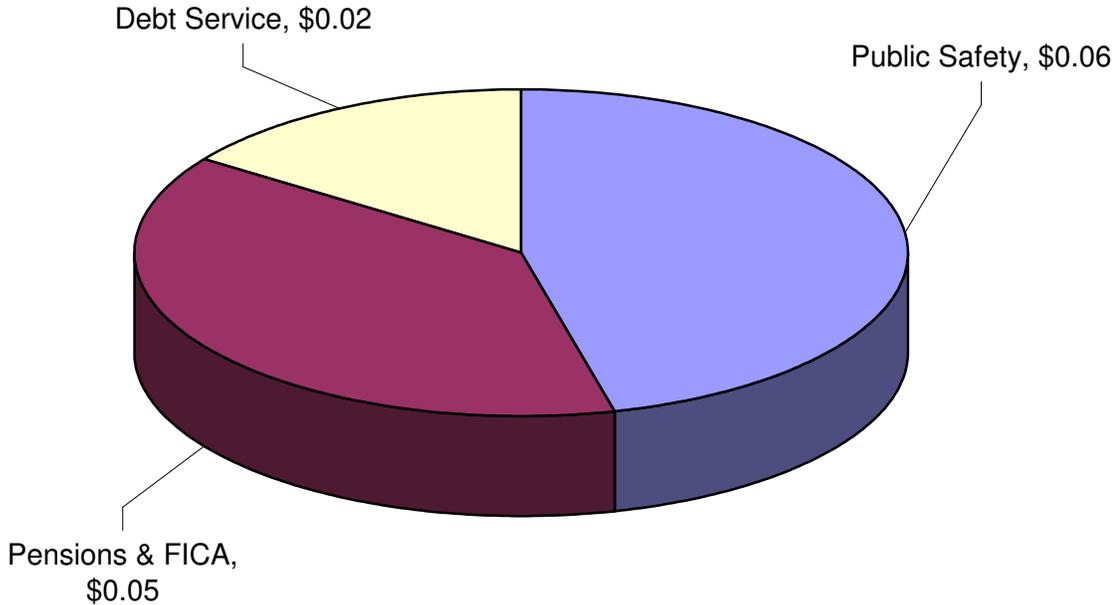

1998 (PAYABLE 1999) TAX BILL

VILLAGE OF PALATINE  
BUDGET OVERVIEW

**WHERE THE VILLAGE'S 13 CENTS OF A PROPERTY TAX DOLLAR GOES**

---

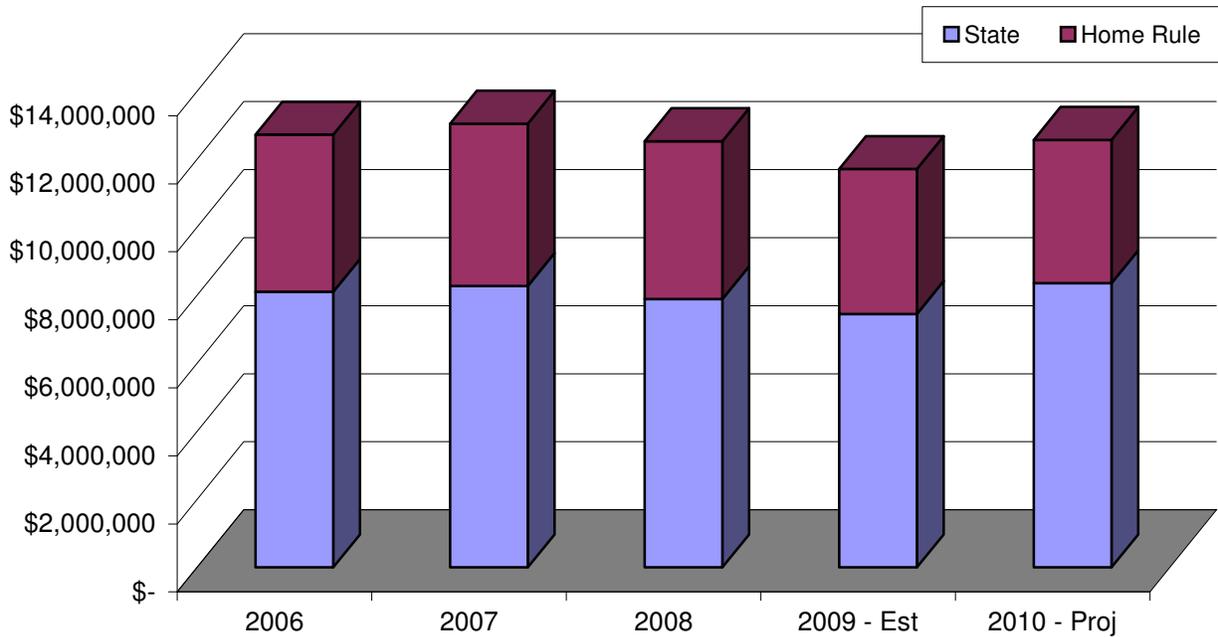

Property Taxes fund Public Safety (Police and Fire Protection), the Village's share of Retirement Plan funding (FICA, IMRF, Police and Firefighters' Pensions), and Debt Service.

The Village has been diligent in monitoring its use of property taxes; the level of the Village's EAV; and the resultant tax rate. It has been the policy of the Village to be cognizant of the impact that the use of property taxes has upon its citizenry. This fact is borne out by the systematically decreasing tax rate. Additionally, as can be seen from the graphs on the previous page, as compared to the other taxing districts within the Village, the Village's portion of the tax bill has remained fairly constant and relatively minor in relation to the total tax bill.

**VILLAGE OF PALATINE  
BUDGET OVERVIEW**

**SALES TAX REVENUE**

The State and Home Rule Sales Taxes are monitored and reported upon each month. This monitoring has been instrumental in identifying the cyclical yearly disbursement trends. This allows the evaluation of monthly receipts in light of recurrent patterns in the collection of this revenue.

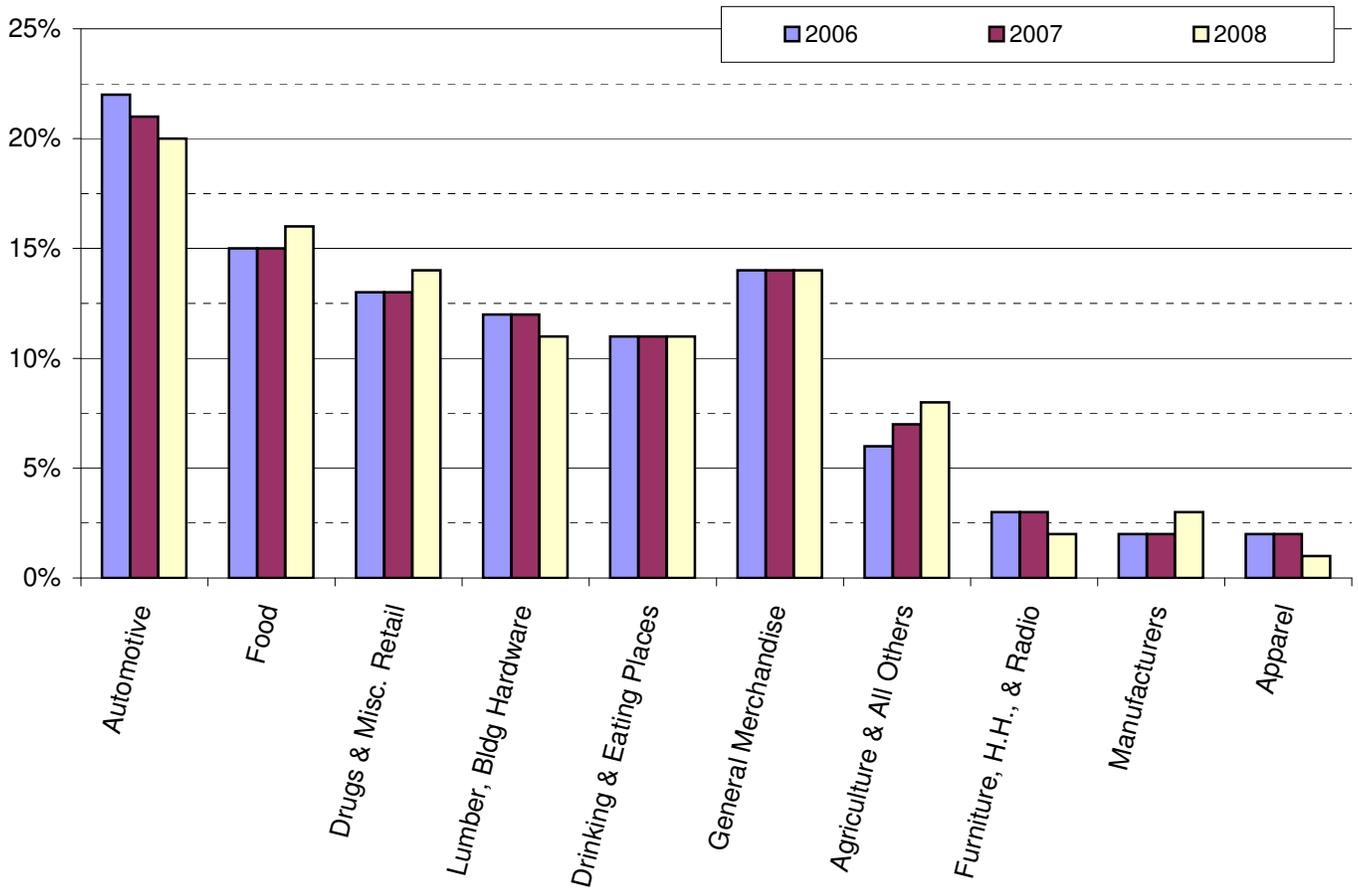

The CY 2010 projection is based upon the current trend of receipts. This revenue source is very dependent on the strength of the economy and is a significant source of revenue to the fund. The graph above illustrates the trend of total collections.

The major strength in this revenue source for the Village of Palatine is the relative diversity in our sales tax generators. As you can see by the chart on the next page, Palatine does not rely solely on one main sector of the local economy.

The diversity of the Village's sales tax generators means that if one sector were to experience a downturn, the other sectors would compensate for it. The important fact to note is what sectors are the largest generators of sales taxes. As can be seen, five of the top 6 producers, excluding automotive, account for 65% of sales tax dollars and are for sectors that are not generally discretionary in nature.

## Department Summary

### Department Description

The Mayor and Village Council serve as the legislative and policy making body of the Village of Palatine. The Mayor and Council set goals and provide leadership to facilitate the attainment of citizen satisfaction. This is accomplished by addressing constituent service requests in a timely manner; assuring broad citizen input/representation on issues; enacting ordinances for the benefit of citizens' health and safety; and representing Palatine's interests at the local, regional, state, and national levels.

### Department Objectives

- 1 Financially stable Village Government.
- 2 Provide a safe place to live.
- 3 Cost effective services responsive to citizens.
- 4 Downtown as a Community focal point.
- 5 Open Government with involved citizens.
- 6 Promote Regional Partnerships.

### Fire & Police Commission

#### Program Description

Created by Article XX of the Code of Ordinances of the Village of Palatine, the Fire and Police Commission consists of three (3) members who are appointed by the Mayor with the consent of the Village Council.

#### Program Objectives

- 1 To establish and maintain rules for the Fire and Police personnel administration regarding: appointment, promotion, dismissal, demotion and discipline of sworn personnel in the fire and police departments.
- 2 To conduct or cause to be conducted hiring examinations that include: a polygraph test, a written examination, an oral interview, a physical agility test, a psychological test, and a medical examination.
- 3 To conduct hearings on removal, discharge, demotion, or investigation of charges.
- 4 To follow the Code of Ordinances of the Village of Palatine in regard to the Fire and Police Commission.

## Board of Health

### Program Description

Created by Article XIX of the Code of Ordinances of the Village of Palatine, the Board of Health consists of seven (7) members, each of whom shall be appointed by the Mayor with the consent of the Village Council. Its purpose is to take an advisory role in matters related to the sanitation and health of the Village.

### Program Objectives

- 1 Support the American Cancer Society Community of Excellence program
- 2 Develop and host community forums on environmental health issues
- 3 Support Village blood drives
- 4 Support the Village employee flu vaccination program
- 5 Support Village Recycling programs
- 6 Village education programs related to sanitation and health

### Beautification Commission

#### Program Description

The Beautification Commission is an eleven-member citizen advisory committee appointed by the Mayor with concurrence of the Village Council. Its purpose is to take an advisory role in promoting beautification Village-wide.

#### Program Objectives

- 1 Define beautification objectives and recommend a beautification plan to the Board.
- 2 Encourage civic awareness in beautification efforts and foster increased awareness in beautification.
- 3 Encourage improvement of commercial property by establishing a recognition program.
- 4 Influence quality of new development and improvement of existing properties.

**Expenditure Overview**

	<b>2009 AMENDED BUDGET</b>	<b>2010 ADOPTED BUDGET</b>	<b>PERCENT CHANGE</b>
<b>Expenditures by Function</b>			
Administration	\$ 710,445	\$ 697,235	-1.86%
Human Resources	553,865	531,830	-3.98%
<b>Total</b>	<b>\$ 1,264,310</b>	<b>\$ 1,229,065</b>	<b>-2.79%</b>
<b>Expenditures by Type</b>			
Personnel	\$ 1,125,775	\$ 1,129,735	0.35%
Commodities/ Contractual	138,535	99,330	-28.30%
<b>Total</b>	<b>\$ 1,264,310</b>	<b>\$ 1,229,065</b>	<b>-2.79%</b>

**Administration  
Issues & Initiatives**

- \* Continue to evaluate all programs and services delivered by Village to prioritize core services
- \* Explore intergovernmental and private sector agreements to reduce costs of services
- \* Conduct revenue source comparison study with other communities to evaluate rates and fees in an effort to identify a permanent funding source for capital needs
- \* Participate in short and long range strategic planning and goal setting with Village Council

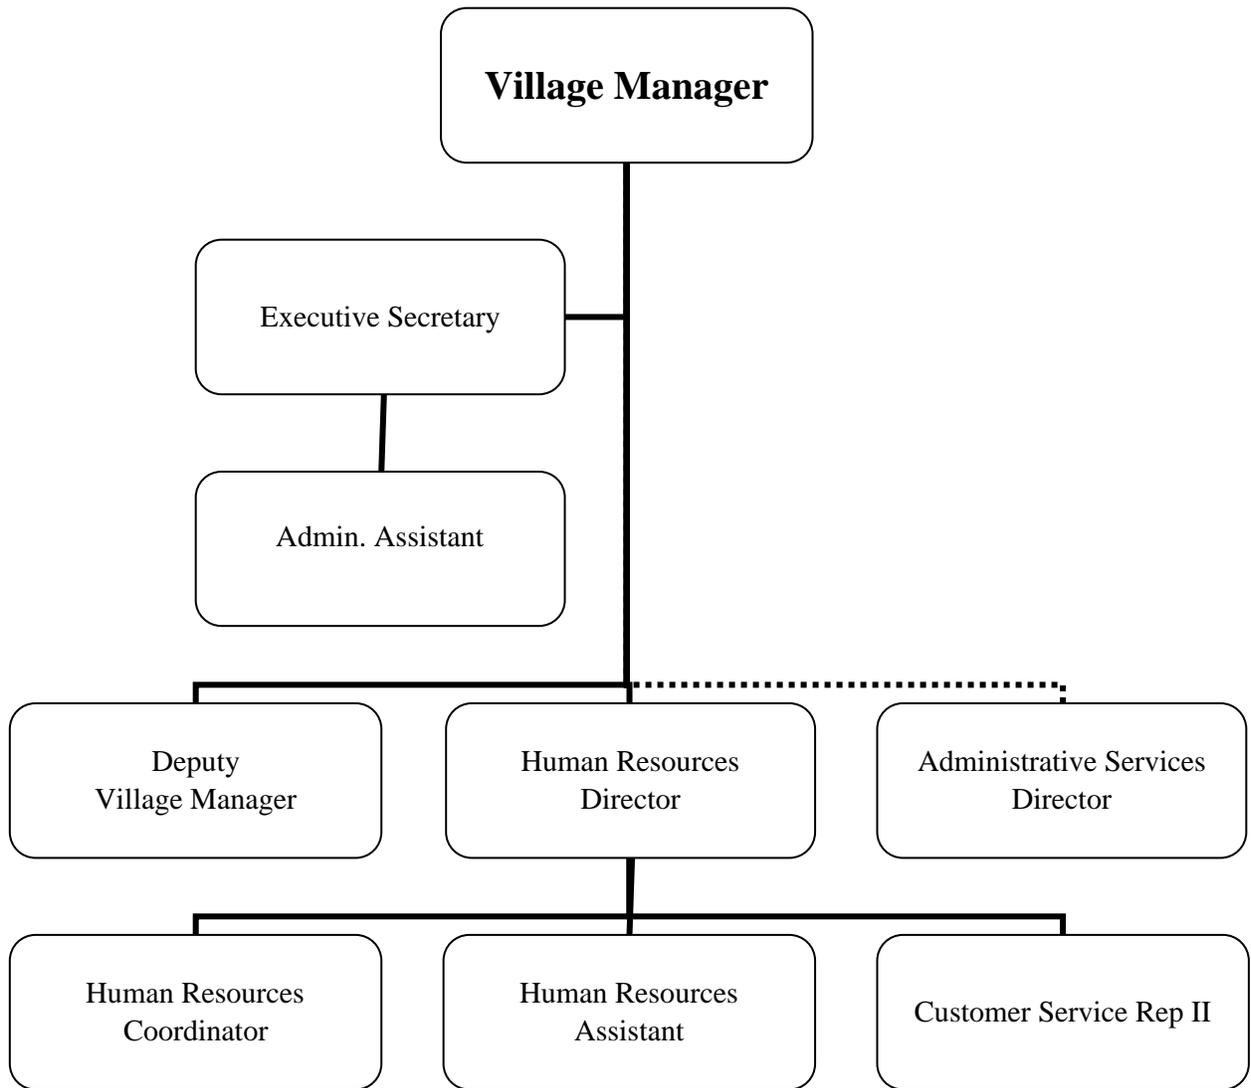

**Human Resources  
Issues & Initiatives - Prior Year**

- \* Conduct supervisory training on "Legal Aspects of Supervision"  
*Supervisory Training Conducted: Behavioral Interviewing for Supervisors, Labor Basics for Supervisor, Getting Ready for Change and Dealing with Difficult People During Difficult Times.*
- \* Benchmark current Human Resource Information Systems and participate in selection process of Enterprise Technology System  
*Benchmark participation is complete. HR is working with the selection team to finalize a recommendation for a vendor.*
- \* Conduct an audit of worker's compensation trends and work with safety committees to develop ways to reduce worker risk  
*Audit completed in October 2009. Results will be reviewed with Manager in the coming weeks.*
- \* Develop employee benefit statements to reinforce the value of Village's Total Benefit package  
*Benefit statements put on hold pending Enterprise Technology System*
- \* Continue to negotiate with IAFF to complete an initial contract for Firefighters and Lieutenants  
*Negotiations continue on the initial contract*
- \* Update Chapter 2, Article XX, (Fire and Police Commission) Village Code or Ordinances to coincide with state statute and other updates  
*Changes are pending. The Commission also implemented a new promotions process for Lieutenants.*

**Issues & Initiatives - Current Year**

- \* Implement initial phases of Enterprise Technology System
- \* Negotiations - continue to negotiate first Fire Contract; prepare for Captain Promotions Process
- \* Support organization through employee meetings, communication during transition following implementation of the Separation Incentive Program
- \* Conduct an audit of liability program to ensure property reserves for loss risk. Review communication process after new accident and update letters
- \* Conduct a routine audit of pay practices under the Fair Labor Standards Act

## Department Summary

### Department Description

Administration ensures that all Village Departments operate efficiently and effectively and meet the goals established by the Mayor and Village Council.

### Department Objectives

- 1 Plan, organize, coordinate and direct the daily activities of the Village.
- 2 Maintain effective labor/management relations.
- 3 Ensure the professional management of the policies and ordinances of the Village.

### Budget Summary

	2008	2009	2010	2011

**Village Manager**

**Program Description**

The Village Manager is the chief administrative officer of the Village and is appointed by the Mayor and Village Council and serves at their discretion. The Village Manager provides professional leadership in the administration and execution of the policies and objectives formulated by the Mayor and Village Council and proposes ordinances, policies and alternative solutions to Village problems for the Mayor and Village Council's consideration.

**Program Objectives**

- 1 Provide direction and leadership to department heads and those who provide direct services to the community.
- 2 Emphasize friendly and courteous service to the public; and seek to improve the quality and image of public service.
- 3 Recognize that the chief function of local government at all times is to serve the best interest of all people.
- 4 Work with the Mayor and Village Council as they develop policies. Discuss problems and recommendations, propose new plans, or discuss issues that affect community and residents.
- 5 Manage the day-to-day operations of the Village of Palatine.

## Human Resources

### Program Description

Human Resources provides overall management and administration over compensation and employment, employee benefits, risk management, occupational health, employee relations, and employee safety.

### Program Objectives

- 1 Ensure quality applicants for Village positions through effective recruitment, examination, and selection.
- 2 Maintain effective labor/management relations through open communication of policies, programs and employee practices.
- 3 Ensure compliance with federal and state labor laws.
- 4 Negotiate and administer labor/management contracts of organized employee groups.
- 5 Coordinate the Village's casualty/liability and health insurance programs.

### Issues & Initiatives - Prior Year

- \* Re-establish the Village's weekly E-News newsletter  
*The PalatinE-News was re-established in August 2009. The PalatinE-News currently consists of two weekly e-mails; a general Village information and upcoming events e-mail, and a Village Council Meeting recap e-mail*
- \* Create on-line forms for Residents for requests of Village Services  
**Implemented Residents can submit the following:**
  - \* *Coyote Sighting Report Form*
  - \* *Bicycle Registration*
  - \* *Public Works Service Request Form*
  - \* *Community Event Sign Board*
  - \* *Sound Waiver Permit*
  - \* *Block Party*
  - \* *Palatine TV Slide*
  - \* *Palatine Alcoholic Beverage Seller and Server Registration Form*
- \* Create two regular monthly programs for Channel 6  
*Still underdevelopment*
- \* Reduce the cost of the Village's Newsletter while maintaining the number of pages and providing full color.  
*Still underdevelopment*
- \* Provide leadership and oversight to the redesign process of the Village's website  
**Completed**
- \* Provide smooth transition in the incorporation of parking violations to the Administrative Adjudication process  
**Implemented in November 2009**

### Issues & Initiatives - Current Year

- \* Reduce the cost of the Village's Newsletter while maintaining the number of pages and providing full color, including conducting a Request for Proposals for editorial and printing services
- \* Create two regular monthly programs for Channel 6
- \* Investigate the creation of a Special Events Ordinance and implement a reimbursement process of Village services to support Special Events
- \* Increase the number of video programs on Channel 6, both created in-house and acquired from outside sources
- \* Reduce the overhead cost of Administrative Hearing Program. Investigate alternatives to pre-trial the matter prior to the hearing date
- \* Implement new collection programs for outstanding debt to the Village, including the creation of a Denial of Village Services Ordinance for businesses or individuals and utilization of a collection agency
- \* Investigate new revenue sources for the Annual Downtown Palatine Street Fest, including increasing the cost of beverages and booth spaces

## Cable Television

### Program Description

This program provides the administration, programming, and use of the municipal access channel and is primarily a liaison between the Village and its residents and the Cable TV Provider.

### Program Objectives

- 1 To handle all complaint calls the Village receives regarding Cable TV.
- 2 To continue placing messages on the Municipal Channel from the Community Center.
- 3 To monitor the extension of cable TV lines into developing areas of the Village.
- 4 To monitor the Cable TV companies for compliance with franchise obligations.
- 5 Provide live coverage of Public Meetings (VC, ZBA, PC)
- 6 Produce new programs of Village issues to be broadcast on cable.

## Administrative Hearing

### Program Description

The Administrative Hearing Division is a Village Judicial System to address Village Code Violations that are currently and not currently transferred to the Cook County Court System. The Hearing Body consists of an Administrative Law Judge presides over cases, similar to a Courtroom.

### Program Objectives

- 1 Provide for prompt and vigorous prosecution of violations of Village ordinances.
- 2 Provide a formal appeals of Compliance Tickets
- 3 Increase compliance with Village Ordinances
- 4 Decrease the amount of time to comply with Village Ordinances.

### Current Violations heard in Administrative Hearing Division

- \* Business License
- \* Commercial Vehicles in Residential Areas
- \* Crime Free Multi-Family Housing
- \* Expired Building Permits
- \* Fire Alarm Systems
- \* Food & Beverage Tax
- \* General Property Maintenance
- \* Grass and Weeds
- \* Gravel Parking Lots
- \* Home Business Occupancy
- \* Illegal Banners/Commercial Signs
- \* Rental License
- \* Restaurant Food/Health
- \* Right-of-ways signs
- \* Red Light Traffic Violations Appeals

### 2009 Expanded Violations scheduled for Hearings

- \* Palatine Liquor Server Permit (BASSET) Violations
- \* Parking Ticket Appeals
- \* Police Related Compliance Ticket Appeals
- \* Special Use/Planned Unit Development Violations

### Budget Summary

## Department Summary

### Department Description

The Village Clerk's office carries out the statutory requirements by complying with the Local Records Act, Freedom of information Act, Open Meetings Act & Election Laws. The Clerk's office administers both the Village's Ethics Ordinance and Cook County's Statement of Economic Interest, and keeps the Village properties tax-exempt. The Clerk's office provides research and retrieval of documents for all Departments, as well as the Village Attorneys. By drafting ordinances, resolutions, liens, and recording documents, the Clerk's office saves legal fees. Maximum electoral participation is encouraged by providing voter registration, assisting with early voting and accepting nominating petitions for consolidated elections. The Clerk's office manages and preserves records in compliance with state statutes and also provides notary service, accepts passport applications, and is utilizing Laser fiche (the document imaging system).

### Department Objectives

- 1 Continued compliance with statutory requirements with Open Meetings Act, Freedom of Information Act and Local Records Act
- 2 Combine previous indexes of minutes, ordinances and resolutions into Laser fiche for a more streamlined search process
- 3 Continued conversion of previous years minutes, ordinances and resolutions into Laser fiche for easier and faster retrieval of records

## Financial Administration

### Program Description

Financial Administration is responsible for financial analysis and reporting, development of financial policies, economic analysis, cash management, and investments. The Director serves as the Chief Fiscal Officer of the Village and acts as the primary contact with the Village's outside auditors, bond counsel, rating agencies, and underwriters. The Financial Administration division also is the process and monitoring agent of the Village's economic incentive agreements and tax increment financing districts. It also provides general supervision and oversight of the Accounting and Customer Service Divisions.

### Program Objectives

- 1 Continue Downtown Redevelopment and Support
- 2 Develop and implement financial plan for the construction of public buildings.
- 3 Continually monitor the fiscal condition of the Village and report to the Council.
- 4 Maximize interest earnings through aggressive cash management.

**Customer Services**

**Program Description**

The Customer Service Division is responsible for providing the initial point of contact between the Village and its customers, either by telephone or in-person traffic. The significant areas of responsibility include cash collections, issuance of commuter parking permits, general office support (mailing and duplicating services), the billing of commercial and residential water, sewer, and refuse collection accounts, and administration (billing, collection, and monitoring) of various local taxes and miscellaneous billings.

**Program Objectives**

- 1 Provide front-line reception/information service in the Community Center main lobby.
- 2 Receipt and balance cash collections and make bank deposits on a daily basis.
- 3 Answer and direct all phone calls made to the main Village phone line.
- 4 Present water, sewer and refuse customers an accurate bill on a timely basis.
- 5 Maintain accurate records of customer account activity.
- 6 To coordinate with Community Services and Public Services to maintain courteous and timely levels of service for installation and replacement of meters.
- 7 Continue Vehicle Licensing Program.
- 8 Provide mail collection and distribution services to Village departments.

### Accounting Services

#### Program Description

Accounting Services is responsible for the proper, accurate, and timely recording of all fiscal transactions of the Village and the reporting of these transactions in accordance with Generally Accepted Accounting Principals (GAAP). Specific areas of concentration include but are not limited to intergovernmental grants, public safety pension plans, and administration of various Village loan programs. It also provides for the preparation and distribution of all bi-weekly disbursement and payroll checks.

#### Program Objectives

- 1 Receive GFOA's audit award for the Comprehensive Annual Financial Report.
- 2 Review all fiscal operations under a best business approach to identify areas for improvement.
- 3 Provide for the issuance of the bi-weekly warrant on a timely basis.
- 4 Provide for the issuance of the bi-weekly paychecks on a timely basis.

### Issues & Initiatives - Prior Year

- \* In conjunction with IT and other Village departments, identify successful ERP Software provider. Begin Phase 1 Implementation of new system  
*Began selection process. It is anticipated that a finalist will be selected and negotiations will begin prior to December 31, 2009.*
- \* Identify successful proposal and install Pay-On-Foot machines  
*This program has been put on hold for the time being due to numerous changes in the configuration of and additions to the Village's commuter parking lot system.*
- \* Obtain GFOA's Certificate of Achievement in Financial Reporting for 9th Consecutive Year  
*This goal was obtained.*
- \* Complete a Comprehensive Water Rate Study  
*This Study was placed on hold pending the completion of the Master Water System Study that is being overseen by the Public Works Department.*
- \* In conjunction with Community Services, explore Commercial Waste Hauling Franchise  
*This initiative was placed on hold.*
- \* Provide support to Storm Water Utility Fee process  
*The Finance Department provided all the requested information.*

### Issues & Initiatives - Current Year

- \* Continued monitoring of and reporting on the Village's fiscal condition.
- \* Complete a successful issuance of bonds to fund the Village's Public Safety Building Projects, continue evaluating potential refunding opportunities, and maintain the Village's good bond ratings.
- \* Complete a Water and Sewer Rate Study to provide funding for operational and capital maintenance needs of our aging utility infrastructure.
- \* Obtain the GFOA's Certificate of Achievement in Financial Reporting for the 10th consecutive year.
- \* Begin implementing Phase 1 of the Village's new ERP system.

## Financial Administration

### Program Description

Financial Administration is responsible for financial analysis and reporting, development of financial policies, economic analysis, cash management, and investments. The Director serves as the Chief Fiscal Officer of the Village and acts as the primary contact with the Village's outside auditors, bond counsel, rating agencies, and underwriters. The Financial Administration division also is the process and monitoring agent of the Village's economic incentive agreements and tax increment financing districts. It also provides general supervision and oversight of the Accounting and Customer Service Divisions.

### Program Objectives

- 1 Continue Downtown Redevelopment and Support
- 2 Develop and implement financial plan for the construction of public buildings.
- 3 Continually monitor the fiscal condition of the Village and report to the Council.
- 4 Maximize interest earnings through aggressive cash management.

### Accounting Services

#### Program Description

Accounting Services is responsible for the proper, accurate, and timely recording of all fiscal transactions of the Village and the reporting of these transactions in accordance with Generally Accepted Accounting Principals (GAAP). Specific areas of concentration include but are not limited to intergovernmental grants, public safety pension plans, and administration of various Village loan programs. It also provides for the preparation and distribution of all bi-weekly disbursement and payroll checks.

#### Program Objectives

- 1 Receive GFOA's audit award for the Comprehensive Annual Financial Report.
- 2 Review all fiscal operations under a best business approach to identify areas for improvement.
- 3 Provide for the issuance of the bi-weekly warrant on a timely basis.
- 4 Provide for the issuance of the bi-weekly paychecks on a timely basis.

**Expenditure Overview**

	<b>2009 AMENDED BUDGET</b>	<b>2010 ADOPTED BUDGET</b>	<b>PERCENT CHANGE</b>
<b>Expenditures by Function</b>			
Administration	\$ 941,485	\$ 884,830	-6.02%
GIS	192,150	206,210	7.32%
Village Phone System	248,070	215,385	-13.18%
<b>Total</b>	<b>\$ 1,381,705</b>	<b>\$ 1,306,425</b>	<b>-5.45%</b>

<b>Expenditures by Type</b>			
Personnel	\$ 999,455	\$ 938,225	-6.13%
Commodities/ Contractual	382,250	368,200	-3.68%
<b>Total</b>	<b>\$ 1,381,705</b>	<b>\$ 1,306,425</b>	<b>-5.45%</b>

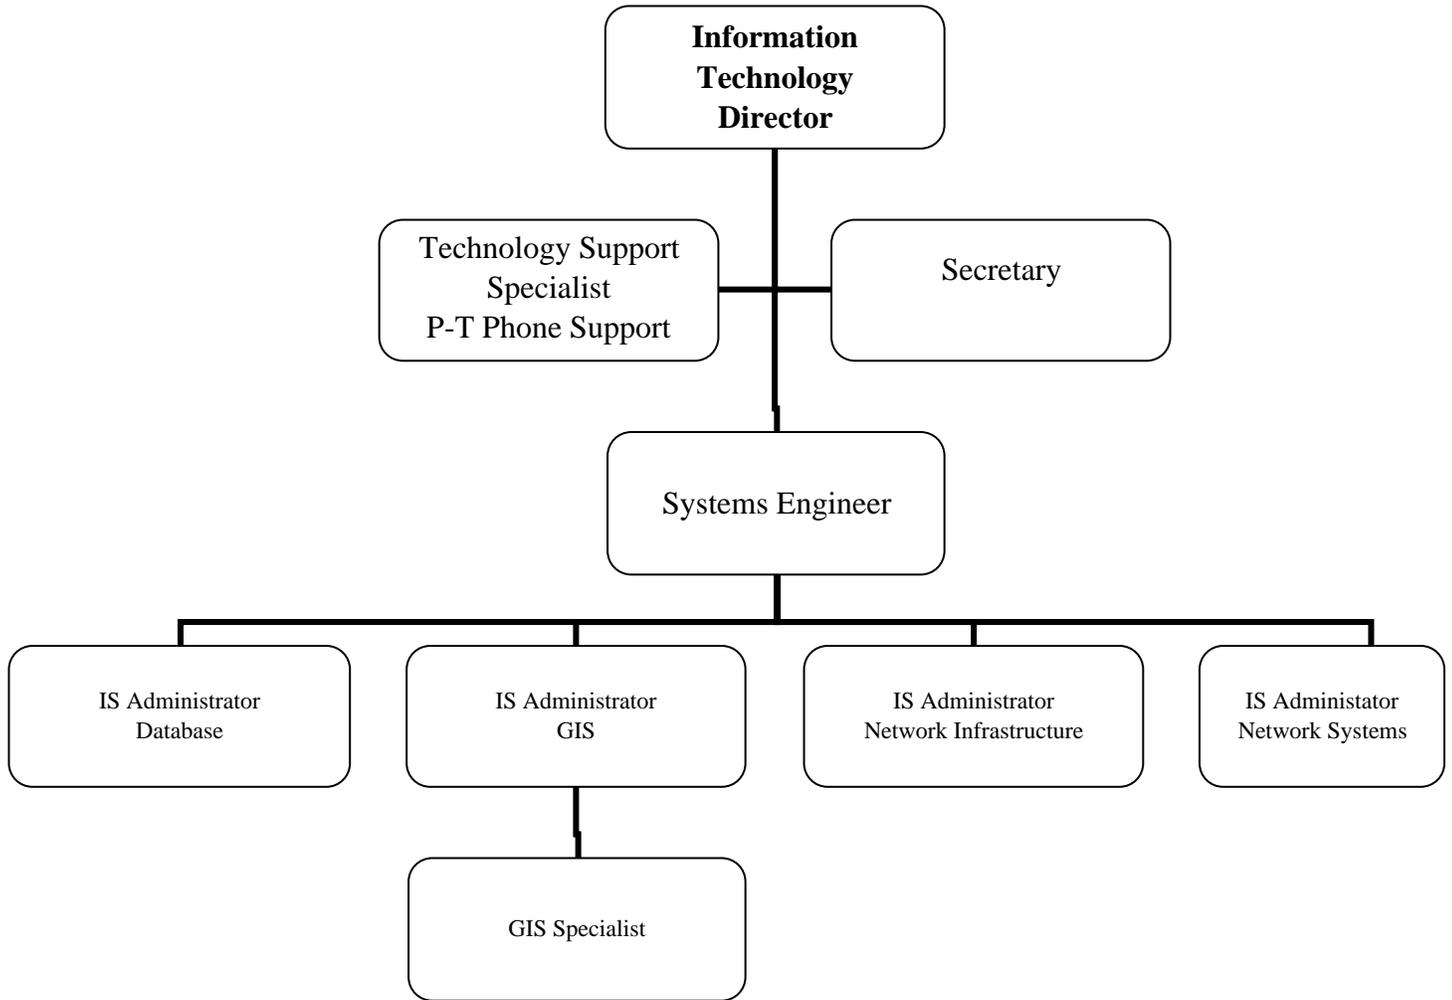

### Issues & Initiatives - Prior Year

- \* Redesign web site for more efficient communications and on-line interactions with the community  
*Completed redesign of web site in August, with an official launch in Sept. New system enabled distributed editing along with multiple new features for the use of the Village*
- \* Complete vendor selection and phase 1 implementation of ERP replacement  
*In progress on vendor selection with expected contract by end of year. Phase I is planned for implementation next year*
- \* Implement integration between Geographical Information System and other systems to allow the automatic generation of Maps and diagrams  
*Implemented automatic generation of Crime Maps for PD, created integrations between Permits Plus for recaptures. Planned integrations for laserfiche are still underway*
- \* Maintain system availability of >99% for major systems  
*Currently running with 99.2% availability for the year on major systems*
- \* Complete Disaster Recovery testing of all major systems  
*Most major systems have been tested where possible. A formal DR plan was created with all major system defined by the BIA results. Testing was accomplished for parts of the email system (including mail servers), File servers, application servers. Currently the database servers are the most difficult with minimal testing due to projects underway which effects the process used to recover.*
- \* Expand VOP network to additional secondary sites, such as the Palatine Opportunity Center or PD substation  
*Extended VOP network to Palatine Opportunity Center and accomplished major upgrades in FD 84/83*
- \* Explore expansion of GIS services to other governmental units on a subscription basis  
*Meet with different governmental agencies such as the Palatine Rural FD, Palatine Township, etc. Were contracted by Rural to update their Fire Map books to format provided to Palatine FD. Expected completion by end of year.*

### Issues & Initiatives - Current Year

- \* Complete network infrastructure upgrade, voice integration, and incorporation of the new FD 81
- \* Complete project plan and phase 1 of Enterprise Resource Planning
- \* Complete upgrade and integration of Village software such as CFA, Netware, ArcServer, and others
- \* Plan and begin deployment of Windows 7 and Office upgrade for the Village
- \* Maintain system availability of >99.2
- \* Investigate and implement web based mapping application where appropriate, such as water shutoff or overnight parking

## Department Summary

### Department Description

The Information Systems Department contributes to an efficient and productive village government, consistent with our enterprise mission and vision. We provide our Village team partners with timely, useful, and efficient access to information through modern technology.

### Department Objectives

- 1 Provide vision, leadership, and a framework for evaluating emerging technologies and implementing proven information technology solutions.
- 2 Work with our internal partners to improve business operations by understanding business needs and by planning, implementing and managing the most effective information technology solutions available to meet those needs.
- 3 Provide a reliable communication and technology infrastructure foundation on which to efficiently conduct Village business operations today and into the future.
- 4 Develop and maintain a technically skilled staff that is competent in current and emerging information technology and a user group (CUG) that understands and can carry modern technologies back to their departments to maximize business benefits.
- 5 Provide effective technical and fiscal management of the department's operations, resources, technology projects and contracts.

## Administration

### Program Description

Evaluate business processes for design opportunities and automation. Use new technologies to make business methods a reality. Exploit functional commonality across organizational boundaries.

### Program Objectives

- 1 To ensure Village standards in the implementation of all departmental requests for equipment purchases, software procurement, programming and file maintenance, access to mission critical applications and to facilitate the use of departmental personal computers.
- 2 To ensure system and data security for all operating systems.
- 3 To maintain an information system that meets the technological and informational needs of the Village in the most cost effective means possible.
- 4 To establish and maintain Village technology resources, ensuring shared data and peripheral resources.

## GIS

**Program Description**

The GIS group performs the functions of planning, maintaining, and developing the Village wide GIS system and supporting it's users.

**Program Objectives**

- 1 To provide maintenance for, and updates to existing Village GIS maps and associated databases.
- 2 To provide short and long term planning and guidance for the further development and leveraging of the Villages GIS system.
- 3 To promote the use of the GIS system within the Village in order to maximize the benefits of the Village's investment.
- 4 To provide GIS access and services both within the Village and to the public in order to enhance communications, efficiency and service to the residents.

## Village Phone Systems

### Program Description

This program provides the administration, programming, and maintenance of telecommunications equipment and services to all Village Departments.

### Program Objectives

- 1 To ensure a functional, cost effective Telecommunications System.
- 2 To ensure proper upgrades are available to internal customers, new telephone devices etc.
- 3 To ensure proper tools and materials and availability for telephone maintenance.
- 4 To provide for a maintenance agreement which ensures minimum telecommunication system downtime.

<b>Total</b>	<b>\$ 2,027,585</b>	<b>\$ 1,805,235</b>	<b>-10.97%</b>

## Issues & Initiatives - Prior Year

### Neighborhood Services

- \* Creation of bi-lingual rental licensing information brochures (example: Landlord Tenant Rights Brochure, etc)  
*Completed*
- \* Develop a central complaint filing system  
*Completed*
- \* Revamp Neighborhood Services internet website to make it more informative and user friendly  
*NS Webpage revamped in conjunction with new Village website*

### Environmental Health

- \* Adoption of 2008 food code  
*To be adopted in November 2009 effective January 1, 2010*
- \* Create a green resources web page  
*Recycling info completed, further development of webpage in progress*
- \* Start an internal recycling committee  
*Moved to 2010*
- \* Explore Commercial Waste Hauling Franchise  
*Data from existing waste hauling franchises collected and compared. Info provided to Village Manager*

### Building Permits and Inspections

- \* Obtain LEED accreditation  
*Completed*
- \* Investigation and possible implementation of a backflow prevention certification program  
*Completed, data collection phase completed*
- \* Investigation and possible implementation of bringing the Elevator Inspection Program Back In-House  
*RFP for elevator consultants have been mailed, consultant selection scheduled for November with in-house elevator program to start in January 2010*

## Issues & Initiatives - Current Year

### Neighborhood Services

- \* Formalize Police Beat/Property Maintenance Inspection Program
- \* Investigate and report on local proactive property maintenance programs

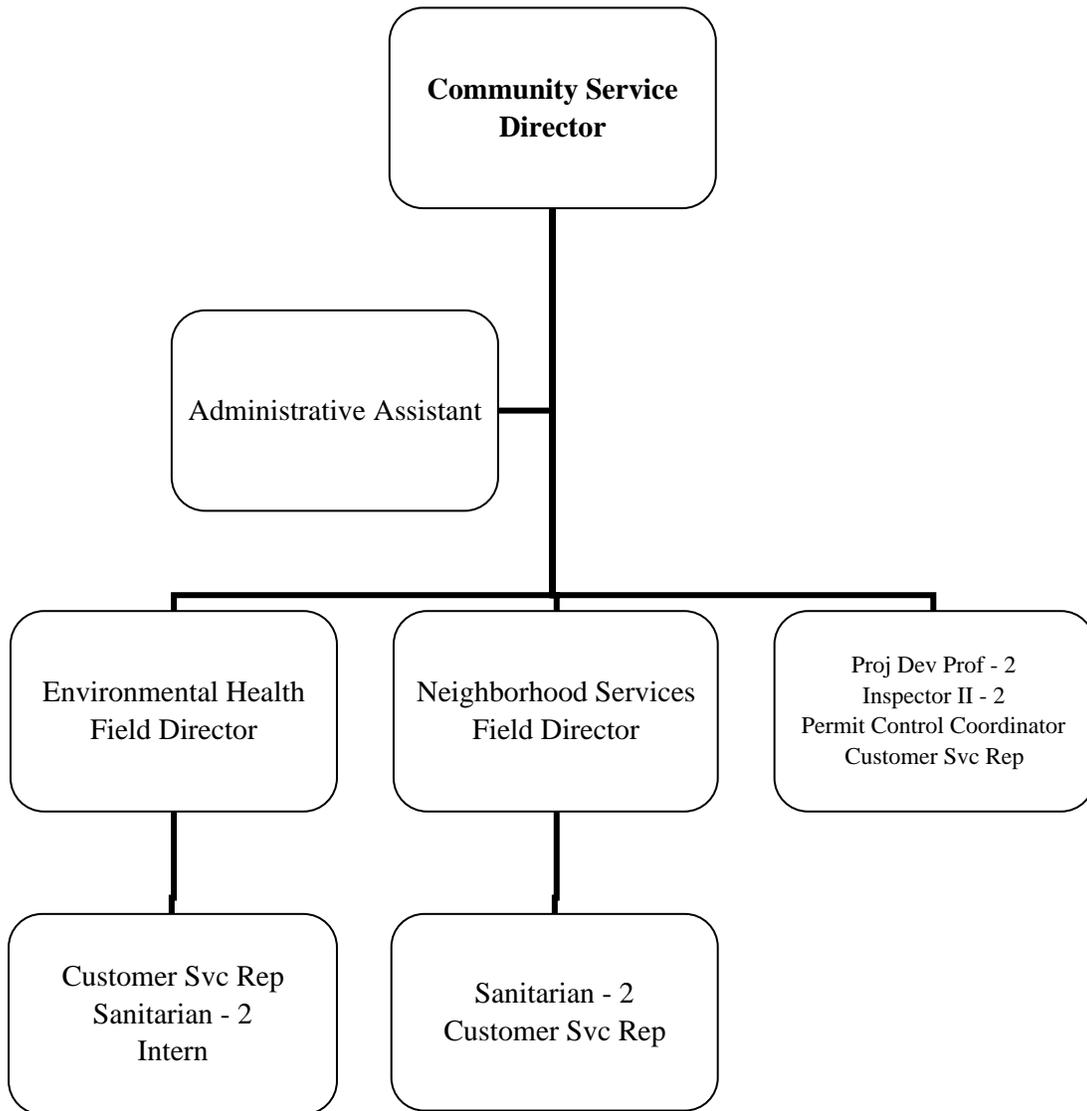

### Environmental Health

- \* Continued Training of Food Establishment Owners on the 2008 food code changes
- \* Start an internal recycling committee

### Building Permits and Inspections

- \* Completion of green resources web page
- \* Incorporate and manage Backflow Prevention Certification Program information in GIS
- \* Implement bi-annual Elevator Inspection Program

**Building Permits & Inspections**

**Program Description**

Building Permits & Inspections reviews all plans for permits to see that they meet the requirements and codes adopted by the Village, is responsible for inspecting, at the determined interval, the construction as described in the permit to verify that it is built according to the approved plans, and coordinates required information from all departments to review plans and maintain all records associated with the permit from application to occupancy.

**Program Objectives**

- 1 To assure that the adopted ordinances and building codes, as they relate to construction, are adhered to by the developer, architect and builder.
- 2 To maintain the positive working relationship between Building & Inspection Services and the construction community, as well as the general public and the business community.
- 3 To maintain accurate records of the daily activities of the inspectors in the field as they relate to an individual permit.
- 4 To maintain and improve a positive customer service relationship.

### Neighborhood Services

#### Program Description

This Division covers all areas and aspects of the rental licensing program and property maintenance/zoning code compliance.

#### Program Objectives

- 1 Immediately respond to complaints regarding property maintenance violations
- 2 To address overcrowding violations
- 3 Pursue housing maintenance code violations to provide for safe structures and enhance the aesthetics of the Village
- 4 All residential rental property shall be inspected and licensed annually.

## Environmental Health

### Program Description

Covers all areas and aspects of the Health Inspection program. The areas covered are food handling inspections, swimming pool inspections, microwave surveys, well water sampling and general complaints (vermin, sewage disposal, etc.) and annual inoculations.

### Program Objectives

- 1 Continue current food handling inspections on quarterly basis.
- 2 Take a proactive role to control high weeds.
- 3 Coordinate with NWMAD to transmit complaints and periodically meet to identify projects to prevent or abate mosquito problems.

### Issues & Initiatives - Prior Year

- \* Execute a scope of services with the selected consultant for the Comprehensive Plan rewrite  
*This process is complete. Camiros, Inc was selected as the most qualified submittal, after completing a competitive RFQ process. A scope of services and contract was negotiated and executed. The comprehensive plan update is underway.*
- \* Draft a unified landscape ordinance for the Village  
*Staff researched and reviewed numerous municipal landscape ordinances and drafted an amendment aligning all current ordinance (subdivision, zoning and Village Code) landscaping requirements in an amendment for Plan Commission and Village Council review. A workshop session with the PC is planned.*
- \* Incorporate illustrations and graphical representations in the Zoning & Subdivision ordinances  
*This process is ongoing. Staff has taken several recent text amendments to the Village Council. In order to complete the incorporation of all graphics into the zoning and subdivision ordinances, staff will continue to work with the IT department to efficiently complete this task.*
- \* Update and revise Zoning ordinance use lists within the commercial districts  
*This process is ongoing. Staff has completed use list text amendments in an as-needed pattern. A complete rewrite is not envisioned, but more substantial amendments are contemplated.*
- \* Complete the HUD recommended orientation to Community Assessment for all CDBG projects  
*This process is complete. Representatives from Planning and Zoning and the Engineering Departments completed the required environmental assessment training and are HUD certified.*
- \* Establish and maintain a vacant commercial property database to assist in Economic Development efforts  
*This process is complete. Co-Star was selected to access a commercial database of available properties within the metropolitan region. The information is linked to the Village's website. Further enhancements are planned.*

### Issues & Initiatives - Current Year

- \* Complete and submit for approval the CDBG and HUD required 2010 5 year Consolidated Plan.
- \* Revise and refine the permitted and special use districts within the manufacturing districts to distinguish between the Colfax corridor and Vermont/Illinois corridor.
- \* Explore the combining of CDBG Action Plans over multi-year cycles to reflect public improvement projects which span several fiscal years.
- \* Complete the 2010 Draft of the Comprehensive Plan and process through the Plan Commission for adoption by the Village Council. It is anticipated that there will be additional sub-area plans and text amendments resulting from this process and pursued by staff.
- \* Draft test amendments to the Zoning and Subdivision ordinance to recognize and regulate alternate energy opportunities. Included within these amendments will be sustainable practices, as identified within the 2010 Comprehensive Plan.
- \* Continue to expand the use and application of the Village's available property database.
- \* Partner with relevant Departments and agencies to implement a formal business retention program within the Village.
- \* Complete the required text amendments to include graphics and expanded definitions to the Zoning and subdivision ordinances.

## Department Summary

### Department Description

The Planning & Zoning Department has, as its primary mission, the improvement and maintenance of the general living conditions (physical environment) of the community. The Department is responsible for providing professional input, technical advice and quality services in the areas of current and long range planning and community redevelopment. The Planning and Zoning Department also recommends plans, programs, and policies to successfully guide the future development of the Village and to adequately serve the public.

### Department Objectives

- 1 Effectively and efficiently manage Palatine's present and future growth and development.
- 2 Improve the community awareness of and satisfaction with department programs.
- 3 Better understand community needs and service demands.
- 4 Coordinate and control the Village programs affecting the community's development.
- 5 Achieve compliance with zoning ordinance violations.
- 6 Recommend land use strategies to improve the Village's Quality of Life.

## Planning & Zoning

### Program Description

The Planning and Zoning program includes new development and redevelopment coordination, zoning administration and enforcement, long-range planning, and community information management. It also includes staff assistance to the Zoning Board of Appeals, the Plan Commission, and other citizen commissions.

### Program Objectives

- 1 To maintain, administer, and enforce an up-to-date Zoning Ordinance.
- 2 To process zoning petitions in a timely and reasonable manner.
- 3 To immediately respond to complaints regarding zoning violations.
- 4 To maintain and implement the Comprehensive Plan and to conduct planning studies as directed.
- 5 To simplify the petition and review process without decreasing review quality.

**Issues & Initiatives - Prior Year**

- \* Integrate the recapture ordinance data base and flood plain parcel with GIS and Permits Plus to identify the affected parcels.

*Completed and Operational*

- \* Cross train Engineering staff between development review and inspection and capital project inspection and construction management

*On-going, the new development inspector has been utilized on some capital project inspections*

- \* Improve the development close out process to involve all departments in final review prior to release of any securities

*Implemented*

- \* Design and construct the water main interconnection with the Brentwood Water System

*Completed*

- \* Design and construct the improvements to Palos Ave between Dundee Rd and Autumn Lane

*Funding for this project was eliminated as part of the mid-year budget adjustment*

- \* Complete the following flood control projects

Buffalo Creek Channel Improvements - *awaiting permits from the IEPA and Corps at Engineers before it can be bid*

Winston Park Storm Sewers - *Completed*

Fairground Park Storm Water Diversion - *Corps of Engineers permit cannot be issued until impact to creek flood levels determined*

Garden/Delmar Storm Sewer Improvements - *Completed*

Capri Gardens Storm Sewer Design - *Design on hold pending completion of the Buffalo Creek Channel Improvements*

Benton/Wilmette Storm Sewer - *Completed*

Fairground Park Sanitary Diversion (Design and MWRD Approval) - *The MWRD has given concurrence to proceed into design*

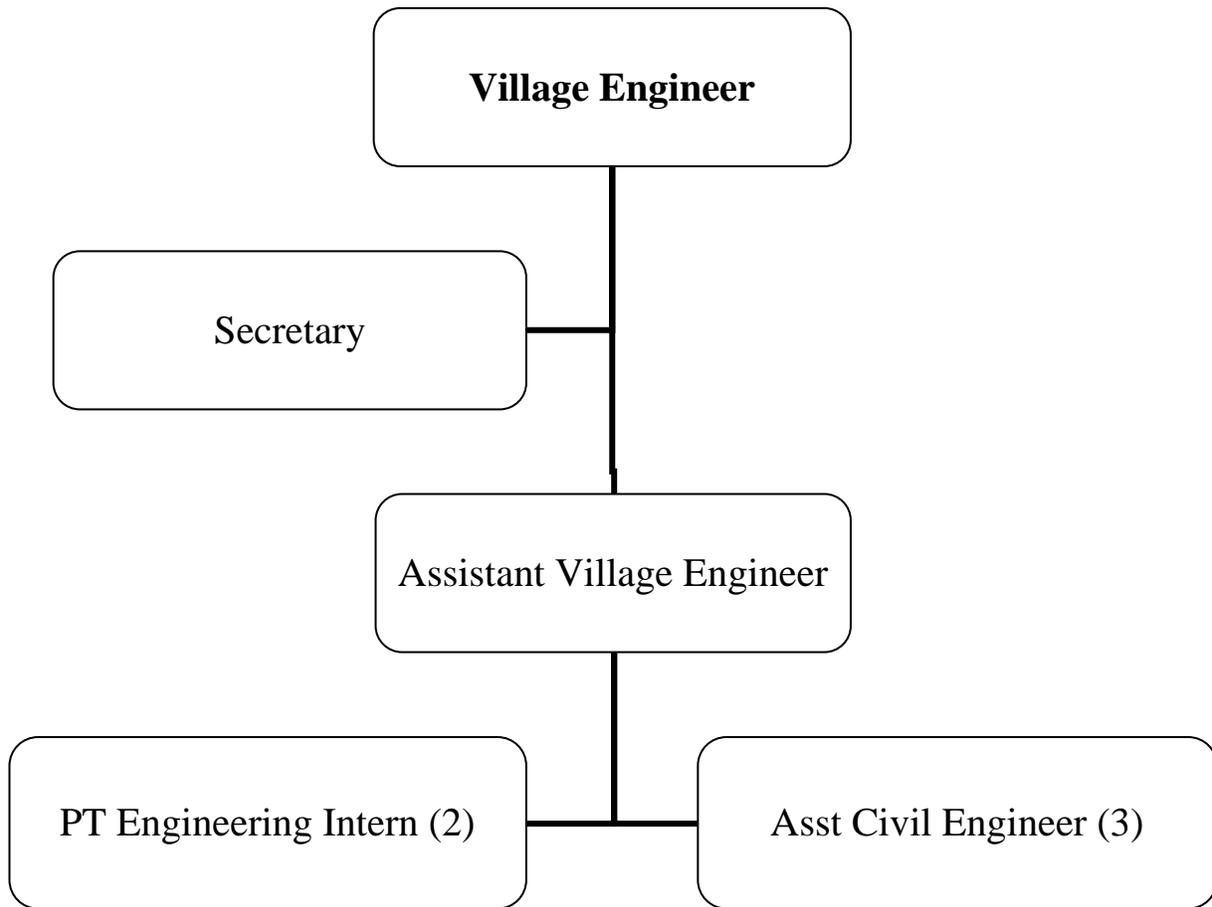

Crescent Ave Ditch Enclosure - *Completed*

S. Williams Dr Ditch Improvements - *Completed*

**Issues & Initiatives - Current Year**

- \* Construct the Palatine and Plum Grove Rd intersection improvement project
- \* Reconstruct Parking Lot#6 in conjunction with the Palatine and Plum Grove Rd intersection improvement project
- \* Construct additional parking on Block 27
- \* Complete the Buffalo Creek Channel Improvements
- \* Design the Capri Gardens storm relief sewer
- \* Design and construct the Fairgrounds Park Sanitary Diversion
- \* Construct the Fairgrounds Park Storm Water Diversion
- \* Utilize Laserfische to archive retired files for easier accessibility and retrieval

## Department Summary

### Department Description

Design of public improvements to achieve the capital needs of the Village as well as the review of private projects to assure compliance with the Village Subdivision Regulations. It also involves the preparation of annexation, vacation and easement plats, as well as various exhibits for use by the Village Council, Zoning Boards of Appeals, Planning Commission and other Departments.

### Department Objectives

- 1 Assure the design and construction of projects are in compliance with good engineering practices and the various codes of the Village.
- 2 Design and coordinate various capital projects to assure their completion without conflict.
- 3 Improve the inspectional aspect of the Division in order to achieve quality development and capital improvements.
- 4 Assist the general public and other individuals with engineering related questions and problems.
- 5 Maintain base maps and utility information and make available for public distribution.

## Issues & Initiatives - Prior Year

- \* With the addition of a second K-9 Team, the police department will have better coverage throughout the day and be able to respond to more calls needing a K-9 response.

*The second K-9 Team has exceeded expectations in providing better coverage throughout the various shifts each day and has been responsible for; 1) several alerts on contraband during search warrants / traffic stops, 2) K-9 demonstrations for homeowner associations, schools and block parties, 3) successful tracks of suspects/offenders, and 4) assists to outside agencies.*

- \* Continue to support and assist the Cook County States Attorney's Office in the trial of James Degorski

*The Palatine Police Department is most thankful for the successful prosecution of James Degorski that led to his conviction for murder in the Brown's trial and sentencing to life in prison without parole.*

- \* To select and obtain a new site for a new police station and finalize the architectural plans.

*The village council chose the property at Hicks & First Bank Dr. as the location for our new police facility. The council also approved the recommendation from the Village Mgr. to enter into the Design Development phase of the project. This phase will be reviewed and brought before the council the end of 2009. Groundbreaking is tentatively*

- \* To equip half the patrol fleet with mobile video cameras to; assist in the successful prosecution of violators, provide in-service training for officers, deter false accusations and determine liability when accusations are made.

*The Police Department requested 11 mobile video cameras in the 2009 capital budget, but was eventually cut from the 'Hold List' mid-year. Subsequently, the department applied for these cameras through funding from the Byrne Memorial Grant with early indications we'll receive half the required number of cameras for our patrol fleet.*

- \* Adopt an ordinance for the seizing and impounding of motor vehicles operated by persons under the influence of alcohol or drugs, that would result in administrative penalties for these violations.

*An ordinance was adopted in December, 2008, and implemented the first of 2009. For the first nine months of 2009, the village has received nearly \$50,000 in impound fees related to DUI and/or related drug arrests.*

- \* To hire a part-time Police Assistant to assist with peak call volumes from 3:00 p.m. - 7:00 p.m., Monday through Friday. This position would also be responsible for traffic direction at the parking deck and other downtown parking matters.

*A part-time Police Assistant was hired in June to serve as the parking enforcement officer for the downtown area. Since this time, there has been a notable decrease in the number of parking complaints from businesses. Traffic direction has also been improved upon at the parking deck, allowing for easier egress at the end of the day and fewer complaints overall.*

- \* To utilize IDOT Traffic Safety Grants to support efforts related to seat belt use, DUI enforcement, and roadside safety checkpoints.

*Over \$78,000 in Traffic Safety Grants was received to support various efforts related to seat belt and DUI enforcement, as well as roadside safety checkpoints. Numerous arrests for DUI, drugs and suspended drivers resulted from these efforts. In addition, hundreds of citations for failure to wear seat belts, speeding and child safety seat violations were issued.*

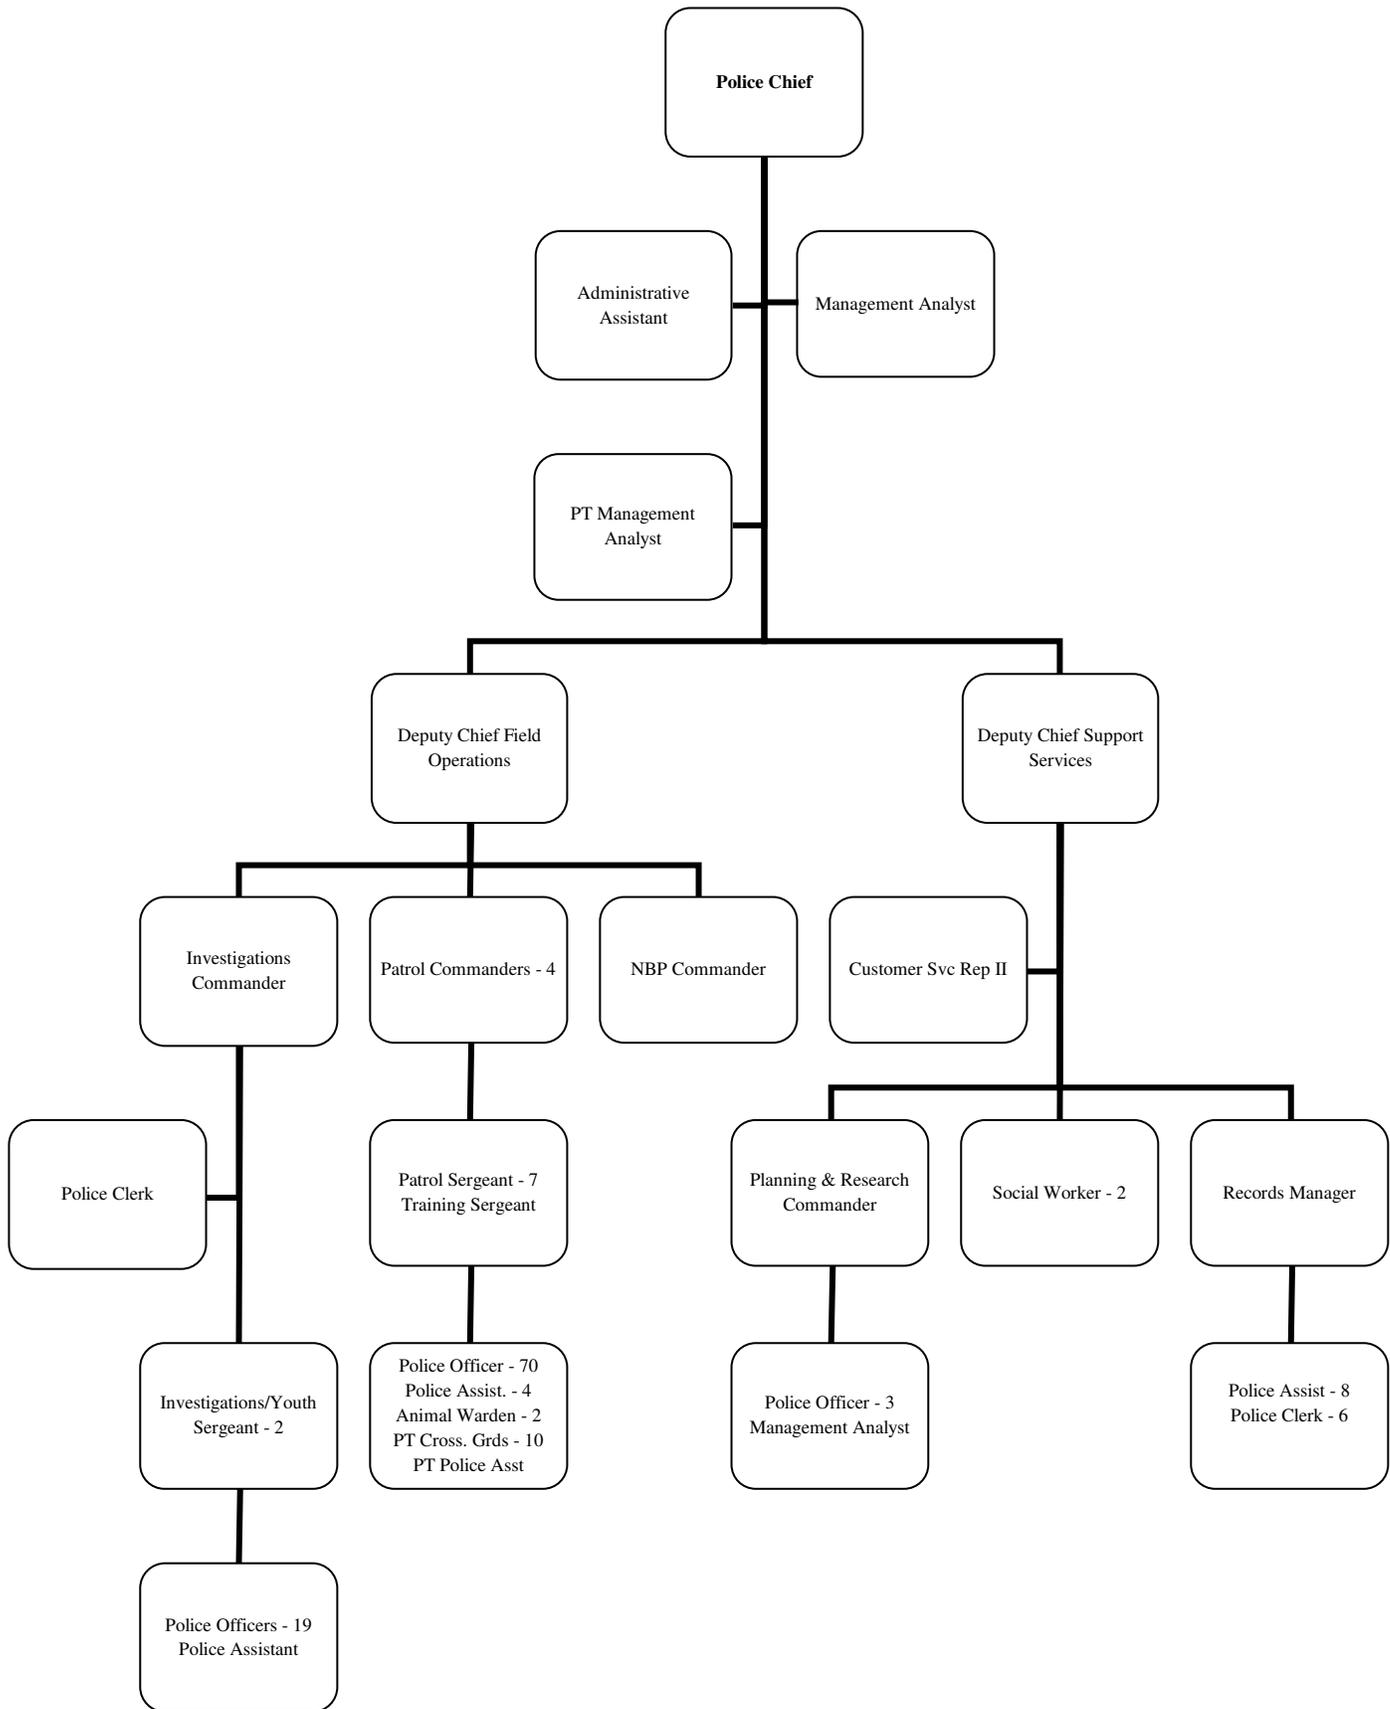

- \* Implementation of Vehicle Seizure and Impoundment Fees

*Completed*

### Issues & Initiatives - Current Year

- \* To approve the Design Development Stage and prepare the "Construction Documents" that will serve as plans to be used in the actual construction of the new police station. At the 90% construction document phase, Camosy must deliver a GMP (Gross Maximum Price) of the project.
- \* To provide high quality instruction for police personnel through in-service instructors and maintain the necessary proficiencies required by various assignments/positions after an 85% cut in the training budget.
- \* To reduce overall overtime expenditures by 33%.
- \* To implement and maintain documented proofs of critical police processes/procedures/inspections in lieu of canceling our CALEA membership.
- \* To increase the administrative penalty to \$500 from \$250 for vehicles impounded due to DUI & Drug arrests and amend the village ordinance accordingly.
- \* To continue utilizing IDOT Traffic Safety Grants to support efforts related to seat belt use, DUI enforcement, and roadside safety checkpoints.
- \* To assist and support the administrative hearings related to parking and compliance citations in hopes of generating more revenue to counteract the change in courthouse fines/fees now assessed.
- \* To begin assessing a fee for fingerprint applicants in an effort to generate additional revenue similar to surrounding jurisdictions.
- \* Unless additional funding is provided, reduce Junior High Officer to one position
- \* Vacate Northeast substation

## Chief of Police

### Program Description

The Chief of Police is the chief executive officer of the department and final authority on all matters of policy, operation and discipline. Responsible for planning, staffing, directing, coordinating and controlling all department functions/activities; ensuring continued, effective operation of the department; and maintaining positive relations with Palatine citizens, village government and all other agencies. Serves under direct supervision of the Village Manager.

### Program Objectives

- 1 To oversee the expansion of the Neighborhood Based Policing (NBP) Program throughout the Village.
- 2 To continue the department staff inspection program to ensure the full compliance of policies, procedures and other written directives.
- 3 To manage and coordinate the reaccreditation process through the Commission on Accreditation for Law Enforcement Agency (CALEA).
- 4 To continue striving for innovative ways to improve police services to the residents of the Village.

## Drug Enforcement

### Program Description

The North Suburban HIDTA Program provides for the detached assignment of a Palatine police officer to the North Suburban (HIDTA). The officer will work on undercover narcotics assignments in Palatine and throughout the suburbs served by North Suburban HIDTA.

### Program Objectives

- 1 To increase the number of criminal arrests for drug offenses in Palatine.
- 2 To increase the flow of criminal intelligence about drug activity in the suburbs between the Palatine Police Department, North Suburban HIDTA, and other suburban police departments.

## Deputy Chief Support Services

### Program Description

The Deputy Chief is the administrative/executive officer of the Support Services Division. He is responsible for those support functions that provide fiscal/personnel management, public information, social services, planning and research, crime prevention, crime analysis, inspectional control, evidence/property control, child safety education, communications, and records.

### Program Objectives

- 1 To coordinate and manage the successful hiring, supervision and evaluation of personnel assigned to the Support Services Division.
- 2 To assure compliance with department management information system through inspections and timely reports by a control matrix.
- 3 To coordinate the Police Department budget.
- 4 To provide information and support to patrol personnel

## Emergency Communications

### Program Description

The Communications Program provides: transmission of necessary information to proper units; assistance to the public seeking information at the desk information window; computer entry of LEADS and NCIC data; and liaison with the Northwest Central Dispatch System (NWCDS), which is responsible for the dispatching of police-fire-ambulance calls for service.

### Program Objectives

- 1 To receive and handle all citizen calls for information and/or service with utmost courtesy and helpful attitude.
- 2 To maintain the current accuracy level of data input in the Record's Management System, LEADS, and NCIC as measured by the Illinois Department of Law Enforcement.
- 3 To maintain liaison with NWCDS in order to provide for efficient and effective emergency police and fire dispatching.

## Records

### Program Description

The Records Program includes maintenance of current, accurate records system; preparation of statistical tabulation of information; supervision of office supply inventory; processing all uniform requests; entry of information through LEADS for Illinois Bureau of Identification; preparation of court records/jacket files; processing/canceling arrest warrants and legal expungement of records; input data into the Record's Management System; and control of evidence property.

### Program Objectives

- 1 To maintain a liaison between the department and Cook County District Clerk's Office, State's Attorney's Office, and Office of the Presiding Judge.
- 2 To respond to public requests for official police records in compliance with guidelines for Freedom of Information Act".
- 3 To process criminal evidence and found property within the statutory guidelines and to return property to the legal owners.
- 4 To coordinate the record keeping functions for the BASSET Program.

## Planning & Research

### Program Description

The Planning/Research Program includes review/inspection of all reports and documents prepared by field personnel; operational analysis of crime pattern trend data, traffic accident and enforcement data, individual employee and department workload data; conducting staff studies; coordination and direction of crime prevention activities; and program manager for Commission on Accreditation for Law Enforcement Agencies (CALEA).

### Program Objectives

- 1 To direct and coordinate the Department's efforts to maintain compliance with the accreditation requirements of the Commission on Accreditation of Law Enforcement Agencies.
- 2 To prepare the Department's Quarterly Reports and Annual Report documenting department activity for the Village Manager and Village Council.
- 3 To provide both the print and broadcast media information on police activities and programs to ensure the community is well-informed.
- 4 To continue to conduct analysis studies of traffic crash data to identify hazardous locations which can be made safer through selective enforcement action plans.
- 5 To assist Neighborhood Based Police Beat Teams by providing data, information and analysis from the Crime Prevention Unit and the Crime Analysis Unit.

## Crime Prevention & Child Safety

### Program Description

Child prevention program combines the department efforts to protect and educate the public, including Officer Friendly, and Neighborhood Watch programs. The activities of this program include presentation of personal safety programs for children and parents; program presentation to equip children with skills to resist peers and not experiment with harmful drugs; and educating landlords/ property managers on how to reduce criminal activity at their apartment complexes.

### Program Objectives

- 1 Continue programs to increase the awareness of parents and children about the problems of child abduction, child sexual abuse, and proper guidelines for dealing with strangers.
- 2 Coordinate the Crime-Free Multi Housing program throughout the community.
- 3 Continue the Neighborhood Watch program to strengthen the alliance between police and residents with a goal of preventing and reducing criminal activity throughout the community.
- 4 Conduct Officer Friendly visits to all elementary schools.

## Deputy Chief Field Operations

### Program Description

The Deputy Chief is the executive and administrative officer of the Field Operations Division. As such, he has control and supervision of all patrol, traffic, investigative, youth, tactical, drug and community services personnel.

### Program Objectives

- 1 To coordinate the effective and timely delivery of police services including patrol, investigations, youth/school consultants, parking enforcement, crossing guards, and selective traffic enforcement.
- 2 To coordinate the expansion of the NBP Program throughout the newly annexed portions of the Village.
- 3 To coordinate the performance evaluation-coaching and counseling responsibilities of supervisors to meet the objectives of the Field Operation Division.
- 4 To conduct and complete internal investigations in a timely and professional manner.
- 5 To develop completed staff studies on problems and issues affecting field operations.
- 6 To coordinate manpower and scheduling issues to accommodate response needs and special projects.
- 7 To coordinate with schools in the community regarding school safety initiatives (Lockdowns, Intruders, Bomb threats, etc...)

## Patrol

### Program Description

The Patrol Program exists: to provide adequate 24 hour response and patrol coverage; to provide a sense of public security by reducing the incidence of property crimes; to minimize the loss of life/property by providing timely response to emergency and priority calls for service; to decrease the rate of traffic fatalities and injuries by rigorous selective traffic enforcement; and to deliver professional police service to the community on a cost-effective basis.

### Program Objectives

- 1 To maintain or reduce the number of Part I crimes in the Village through a combination of highly visible, aggressive patrol and when circumstances require, provide low visibility patrol such as unmarked plainclothes patrol, stake-out target areas, decoys, etc.
- 2 To reduce the response time on calls for service. To strive for an average of 4 minute response on emergency calls and 6 minutes on priority calls. To achieve a response time 20 minutes for non-priority calls for service.
- 3 To maintain and enhance a selective traffic enforcement program de-emphasizing the importance of overall numbers of citations issued and increasing the emphasis on preventing injury accidents at locations with high accident incidence.
- 4 To continue to provide services that contribute to the preservation of community order, safety and general assistance.
- 5 To continually refine our neighborhood-based policing strategy, geared toward proactive, rather than reactive patrol, with an emphasis on problem solving and community involvement

## Criminal Investigations

### Program Description

The Criminal Investigations Program exists to forward the overall department objectives by concentrating on vigorous, intelligent, legally sound, and thorough follow-up investigations of criminal offenses leading to case clearances by arrest and prosecution of persons who commit criminal acts.

### Program Objectives

- 1 To measurably increase the development of investigative leads resulting in the arrest or identification of suspects through the use of criminal intelligence and well-cultivated informants.
- 2 To maintain a clearance rate of 20% for reported burglaries.
- 3 To continue to develop the Management of Criminal Investigations (MCI) program (i.e., case screening, managing continuing investigations, assessment of solvability factors, etc.).
- 4 To continue to interface known offenders, M.O. files and other pertinent data into the Record's Management system.
- 5 To address gang activity in the village through a combination of criminal intelligence, criminal investigations, tactical operations and multi-jurisdictional operations.
- 6 To maximize the quality of criminal cases preparation and court testimony.

## Selective Traffic Enforcement

### Program Description

The Selective Traffic Enforcement Program (STEP) Program exists to facilitate the safe and expeditious movement of vehicular-pedestrian traffic and to reduce the incidence of traffic accidents by general traffic enforcement; to provide selective traffic enforcement at locations of high accident incidence; to provide traffic accident investigation and removal; to enforce overweight vehicle violations; and to analyze traffic accident and enforcement data.

### Program Objectives

- 1 The Selective Traffic Enforcement Program (STEP) Program exists to facilitate the safe and expeditious movement of vehicular-pedestrian traffic and to reduce the incidence of traffic accidents by general traffic enforcement; to provide selective traffic enforcement at locations of high accident incidence; to provide traffic accident investigation and removal; to enforce overweight vehicle violations; and to analyze traffic accident and enforcement data.
- 2 To maintain or reduce the rate of personal injury accidents per road miles of Village streets and highways through selective traffic enforcement.
- 3 To actively participate in the Village of Palatine Safety Engineering Committee providing input, analysis, and recommendations that contribute to reduction of personal injury and property damage vehicle accidents.
- 4 To work cooperatively with the Illinois State Police in conducting roadside safety checkpoints with an emphasis on overweight vehicle compliance.

## Parking Enforcement & Fine Collection

### Program Description

The Parking Enforcement Program is responsible for the enforcement of parking ordinances of the Village in the downtown areas and the commuter lots and of the village vehicle registration ordinance. The ordinance violation/fine collection program maintains records and files on the parking and ordinance citations, and collects delinquent fines from these citations.

### Program Objectives

- 1 To enforce the parking ordinances of the village in the downtown shopping areas and commuter parking lots at current level.
- 2 To identify vehicles with more than three (3) unpaid parking tickets and target for the "Boot".
- 3 To provide timely response to citizen complaints regarding parking violations.
- 4 To maintain the ordinance violation file system in a current, orderly, and accurate manner.
- 5 To review the current procedures for collection of delinquent fines to identify the most cost-effective method.

## Crossing Guards

### Program Description

The crossing guards provide for the safe crossing of school children at designated intersections before and after school.

### Program Objectives

- 1 To continue the current safety standards for elementary school children.
- 2 To provide a well trained and properly supervised adult crossing guard at all school crossings as approved by the Village Council.
- 3 To conduct an annual review of present crossing locations and conduct surveys at locations of requests for new crossing guards.

## Animal Control

### Program Description

The Animal Control Program consists of the animal warden and other police personnel providing for the enforcement of village ordinances pertaining to animals, humane treatment of captured stray and wild animals; and, public information on animal control techniques.

### Program Objectives

- 1 To provide timely and courteous response to citizen's animal complaints.
- 2 To enforce animal ordinance by patrolling Village streets.
- 3 To increase public awareness of animal control issues through presentations.
- 4 To increase the number of licensed animals by strict enforcement for violations of the animal license ordinance.
- 5 To coordinate the Domestic Animal Emergency Care Program.

## Evidence Collection

### Program Description

This program consists of technically trained, highly competent officers as evidence technicians responsible for processing crime scenes within the Village. Evidence technicians duties include crime scene processing; handling and care of physical evidence; photography; casting and molding; and submitting evidence to the crime lab.

### Program Objectives

- 1 To maintain a timely response to crime scenes by evidence technicians.
- 2 To continue advanced training of existing evidence technicians.
- 3 To provide in-house training for all sworn personnel in the evidence technician function.

### Issues & Initiatives - Prior Year

- \* Move forward on new Northwest Fire Station location which will help reduce overall response time  
*Lots purchased, project schematic design nearing completion, site cleared*
- \* Place New Quint in Service  
*Accomplished*
- \* Replace Ambulance T-281  
*Will be accomplished by Mid December 2009*
- \* Implementation of new EMS Reporting Software. The current software vendor has gone out of business and a committee made up of NW Community Hospital personnel and other EMS providers has selected Image Trend Software. The new software will be internet based and give greater efficiency and quicker turnaround time at the Hospital.  
*Accomplished*
- \* Expand the "Map your Neighborhood Program" which is a new Emergency Mgmt community program where neighbors get together to identify resources they have in the neighborhood should the need arise in a disaster.  
*Well underway and proceeding forward at this time per EMA Coordinator*
- \* Work with Local churches to provide mass shelter facilities  
*Under way and proceeding as planned, per EMA Coordinator*
- \* Investigate Wireless Fire Alarm Leasing  
*Meeting with the Village Manager and Finance Director in the near future. Fire Marshal will be putting together a presentation*

### Issues & Initiatives - Current Year

- \* Continue Quentin Rd Fire Station Project with a targeted completion date of January, 2011
- \* Initiate replacement program for the Zoll Monitor Defibrillators
- \* Initiate improved tracking program for overtime expenses
- \* With the downturn in the economy, the Fire Department will look at ways to curb or cut costs. We will look at how and what we currently do to save everything from overtime, to operational costs to future Capital expenditures. We will focus on finding innovative solutions to these costs while maintaining our current level of service while protecting the safety of our personnel
- \* Elimination of Fire Captain responsible for departmental training. Responsibilities will be absorbed within organization

## Department Summary

### Department Description

The Fire Department is dedicated to provide the best fire, rescue, and emergency medical service to the citizens of the Village of Palatine as so stated in the Strategic Plan. This dedication is supported through administration, training, public education, fire prevention practices, fire suppression, and emergency medical services. The Fire Department is dedicated to provide the best fire, rescue, and emergency medical service to the citizens of the Village of Palatine as so stated in the Strategic Plan. This dedication is supported through administration, training, public education, fire prevention practices, fire suppression, and emergency medical services.

### Department Objectives

- 1 To continue providing efficient and high quality emergency services to the community.
- 2 To maintain a motivated and highly trained work force, equipped to handle any emergency within our community.
- 3 To provide an effective fire prevention program in order to educate in the prevention of life and property hazards to reduce the need for fire suppression activities.
- 4 To maintain high standards in the public education program we present to best prepare our citizens to prevent fire and injury emergencies at all times.
- 5 To develop and maintain specialized teams within guidelines developed by our Mutual Aid Box Alarm System (MABAS) Division.

## Administration

### Program Description

Fire administration is responsible for the planning and organizing of all programs within the fire department. This is achieved by utilizing a team approach to direct and monitor all the divisions of the organization. The end result of this program is to maintain a high level of productivity and proficiency, thus continuing to provide maximum service to our citizens.

### Program Objectives

- 1 To develop the managerial skills of supervisory and administrative staff through programs and seminars as they are available.
- 2 To continue to upgrade all functions and research new programs and equipment, as necessary, in order to maintain the high motivation level of our personnel.
- 3 To continue to perform at the highest service level while remaining efficient in the use of provided resources.
- 4 To continue to address future planning, which is a continuous and ongoing process, based on accurate information, recognized standards, and recommended practices.
- 5 To address National Fire Protection Association (N.F.P.A) 1500, 1710, Occupational Safety and Health Administration (OSHA), and other regulatory agencies rules and regulations to create a safer environment for all employees.

## Fire Suppression

### Program Description

The goal of this program is to save lives and property through emergency response. This is accomplished by various means, including fire suppression, EMS, extrication, hazardous materials control, and special rescue teams.

### Program Objectives

- 1 To arrive at an incident and begin operations within 5 minutes for 90% of all Village calls, and 6 minutes or less or 95% of all Village calls.
- 2 To rescue and protect victims from emergency situations and to limit damage from fire.
- 3 To provide dive rescue, hazardous materials, and technical rescue (above and below grade) teams per Mutual Aid Box Alarm System (MABAS) guidelines.
- 4 To equip firefighters with the latest safety equipment to ensure their safety while performing their duties.
- 5 To have a staff of fire investigators trained to determine cause and origin of fires.

## Paramedic Service

### Program Description

To provide advanced life support, pre-hospital medical care, of the highest quality, to the community.

### Program Objectives

- 1 To arrive at an incident and begin operations within 5 minutes for 90% of all Village calls, and 6 minutes or less or 95% of all Village calls.
- 2 To provide and maintain the highest standard of care in pre-hospital situations.
- 3 To continually evaluate, update and utilize current innovations in equipment and materials.
- 4 To provide and maintain all necessary equipment and supplies to ensure the highest quality of care and to allow our paramedics to function at their level of training in accordance with IDPH and Northwest Community Hospital system standards.
- 5 To provide the latest information and equipment to the paramedics on public health safety concerns.

## Public Education

### Program Description

To provide the citizens of Palatine and those who work here with a comprehensive fire and life safety public education program. The primary goal is to prevent injury and death by teaching residents of all ages what to do and what not to do in fire or other emergency situations. Public Education also serves as the primary public relations arm of the Fire Department.

### Program Objectives

- 1 To continue providing current programs such as tours, school talks, Cardio Pulmonary resuscitation (CPR), first aid, and fire extinguisher classes.
- 2 To increase public awareness of the Fire Department and its programs through talks to community groups, special events, and the media.
- 3 To explore new programs and partnerships that will further help in achieving our goal.

## Fire Prevention

### Program Description

The primary functions include annual fire and life safety inspections of all multi-family, educational, assembly, and commercial occupancies in the Village, to review plans for new buildings to assure compliance with Fire and Life safety codes, and the issuance of business license in conjunction with annual inspections.

### Program Objectives

- 1 To perform fire, life safety and business license inspections in all occupancies as required within the jurisdiction of the Village at least once a year.
- 2 To enforce the fire and life safety codes adopted by the Village.
- 3 To conduct plan reviews for proposed new structures and alterations of existing structures.
- 4 The issuance of business licenses in conjunction with annual inspection.

### Fire Management & EMS Training

#### Program Description

To maintain proficiency in fire suppression evolutions for all personnel. To maintain department mandated fire and EMS certification levels. All present officers and officer candidates are given the opportunity for development through in-house and outside schools and training. To maintain Emergency Medical Service (EMS) skills in order to keep paramedics state certified and to provide quality medical service.

#### Program Objectives

- 1 To have all firefighters certified at the state level Firefighter III, paramedic, and Haz-Mat I, and all present officers and officer candidates certified at the Fire Officer I level and to pursue Fire Officer II level certification of all lieutenants.
- 2 To have all officers, with the rank of Captain or above, certified at the Fire Officer III level.
- 3 To participate in the State Fire Certification Program and receive financial reimbursement for as many training hours as possible.
- 4 To continue to develop programs such as hazardous materials, technical rescue, and dive rescue to further enhance the education and skills of all fire department personnel.
- 5 To maintain a high standard of medical care by providing quality medical instruction through internal and external instructors and resources.
- 6 To have all paramedics be in compliance with the EMS System continuing education requirements.

## Emergency Management

### Program Description

To be prepared to respond to all natural, manmade or technological emergencies in accordance with state and federal laws and Village policy as stated in the Emergency Operations Plan.

### Program Objectives

- 1 Update and refine the Villages Emergency Operations Plan
- 2 Train and Recruit EMA Volunteers
- 3 Upgrade Emergency Communications Capabilities
- 4 Conduct exercises measuring emergency response readiness

### General Citizen Corps

#### Program Description

The mission of the Palatine Citizen Corps is to engage Village Resident Volunteers to take an active role in responding to and preparing for local emergencies and disasters through education and training.

#### Program Objectives

- 1 Continue to offer Village residents Community Emergency Response Team (CERT) training.
- 2 Establish Medical Reserve Corps (MRC) teams.
- 3 Enhance Village Residents knowledge of the Citizen Corps Role in responding to disasters.
- 4 Seek grant opportunities whenever they may be available.

<b>Total</b>	<b>\$ 18,015,325</b>	<b>\$ 17,432,175</b>	<b>-3.24%</b>

## Issues & Initiatives - Prior Year

\* Development of a Master Water System Plan

*Funds were allocated for an analysis of the existing water system and development of a mater plan for systematic improvements to meet current and future needs for the next 25-50 years. The Village's original master plan was done in the early 1980's with the most recent update completed in 1995. Since that time, a number of changes have occurred regarding technology, economics and regulations. In addition, expectations and the operational philosophy have challenged many of the assumptions and conclusions of the original plan. The engineering firm of Baxter & Woodman was retained to conduct this study. A draft report has been completed with a final report expected by mid-November.*

\* Expansion of Downtown Landscape (WOW) program

*Improvements completed included the reconditioning of all remaining beds, installation of an irrigation system to three landscaped areas (Fireman's Memorial, "Trios Sculpture" landscaped bed and the "Double Dipper" landscape bed). Work has also continued in changing out perennials for annuals. Finally, plans were developed for landscaping the north side of Railroad Street Between Plum Grove and Bothwell*

\* Implementation of Fleet Service Improvement Program

*Improvements undertaken included the purchase of the upgraded CFA computer software program and the purchase of five computer laptops, one for each mechanic. Conversion to this new program is scheduled for late December with full operations projected for January 1, 2010*

\* Evaluation of Snow & Ice Control Program - Salt Use Reduction

*The pre-treatment and deicing program was fully implemented by January of 2009 and consisted of pre-treating all major arterials and collectors throughout the Village as well as selective use of pre-wetting of salt for deicing purposes. The net result of this effort was a reduction of salt usage in the 40% range. Efforts will continue during the early part of the 2009/2010 in settling upon which chemical provides the greatest benefit.*

\* Implementation of Snow & Ice Control Program - Expansion of In-House Plowing

*At the present time, the Village has 12 snowplow routes, 10 of which are handled by in-house crews and the private contractor with the other 2 routes being handled by the Hwy District. Over the years, the village has steadily improved the vehicles used for plowing, to the extent that the private contractor equipment no longer provided the quality of the plowing required. The Village has been expanding its fleet of snow plow trucks by retaining, rather than trading in. As such, the Village now has sufficient equipment to eliminate the need for a private contractor. To offset the loss of the contractor's employees, the Village will be identifying and hiring part-time snow plow drivers. These drivers will be paired with in-house drivers on the second or backup crew. A total of twelve drivers will be identified with ten being needed to provide a full backup crew. The Department is in the final steps of evaluating applicants with final decisions planned for November.*

\* Evaluation of Train Station - Parking Deck Management Services

*Based upon the study, it was recommended that Hamilton be retained to provide these services*

**Issues & Initiatives - Prior Year Continued**

## \* Review of Electric Service Providers

*Bids were taken in March of 2009 and reflected a cost supply cost of roughly 45% less than that previously received the prior two years. The projected annual savings over the length of this contract is \$78,000. As such, the Village accepted the bid and has locked in these prices for the time period from July 1, 2009 through December 31, 2010.*

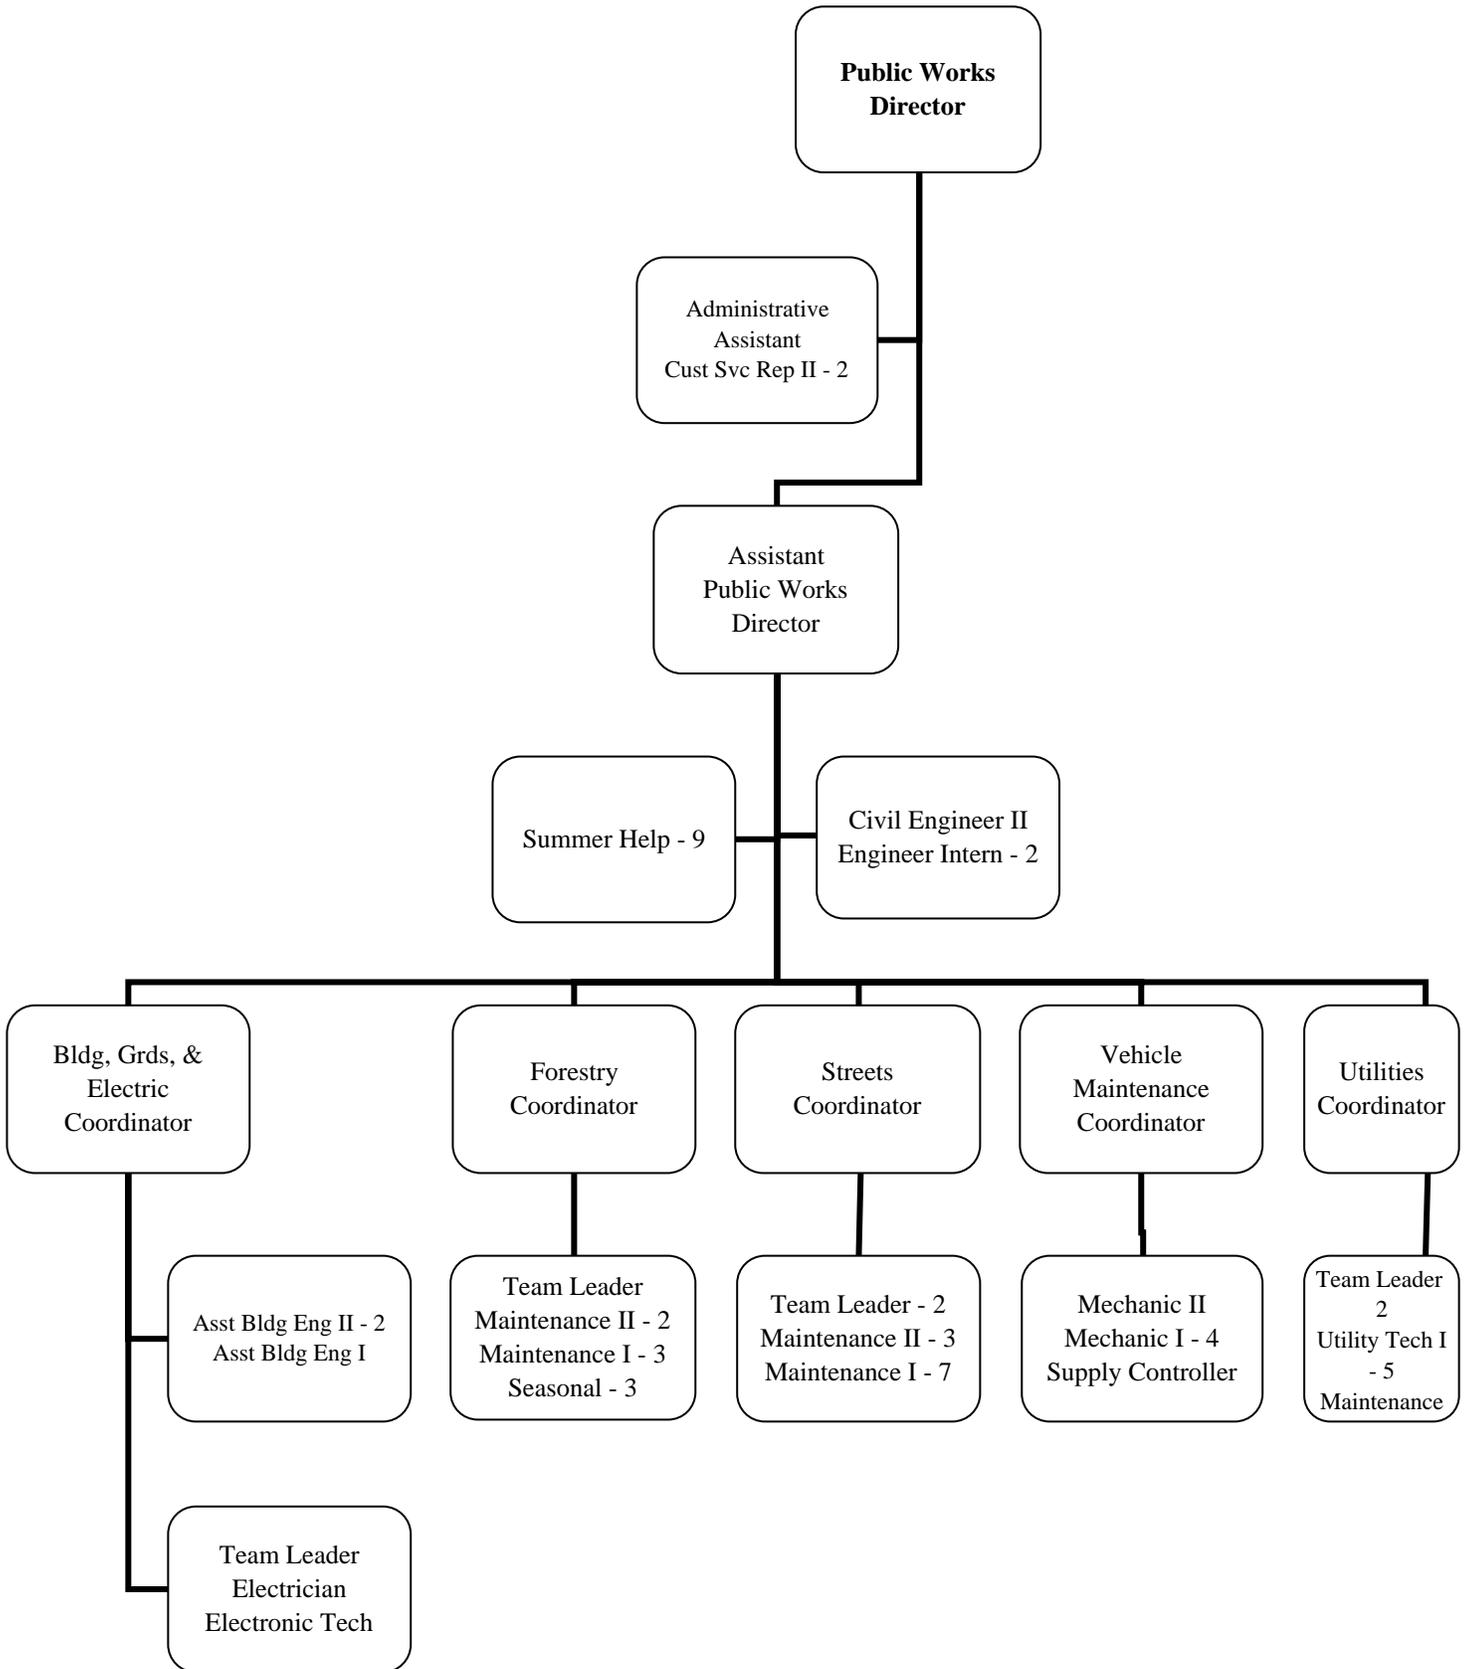

## \* Implementation of Emerald Ash Borer Infestation Program (Phase II)

*Phase II of the EAB infestation program called for the continued selective removal and replacement of ash trees that were declining or dying in select neighborhoods. However in early summer, this changed with the first confirmed report of EAB infestation in Palatine. Once confirmation was received from the Illinois Department of Agriculture, the Village moved to Phase III. Realizing that the infestation had spread beyond the 1/2 mile radius, the Village changed strategies in that they would continue to monitor and remove dead and dying ash trees throughout the community with the goal of having all trees removed before they became a safety issue. Steps taken to implement this new strategy included surveying all ash trees in Palatine within one mile of the infested area. Identification of 90 ash trees that needed to be removed. This was accomplished by the end of September. Replacement trees will be planted before the end of November. The confirmation of the EAB infestation was publicized in both the Village's newsletter as well as an updated website, providing residents with information as to how to handle this issue.*

**Issues & Initiatives - Current Year**

- \* Review Cook County Storm Ordinance. Determine impact on Village operations.
- \* Conduct an Equipment and Vehicle Utilization Study. Determine if the Village has the proper mix of vehicles and equipment.
- \* Develop a Comprehensive Building Maintenance Program. Incorporate all Village buildings into a comprehensive plan, identifying standards and a stable budget allocation.
- \* Identify Potential SCADA System Upgrades. Potential expansion to include buildings and parking deck.
- \* Implement Management Transition Plan for Public Works
- \* Evaluate Emerald Ash Borer Infestation. Identify potential funding needs in both the short term and long term.

## Department Summary

### Department Description

Operate, maintain and repair all infrastructure systems and physical plants that are part of the Village.

### Department Objectives

- 1 Operate, maintain, and repair all failures in the infrastructure systems and physical plants that service the Village in such a manner to minimize loss of service and user inconvenience.
- 2 Provide preventative maintenance for all systems and physical plants to maintain serviceability, efficiency, and appearance.
- 3 Regularly replace or update the infrastructure components to reduce obsolescence and maintain usefulness.

### Budget Summary

	2008	2009	2010	2011
	Actual	Amended Budget	Adopted Budget	Projected Budget

## Administration

### Program Description

The administration of the Department of Public Works performs the functions of planning, inspection, budget control, and general supervision of all operations.

### Program Objectives

- 1 Provide general supervision by tracking of water and sewage flows, job productivity and vehicle maintenance costs.
- 2 Provide budget development and control for unified Department so that divisional operations are properly balanced.
- 3 Provide long-range planning for Department operations.
- 4 Provide for increased inspection on all construction projects throughout the Village.
- 5 Provide the initiative to maintain the quality pillars of continuous improvement, customer focus, and employee empowerment.

## Mechanical Maintenance

### Program Description

Preventative maintenance and repair of all mechanical equipment contained in Village buildings.

### Program Objectives

- 1 Maintain all systems and equipment at maximum efficiency through a scheduled preventative maintenance program.
- 2 Continue program of modernization and installation of supplemental units for major components of the heating, ventilation, and air conditioning system to improve overall systems capabilities and efficiency.
- 3 Repair breakdowns as economically and quickly as possible to maintain system integrity.

### Custodial & General Maintenance

#### Program Description

Custodial maintenance and cleaning of all areas of Village buildings including offices, public areas, washrooms, and locker rooms in all buildings except for the three fire stations.

#### Program Objectives

- 1 Clean and maintain the Community Center and Public Works Complex as required to provide aesthetically pleasing and sanitary conditions.
- 2 Replace worn fixtures and tile on a planned capital basis in order to maintain appearance and maintainability.
- 3 Schedule capital improvements to buildings as required to insure occupant safety and to maximize use of available space.

### Traffic Control Maintenance

#### Program Description

Maintenance and repair of electric street lights, parking lot lights, and traffic lights at six intersections in Palatine.

#### Program Objectives

- 1 Provide annual inspection of all street light poles and replace damaged ones as required.
- 2 Provide locations of underground cables as requested prior to various construction projects.
- 3 Maintain a preventative maintenance program on all six traffic signal controllers including light bulb replacement, standard painting, and cleaning.
- 4 Response to emergency situations caused by knockdowns and assist as necessary.

## Pavement Maintenance

### Program Description

Make permanent and temporary repairs to Village street and parking lots as required to prolong life and provide an adequate level of service.

### Program Objectives

- 1 Make temporary repairs to streets as necessary to keep them safe and minimize damage to user vehicles.
- 2 Continue annual program of permanent full-depth repairs, both in conjunction with the Resurfacing Program and separately to maintain a sound, safe riding surface and to prolong street life.
- 3 Maintain a crack sealing program as part of the Comprehensive Pavement Maintenance System.
- 4 Maintain a comprehensive maintenance program to keep Village streets in good or better condition employing various methods such as reconstruction, resurfacing, patching and crack filling.

## Right-of-Way Maintenance

### Program Description

Clean and maintain all public rights-of-way within the Village.

### Program Objectives

- 1 Sweep all Village streets and parking lots to insure a clean appearance and reduce the amount of debris entering into the storm sewer.
- 2 Provide leaf collection.
- 3 Provide for a parkway restoration program.
- 4 Provide regular maintenance of public parkways.

## Traffic Control & Safety

### Program Description

Install, maintain, and repair all traffic control devices (signs, pavement markings, gas lights) as well as accessory facilities in all parking facilities.

### Program Objectives

- 1 Repair or replace regulatory and parking signs and street identification signs.
- 2 Continue the program to upgrade regulatory signs to the more visible, high-intensity faces.
- 3 Maintain and repair parking meters and commuter coin boxes to minimize breakdown and maintain revenues.

## Vehicle Maintenance

### Program Description

Preventive maintenance and repair of the Village's motor driven equipment and motor vehicles.

### Program Objectives

- 1 Repair breakdown promptly, minimizing downtime and lost productivity.
- 2 Maintain all vehicles and equipment on a scheduled basis to reduce breakdowns.
- 3 Continue to develop a computerized cost tracking and parts inventory system to aid in planning and general operations.

Expenditure Overview

	2009 AMENDED BUDGET	2010 ADOPTED BUDGET	PERCENT CHANGE
<b>Expenditures by Division</b>			
Capital Improvement	\$ 30,460,557	\$ 32,784,530	7.63%
<b>Total</b>	<b>\$ 30,460,557</b>	<b>\$ 32,784,530</b>	<b>7.63%</b>

Expenditures by Type

Transportation	10,552,640	3,311,415	-68.62%
Water/Sanitary Sewer	5,131,289	1,099,115	-78.58%
Storm Water Management	1,645,628	962,000	-41.54%
Equipment	1,671,605	635,500	-61.98%
Buildings & Facilities	10,355,410	26,507,000	155.97%
Technology	1,103,985	269,500	-75.59%
<b>Total</b>	<b>\$ 30,460,557</b>	<b>\$ 32,784,530</b>	<b>7.63%</b>

Issues & Initiatives - Current Year

- \* Continued enhancement of Street Improvement Program
- \* Continued implementation of Storm Water Management Initiatives
- \* Continuation of Sidewalk Program
- \* Begin replacement of Village Software System

**Capital**

**Program Description**

The Capital Improvement Program consists of maintenance, repair, and extension of Infrastructure including Streets, Sewers and Watermains, the purchase of Capital Equipment including vehicles, computers and other equipment additions and replacements, Parking Deck & Flood Control Projects.

**Department Objectives**

- 1 To maintain public infrastructure, including streets, sidewalks, water and sewer systems.
- 2 To enhance the Village's aesthetic appearance with increased tree plantings, handicapped access corners, and new street lighting.
- 3 To improve the Village quality of life with capital projects to fulfill specific community needs.
- 4 To utilize as much Federal Grant Funding as will be available to complete Village capital projects, particularly those which are impacted by federal legislation.

**Account #** 527-65419-4323

**Description**

This program defines maintenance work on the Palatine Train Station

CY 2011 - Brick Paver Repair	\$ 1,000
- Reseal Floor	\$25,000
CY 2012 - Brick Paver Repair	\$ 1,000
CY 2013 - Brick Paver Repair	\$ 1,000
- Tuckpointing/Powerwashing/Sealing	\$35,000
CY 2014 - Brick Paver Repair	\$ 1,000
CY 2015 - Brick Paver Repair	\$ 1,000
Refinish Paneling	\$20,000
CY 2016 - Replace Circle Drive	\$30,000

**Justification**

The identified projects are designed to maintain the overall aesthetics of the train station while preserving its useful life.

**Project #** B-09  
**Project Name** Community Center HVAC Replacement

**Account #** 450-65440-4314

**Description**

HVAC Study conducted in 2003 identified a need for replacement of the air chiller and associated pipe work and controls on HVAC system for the Community Center. In total, the entire HVAC needs replacement and upgrading having a total cost of \$2,182,950

**Justification**

Key components of the HVAC System are more than forty (40) years old. As such, their reliability is highly questionable, as is our ability to maintain and repair when failures occur.

<b>Expenditures</b>	<b>2010</b>	<b>2011</b>	<b>2012</b>	<b>2013</b>	<b>2014</b>	<b>Total</b>

**Project Name** Village Facility Roof Replacements

**Type** Improvement

**Useful Life** 20 years

**Category** Buildings & Improvements

**Account #** 450-65321-4331

**Priority** Important

Description	
Replacement and upgrading of Village Facility Roofs	
2011 - Base 5 (Michigan)	\$ 20,000
2012 - Well #6 & Well #7	\$ 10,000
2013 - CC Garage	\$ 10,000

Justification	
This program is for the planned replacement of roofs that are nearing the end of their useful life and are frequently leaking, causing damage and excessive repair costs.	
1. Insure integral sound roofing on Village facilities	
2. Reduce system failures	
3. Minimize repair costs	
4. Extend useful life of the structures 10-12 years	

Prior	Expenditures	2010	2011	2012	2013	2014	Total

**Priority** Important

**Project #** B-15  
**Project Name** Combined Service Facility Parking Lot Expansion

**Account #**

**Description**

CY 2011  
 Expand parking lot at the Combined Service Facility by ten spaces

**Justification**

At the time the facility was built, parking was sufficient. As more employees have been added by both the Park District and Public Works, parking is at a premium. With both agencies hiring summer help, they are instructed to park at other facilities because of lack of space. When meetings are planned, participants must park on the street out in front of the building raising concerns regarding safety. An additional ten spaces would allow visitors and residents places to park conveniently in front of the building.

<b>Expenditures</b>	<b>2010</b>	<b>2011</b>	<b>2012</b>	<b>2013</b>	<b>2014</b>	<b>Total</b>
Construction		75,000				75,000
<b>Total</b>		<b>75,000</b>				<b>75,000</b>

**Project #** B-16  
**Project Name** Combined Service Facility Maintenance Projects

**Account #** 450-65603-4331

Description	
The Combined Service Facility was completed in 1991 and now requires periodic maintenance and repair.	
CY 2011 - West Parking Area	\$ 65,000
CY 2012 - Interior Staging Area Resurfacing	\$ 155,000
CY 2013 - Repair East Border Wall	\$ 75,000
CY 2014 - Vehicle Storage Door Replacement	\$ 75,000
CY 2015 - Vehicle Storage Door Replacement	\$ 75,000

Justification	
This program is designed to maintain the Combined Service Facility and repair anything that is needed through wear and tear. Responsible management includes proper maintenance to continue the viability of the investment and to prolong the useful life.

Description	
Purchase of leased CF30 computer	\$16,500
Lease payment	\$ 26,000
In-Car Printer Replacement	\$ 3,500
Beast Mobile Inventory Module	\$ 4,500
Network Upgrade	\$ 80,000

**Justification**  
 Complete the 2 of 3 leases for computers, purchasing the machines out of lease, next year will be the final year of lease purchases.  
 In-Car Printers - replacement of In-Car Printers with the new ones, supporting ticketing.  
 Beast Inventory - enable the wireless tracking of Evidence via wireless handheld device, allowing faster tracking.  
 Network Upgrade - replace router in FD stations 81/82/84 to allow for automatic failover to backup link. Enable faster speeds to the desktop machines in CC/PW.

**Project #** C-06  
**Project Name** Water Meter Conversion Project

**Account #** 521-65303-4331

**Description**

The Village of Palatine has not used a systematic method for water meter replacement since the 1970's. The technology currently utilized by the village dates to the 1960s. Typical useful life of these systems is twenty (20) years. The Village is using technology at meter sites that is well past forty (40) years old. Badger Meter, the Village's current supplier of meters, recently confirmed that the meters Palatine uses will be discontinued by 2010. The Palatine ROM system will no longer be supported after these meters are discontinued. This project is expected to take three years, or 36 months. Phase One (2012) will be to install automatic collectors and repeaters, purchase a 450Mhz licensed frequency, and replace 33% of the Village's old meters. Phase Two (2013) will be to replace another 33% of the village's old meters. Phase Three (2014) completes the project by replacing the final 33% of old meters and a complete retrofit for AMR on meters less than five years old.

**Justification**

A justification, Cost Benefit Analysis, and Return on Investment information is available from DPW's Management Analyst, and is provided as a supplementary attachment to this request. In general this program would improve customer service, improve readability of meters and readings, eliminate meter reader cost, reduce unaccountable water revenue loss, and optimize water revenue.

Expenditures	2010	2011	2012	2013	2014	Total

**Project #** C-07  
**Project Name** Utilities SCADA System Upgrades

**Account #** 521-65425-4331

**Description**

This project calls for two recent improvements to be tied into the Village's SCADA System. These two improvements are the Rolling Meadows water interconnect and the Gilbert glade Storm Lift Station. It is anticipated that both would be performed at the same time in an effort to reduce cost.

**Justification**

The ability to monitor and calculate flow allows Village crews to improve operations as well as insure accuracy in billing.

**Project #** C-08  
**Project Name** Enterprise Resource Planning Project

**Account #** 440-64501-4331

**Description**

This project entails the planning, research and procurement of the appropriate financial software product to match the complexity of the Village's business and future scalability needs and the Village's ability to afford and support the system on an ongoing basis.

**Justification**

The Enterprise Resource Planning (ERP) is the system which embodies the financial business processes in the Village of Palatine. Due to the age of the system, many processes implemented require additional manual effort then needed. As the financial engine for the Village, the ERP system is the main repository of key data. Our current system is no longer supported and is limited on its ability to provide the required services to the Village of Palatine

**Account #** 440-64104-4313

**Description**  
 Purchase of ESRI automation module \$2,000

**Justification**  
 Automation of map production will eliminate the need for a person to create maps such as the PD Crime map. Currently 1 hour per week is used by Police to produce the needed pdf, this software will eliminate that effort by fully automating the process for PD and others.

Prior	Expenditures	2010	2011	2012	2013	2014	Total

**Project Name** Fire Dept Equipment Replacement/Purchases

**Account #** 440-64202-4314

**Description**  
 CY 2010 if Grant is approved - will consider our 20% share as a mid year budget adjustment  
 CY 2011 Replacements  
 Replacement of all loose equipment on the New Squad - \$35,000  
 Equipment includes Power Tools, Nozzles, Hose, Small Tools and Forcible Entry Equipment  
 CY 2014 if Grant is not approved - \$750,000  
 Replacement of all SCBA Equipment including Fill Station. Equipment includes complete SCBA Airpacks, Testing Equipment, and Fill Station, with necessary Fill Hoses.

**Justification**  
 This program provides for the planned replacement and addition of necessary Fire Department equipment in order to prevent obsolescence, maintain the functionality of the Department, and enhance operational efficiency  
 Current SCBA was purchased in January, 2000 and is madated to retire in January, 2015. New Standards for SCBA will occur in 2013.

**Project #** E-02  
**Project Name** Public Works Equipment Replacement

**Account #** 440-64106-4314

**Description**

CY 2010 Planned Replacements  
 \$ 7,500 - E134 Transmission Jack - Fleet Services  
 10,000 - E128 Brake Lathe - Fleet Services

CY 2011/2012 - Programmable 2-Way Radios This project calls for a review of how PW communicates and what system will be required to meet the FCC Narrow banding Mandate which will go into effect in 2013. It is proposed that a study be conducted in 2011 with the purchase of the new system taking place in 2012. Total cost of study and purchase is \$226,000.

**Justification**

This program provides the planned replacement of necessary Public Works operating equipment in order to prevent obsolescence, maintain the functionality of the Department, and enhance operational efficiency. The ability to communicate between vehicles, crews and departments is needed to improve all operations. However, during emergencies, the ability to communicate effectively and in a timely manner is crucial.

**Project #** E-06  
**Project Name** Monitor Defibrillator Replacement Program

Account #

**Description**

The oldest monitor defibrillators in our inventory will be 10 years old in 2010. It is important to establish a replacement program to keep this critical life saving equipment as capable as possible. Please refer to attached memo  
 Planned replacement of 4 in 2009, 1 in 2013, 1 in 2015

**Justification**

Monitor defibrillators are essential equipment in the care, treatment and diagnosis of the critically ill. These rugged devices provide defibrillation, EKG monitoring, blood gas information as well as capnography. They should be replaced every 10 years due to wear and tear as well as advancements in technology. The latest units feature modular components for future advancement in technology. It is important to note that the current unit have a significant trade-in value of approximately \$5,000 each. This should help offset the replacement cost figures.

<b>Expenditures</b>	<b>2010</b>	<b>2011</b>	<b>2012</b>	<b>2013</b>	<b>2014</b>	<b>Total</b>	<b>Future</b>

**Project #** E-09  
**Project Name** Mobile Video Cameras

**Account #** 440-64307-4314

**Description**

The Police Department is requesting eleven (11) Mobile Video cameras for the patrol fleet. On August 4, 2008, the Village Board approved the vendor (AMR Digital) to install the initial Mobile Digital Video System (In-Car Camera) into the 2008 Traffic Unit vehicle.

**Justification**

Three primary benefits of installing these cameras were discussed  
 1. Use of Mobile Video as evidence will greatly assist in the prosecution of traffic violators  
 2. Mobile Video review is also a valuable tool in the training of new police officers and in-service training of veteran officers  
 3. Mobile Video will also deter false accusations and assist in determining liability when accusations are made

<b>Expenditures</b>	<b>2010</b>	<b>2011</b>	<b>2012</b>	<b>2013</b>	<b>2014</b>	<b>Total</b>

**Project #** T-01  
**Project Name** 50/50 Apron/Curb/Gutter Replacement

**Account #** 450-65501-4331

**Description**  
 Replacement of curb and gutter and driveway aprons at the request of property owners in conjunction with the curb replacement and resurfacing programs. Expanded curb and gutter replacement to include all cracked curbing has been suggested.

**Justification**  
 This program should be continuous in order to keep up with replacement of public curbs as they become damaged, improve neighborhood appearance, and provide residents an opportunity to replace unattractive curbing and the adjoining aprons. The criteria used if a resident wants to "depress" their apron in order to eliminate a bump, the Village will pay for 50% of this cost. If the Village replaces the curb & gutter adjacent to the apron for drainage purposes (no cost to the resident), then the apron will be patched unless the resident wants to participate in the 50/50 Apron Program at which time the Village picks up 50% of the apron replacement cost. Discretion is given to the inspector on the project as to how many feet of curb & gutter will be replaced by the Village. It should be noted that only two residents, over the last 15 years has ever wanted to pay for more curb & gutter to be replaced that wasn't adjacent to the driveway apron

## Village of Palatine, IL

**Project #** T-04  
**Project Name** Sidewalk Extension Program

**Account #** 450-65436-4331

### Description

To provide a safe and adequate means of transportation for pedestrians. Priority is placed on installing sidewalk continuity on arterial roadway (State and County routes)

CY 2009 - Complete continuous system on US 14  
 CY 2010 - Rand Road, Dundee to IL 53 east side fill gaps  
 CY 2011 - Quentin Road, Colfax to Northwest Hwy (west side)  
 CY 2012 - Quentin Road, North of Palatine Road (east side)  
 CY 2013 - Quentin Road, Lake-Cook to Ruhl Road (Schedule contingent on County reconstruction of Quentin Road) \$100,000 - NW Fire Station Site Sidewalk \$36,000  
 CY 2014 - Dundee, Hicks to Rand Rd  
 Future - Quentin north of US-14, Lake-Cook west of Rand

### Justification

1. To promote pedestrian safety, access, and mobility
2. Support the Council's long-range goal of safe neighborhoods

Type Improvement

Useful Life 20 years

Category Transportation Projects

Priority Important

Project # T-12

Project Name Arterial Street Lights

Account # 450-65378-4331

### Description

CY 2012 - Non TIF costs Dundee and Rand lighting and signal improvements (Intergovernmental Agreement Commitment of \$9,000) Design NW Hwy between Wilke and IL-53  
 CY 2013 - Construct NW Hwy between Wilke and IL-53. Design NW Hwy between North Ct and Smith  
 CY 2014 - Construct NW Hwy between North Ct and Smith. Design NW Hwy between Smith and Quentin  
 CY 2015 - Construct NW Hwy between Smith and Quentin. Design NW Hwy between Quentin and Sterling  
 CY 2016 - Construct NW Hwy between Quentin and Sterling. Design NW Hwy between Countryside and Dundee  
 Future - Construct NW Hwy between Countryside and Dundee  
 Installation of street lights, curb and gutter, parking and storm sewers between Palatine Rd and Parallel St  
 Installation of street lights on Palatine Rd between NW and IL-53

### Justification

Continue the program of enhancing arterial corridors by concentrating improvements along the main entrance ways into the Village. Funding from the Federal Surface Transportation Program has been secured to participate in construction costs for NW Hwy from Wilke to IL-53

**Project #** T-14  
**Project Name** Street Light Cable Replacement

**Account #** 450-65422-4331

**Description**

Systematic replacement of old rubber-coated Type R street light cable w/new burial type wire in various subdivisions.  
 With the completion of work in the Reseda Subdivision it is proposed that for 2012 through 2016, the street light system serving the Winston Park Northwest Subdivision Unit 2 and Unit 3 be addressed.

**Justification**

1. Reduce ground faults
2. Maintain regular street light service
3. Reduce maintenance liability

## Village of Palatine, IL

Contact Matt Barry

Project # T-15  
Project Name Collector Street Lighting

Type Improvement

Useful Life 20 years

Category Transportation Projects

Account # 450-65376-4331

Priority Important

### Description

To install a systematic street lighting system along collector streets within the Village including Rohlwing, Cedar, Illinois, Colfax, Baldwin (west of Rohlwing), Cunningham, Kenilworth, Williams, and Helen. Segment locations selected based upon average daily traffic load and density of adjacent land uses for the approximately 100 intersections that are currently not lighted. It is recommended that when roadways with average daily traffic above 2,500 vehicles have been brought to standard, local roadways adjacent to parks and schools be given priority.

2012 - Colfax St Quentin Rd to Post Office  
2013 - Illinois between Plum Grove Rd and Hicks Rd  
2014 - Rohlwing Rd between Northwest Hwy and Palatine Rd  
2015 - Rohlwing between Palatine Rd & Baldwin  
2016 - Helen Hicks to Oak  
Future - West Helen & South Cedar, adjacent to Park/Schools

### Justification

1. Protection of persons and property along collector streets within the Village
2. Improve traffic safety
3. Delineation of major thoroughfares and separation of neighborhoods

## Village of Palatine, IL

Project # T-16  
 Project Name Neighborhood Lighting Program

Account # 450-65375-4331

### Description

This project is designed to ultimately extend street lighting into areas presently not being lit. A total of 160 intersections have been identified which, by code, should be given consideration. In addition, continuation of lighting in the Northeast part of the Village is proposed. It is recommended that when roadways with average daily traffic above 2,500 vehicles have been brought to standard, local roadways adjacent to parks and schools be given priority.

CY 2012 - West of Smith Street and North of Palatine Road  
 CY 2013 - Palatine Park  
 CY 2014 - Barrington Woods Neighborhood  
 CY 2015 - Brentwood Estates Palatine Park  
 CY 2016 - Woodland St Suthers Ln W Center Rd

### Justification

This past year, the Village has received approximately 15 requests for street lighting. Recent de-regulation of the electrical industry has resulted in both an increase in cost for new installation as well as a more bureaucratic process.

Expenditures	2010	2011	2012	2013	2014	Total	Future

## Village of Palatine, IL

**Project #** T-18  
**Project Name** Collector Street Improvements

**Account #** 450-65570-4331

### Description

Reconstruction/resurfacing, widening, curb and gutter, sidewalk, and installation of storm sewer to bring roadways to current Village Standards. Urbanization of underdeveloped collectors based on paver ratings and traffic volume.

- CY 2011 - Kenilworth from Harrison to Middleton
- CY 2012 - Kenilworth from Middleton to Quentin Rd
- CY 2013 - Palos from Dundee to Autumn
- CY 2014 - Palos from Autumn to Northwest Hwy
- CY 2015 - Brockway Street; Northwest Hwy to Comfort

Preliminary engineering for Colfax west of Quentin Rd. As Colfax is currently under the jurisdiction of IDOT, a future cost share with jurisdictional transfer could be recommended. Construction dollars have not been inserted within the program at this time to allow time for application for Federal funding to the Northwest Council of Mayors

Future - Brockway, Illinois to Aldridge, Brockway, Aldridge to Bryant

### Justification

1. Improve traffic flow characteristics and street capacity
2. Improve safety
3. Improve drainage
4. Reduce long-term maintenance and operation cost
5. Improve neighborhood appearance

Contact Mark Grabowski

Project # T-20  
Project Name Road Resurfacing

Type Improvement

Useful Life 20 years

Category Transportation Projects

Account # 216-65551-4331

Priority Important

### Description

The annual resurfacing of Village streets which are in need of repair. Streets are selected each year on the basis of their condition, need for prev maint, and relationship to planned utility work under the streets. The program consists of planning of existing surface, application of engineering fabric, and final overlay.

### Justification

A continual annual road maintenance program is necessary to:

1. Protect the Village investment in its road system
2. Minimize routine maintenance
3. Keep the road system at a desirable level of service ability
4. Reduce vehicle damage, accidents, and resultant claims from poorly maintained roads.

**Project #** T-21  
**Project Name** Gas Light Replacement Program

**Account #** 450-65379-4331

**Description**

This program is designed to replace 50 gas lights that are currently operational in the Whytecliff area with 14' tall substantial equivalent electric lights. Project includes removal of old gas lights and installation of new Village standard lights with related electrical connections. It is estimated that each new light will cost \$5,200 and removal of the current lights will cost \$800/each

Phase 1: Hampton to Bedford (North Section) 22 lights  
 Phase 2: Borders to Crooked Willow (South Section) 28 lights

**Justification**

The Village purchases approximately 60,000 therms of natural gas annually. Of this purchase approximately 16,000 therms of gas is used to operate these 50 lights or over 25%. This amount of gas usage is equivalent to heating approximately 13 homes per year. With an anticipated savings of approximately \$14,000 each section provides a return on investment in approximately eight years

Project # T-24  
 Project Name Arterial Street Beautification

Account # 450-65555-4331

**Description**

The Arterial Street Beautification Project for 2012 would complete the median island to the east of Route 53 on NW Hwy (RT 14) and the area to the north and south of RT 14, east of RT 53. The full plan includes asphalt to be removed along with base material at a cost of approximately \$10,000, top soil added for about \$8,000, and a three foot strip 203 feet long where brick pavers would be installed for \$5,500. Trees, shrubs, and mulch would be added in the median island, as well as, in the parkway area north and south of NW Hwy. At RT 53, shade and ornamental trees and numerous perennials would also be planted. The costs for trees, shrubs, and mulch would be about \$29,000. The total cost for the first phase east of NW Hwy would be \$52,500.

**Justification**

This program seeks to improve the quality and amount of landscaping that is in each pocket park in Palatine. Several projects have been completed, such as the Hicks/Baldwin/NW Hwy Intersection, the parkway landscaping on NW Hwy north of Palatine Rd, and the creation of median island landscaping on NW Hwy west of Illinois 53. Continuing this program of corridor enhancement, the following list identifies proposed sites for the next few years: NW Hwy & RT 53 Final Phase I & Phase II, Rohlwing Rd & NW Hwy

Contact Matt Barry

Project #	T-25
Project Name	Intersection Improvements - Pedestrian

Type Improvement

Useful Life 20 Years

Category Transportation Projects

Account # 450-65439-4331

Priority Important

### Description

This project is designed to improve pedestrian access at major intersections throughout the Village. Improvements included under this program may include installation of crosswalks, pedestrian sidewalks, reprogramming of signal timing, installation of turning arrows, and signage.  
 CY 2010 - Construct pedestrian improvement at IL-68 and Hicks into FPD Property  
 CY 2011 - Dundee at Smith (Design)  
 CY 2012 - Dundee at Smith (Const), Northwest Highway at Rohlwing (Design)  
 CY 2013 - Northwest Hwy at Rohlwing (Const), Dundee at Lynda (Design)  
 CY 2014 - Dundee @ Lynda (Const), IL-53@ US-14 (Design)

### Justification

As part of the Department's effort to improve neighborhood safety and in response to a growing concern about safety at busy intersections, a need exists to ensure safe intersections for pedestrians to cross. Initially, signalized intersections will be addressed, then expanded to others throughout the community.

**Project #** T-31  
**Project Name** Dorset Avenue Improvement

**Account #** 450-65573-4331

**Description**

This project is designed to widen the existing 16' pavement on Dorset, between Elm and Cedar, to 28' in width and to add curb and gutter along the north side. An agreement in place that the developer of the subdivision at the northwest corner at Cedar and Elm with install sidewalk on the north side of Dorset and pavement widening from Cedar to Elm. The Village would reimburse the developer the cost of curb and widening the reach between Bennett and Elm as this is not across the development frontage. The Village would then resurface in the following year Dorset from Elm to Cedar and the developer would reimburse the Village for the cost of resurfacing across the frontage of the development (approximately Bennett to Cedar)

**Justification**

Improve safety, provide on street parking as well as limit parking and storage on the north parkway

Contact Elias Koutas

Project # T-33  
 Project Name Downtown Public Art

Type Improvement

Useful Life 20 Years

Category Transportation Projects

Account # 450-65136-4331

Priority Important

### Description

As a result of the on going improvements in the downtown area, additional pieces of sculpture art are being recommended by the Beautification Commission. These are the potential sites for the sculptures: Palatine Road and Plum Grove Road, Brockway and Wilson, Plum Grove Road and Slade. Fund in the intermediate years will be used to hire a professional to design the site for the following years sculpture

CY 2012 - Palatine and Plum Grove Rd \$30,000  
 CY 2013 - Brockway and Palatine Design \$ 5,000  
 CY 2014 - Brockway and Palatine Construction \$30,000

### Justification

- Create a "hometown" aesthetic ambiance in the downtown area
- Improve the appearance of the downtown area
- Enhance the image of the Village to pass through traffic
- Downtown as a focal point

## Village of Palatine, IL

**Contact** Mark Grabowski

**Project #** T-35  
**Project Name** Residential Street Rehabilitation Program

**Type** Improvement

**Useful Life** 30 years

**Category** Transportation Projects

**Priority** Important

**Account #** 216-65557-4331

**Description**

The Residential Street Rehabilitation Program is designed to fill the gap between the Street Resurfacing Program and total reconstruction. In an attempt to prolong the useful life of these streets, a new program has been recommended that attempts to partially rebuild the binder coarse, base and in some instances the sub-base using methods that essential recycles the materials in place. An example of this would be using a heater scarifier to recycle the binder coarse. Other methods may include foamed asphalt. It is anticipated that this program would be initiated in 2010 and be dovetailed with the normal street resurfacing schedule with additional funding being required whenever a street was being resurfaced for the third time. 2013 - Additional \$185,000 for Echo Reconstruction around Fire Station

**Justification**

Over the last several years, it has been observed that the effectiveness of resurfacing streets, especially on those that are on their third cycle of resurfacing, has the useful life reduced to roughly 8-10 years. The cause of this diminished useful life has been traced back to the fact that the binder coarse, base and sub-base have begun to fail. By taking a comprehensive look at the binder coarse, base and sub-base and making needed repairs, it is anticipated that a useful life in the 18-20 year range could be achieved.

Expenditures	2010	2011	2012	2013	2014	Total

**Project #** T-36  
**Project Name** Integral Curb Program

**Account #** 450-65441-4331

**Description**  
 As part of the street resurfacing program, the Village has identified a systematic replacement of existing integral curb-gutter. Integral curb was used in conjunction with concrete pavement and was poured monolithic with the pavement.

**Justification**  
 This project is requested due to the deterioration of the curb Based on this type of construction, the Village will need to remove the entire monolithic curb with this program.

**Priority** Important

**Project #** W-01  
**Project Name** Water Tank Maintenance

**Account #** 521-65331-4331

**Description**

At the present time, the Village has three tanks in need of repair and repainting, Long Grove, Countryside and Smith Street. It is proposed that all three be repaired and repainted over the next two years with cost spread out over the next 5 years.

CY 2010 - Long Grove Elevated Tank and Countryside Ground Storage Tank \$300,000  
 CY 2011 - Smith Street Elevated Tank \$515,000  
 CY 2012 - \$515,000  
 CY 2013 - \$515,000  
 CY 2014 - \$290,000

**Justification**

The Village of Palatine has 14 water storage tanks, of which 12 are steel construction. Historically, the Village has been averaging the repair and painting of one tank every 2 years for a 24 year return cycle. This approach has resulted in structural damage being incurred which has a direct bearing on repair cost. In an attempt to change this approach, the Village has had discussions with Utility Service with the intent that they take over the long term maintenance of these tanks. This approach would have each tank repainted every 10 years rather than every 24 years, resulting in less structural damage and repair costs.

Project #	W-02
Project Name	Village Wide Sanitary Sewer Sliplining

Type Improvement

Useful Life 50 years

Category Water/Sewer Projects

Priority Very Important

Account # 522-65412-4331

### Description

This project entails the systematic lining of sanitary sewers located Village-wide by the sliplining process and addressing specific problems. Neighborhoods targeted include Winston Park, Orchard Hills, Capri Gardens, Pinehurst Manor, Palanois Park, Princeton/Delgado Ave, Reseda East & West, Imperial, Royale and other areas. In the CY 2010 & 2011 program it is recommended to proceed with sliplining in the Peppertree neighborhood as it would have all the below referenced benefits in the Justification section while additionally allowing for the future construction of the fairgrounds Park Sanitary Sewer Diversion which requires the removal of 450,000 gpd of Inflow and Infiltration from a Village sewer tributary to the MWRD Brockway interceptor sewer.

### Justification

1. Prevent collapse of sanitary sewers and improve system integrity
2. Eliminate infiltration and maintain compliance with MWRD requirements
3. Improve hydraulics/capacity
4. Reduce maintenance/operating costs
5. Eliminate emergency/immediate need to replace/repair sewers
6. Reduce risk of basement flooding and property damage

**Category** Water/Sewer Projects  
**Priority** Future Consideration

**Project #** W-03  
**Project Name** Spot Drainage Improvements

**Account #** 522-65413-4331

**Description**

In 1991, the Village instituted a program to provide storm sewer ext into areas with poor drainage when requested by residents. This program is intended to address private and public drainage issues by incorporating the Small Diameter Storm Sewer Extension Program (Right-of-Way drainage issues), the 50/50 Storm Sewer Extension Program (Private Property requests), and the Rain Garden Program (Isolated Private Property requests). In CY2009 an additional program was incorporated to allow storm sewer extensions on private property at sizes less than 8 inches in diameter with agreements from benefiting properties that they would allow for the homeowners to have more control over schedule while limiting the Village's long term maintenance obligations. Activities in the program include:

1. Spot drainage issues in public rights of way
2. 50/50 program (8" diameter) requiring the residents pay for 50% or the storm sewer, up to a maximum of \$1,200 per benefiting property
3. Small diameter program (4" or 6") with the Village participating 50% up to \$2,500
4. Rain Garden program - Village participating 75% up to \$3,000. Not more than 15% of total program budget shall be allocated for rain gardens

**Justification**

The program and its sub-program parts, have been in response to residents who, due to added runoff resulting from the sump pump disconnect program were experiencing ponding in their rear yards or had sump pumps which ran continuously and/or drainage issues that have arisen over time.

Project #	W-05
Project Name	Creek Stabilization

Type Improvement

Useful Life 40 years

Category Water/Sewer Projects

Priority Important

Account # XXX-65499-4331

### Description

Segments of Salt and Buffalo Creeks have limitations that present limitations to flood flows, steep banks presenting safety risks, and/or unstable banks eroding into the waterway. This Improvement Program is intended to reduce frequency and severity for property damage to upstream properties reduce safety risks for segments of the waterway the Village is responsible to maintain, and reduce sedimentation. Improvements to be prioritized based on losses to structures, safety, and erosion control. Improvement additionally targeted to comply with phase 2 of the National Pollution and Discharge Elimination System.

CY 2009 Rollovers - Fund 522-65499 (\$147,000), CDBG Fund 210-65499 (\$178,185 - Reflecting Village allocation for CY 2009 & CY 2010)  
 CY 2010 - Improve Buffalo Creek east of Iris Dr to east of Capri Drive. Hire consultant to assist with creek inventory and prioritizing future improvements

CY 2011 - Design and Permit Salt Creek from Clark to Williams (St Thomas Area) CY 2012 - Construct Salt Creek West of Williams Dr (St Thomas Area) This drainage channel is located in public right of way CY 2013 - Design and Permit Buffalo Creek Rand to Laurel CY 2014 - Construct Buffalo Creek Rand to Laurel

### Justification

1. To improve creek capacity, thereby minimizing flooding potential
2. To protect existing facilities
3. To improve safety along the creek
4. To stabilize creek banks exhibiting high levels of erosion
5. To reduce operation and maintenance costs

Type Improvement

Useful Life 40 years

Category Water/Sewer Projects

Priority Important

Project # W-11

Project Name Village Wide Water main Replacement

Account # 521-65305-4331

### Description

Replacement of existing water main and appurtenances at locations throughout the Village. This program is intended to be continuous.

CY 2010 - Flake, Dean to Morris

CY 2011 - Wilke Rd, Thomas to Route 53 and Winston from Palatine Road to Joyce

CY 2012 - Mallard, Middleton to Eaton Court

CY 2013 - Middleton, Illinois to Hunting

CY 2014 - Babcock, Baldwin to Clark

### Justification

1. Reduce the number of water main breaks
2. Improve system reliability
3. Improve fire flow capability

**Project #** W-14  
**Project Name** Alternative Water Supply

**Account #** 521-65302-4331

**Description**

As part of the system analysis study:  
 Further connections to be investigated between Schaumburg, Hoffman Estates, and the Northwest Water Commission with JAWA will be analyzed and constructed. Detailed schedule to be formulated upon completion of the master water study

**Justification**

Alternate source, or supplemental sources, will reduce reliance on standby wells in the event of a supply interruption from the NWWC.

**Project #** W-15  
**Project Name** Storm Sewer System Sliplining

**Account #** 522-65453-4331

**Description**  
 This program includes reconstruction and/or rehabilitation of various sections of storm sewer throughout the Village  
 Identified locations for consideration include:  
 - Maple Court from Kenilworth to dead end (North)  
 - Smith St between Palatine Rd & Metra train tracks  
 - Capri between Lily and Rose

**Justification**  
 1. Improve drainage and reduce flooding  
 2. Improve integrity of storm sewer system  
 3. Reduce public safety hazards

**Category** Water/Sewer Projects  
**Priority** Urgent

**Project #** W-20  
**Project Name** Well and Pump Station Improvements

**Account #** 521-65304-4331

**Description**

This program is designed to provide maintenance and improvements to both wells (backup source of water) and water pumping stations. At the present time the Village has (5) wells that have pumping capacity of roughly 4,000,000 gallons per day. It also has (7) water pumping stations throughout the system.

CY 2011 - Heron Drive Well (#10), inspect and repair \$145,000, never pulled, drilled in 1979  
 CY 2013 - Smith Street Well (#7), inspect and repair \$100,000, last inspected in 1973, drilled in 1968  
 CY 2015 - Harper College Well (#6), inspect and repair \$100,000, last inspected in 1985, drilled in 1967  
 CY 2017 - Coach Road Well (#15), inspect and repair \$125,000, last inspected in 1998  
 CY 2019 - Illinois Avenue Well (#5) inspect and repair \$135,000, last inspected in 2004, drilled in 1968

**Justification**

To prolong station life and reduce problems and failures  
 To reduce operating costs and improve efficiencies  
 To maintain vital systems necessary for the public health and welfare  
 To provide proper equipment to operate a three-zone system

Expenditures	2010	2011	2012	2013	2014	Total	Future

**Category** Water/Sewer Projects  
**Priority** Important

**Project #** W-21  
**Project Name** Bridges and Culverts

**Account #** 522-65582-4331

**Description**

This project is designed to accomplish the reconstruction of failing and/or defective bridge culverts, concrete wing walls, head walls, and spillways (\$35,000 annually). In addition, it is intended to provide improved public safety and appearance of the structures through the addition of ornamental fencing and other enhancements (\$25,000 annually).

CY 2010 - Rose @ West Branch CY 2011 - Design Baldwin reconstruction over Buffalo Creek. Analysis would include precast versus cast in place CY 2012 - Construction of Baldwin over Buffalo Creek CY 2013 - Imperial over Salt Creek CY 2014 - Tahoe over east branch of Salt Creek

Priorities to be adjusted to reflect creek inventory, County wide storm water management ordinance, and annual inspections.

**Justification**

- To maintain and improve public safety
- To prevent obstructions of creeks and potential flooding
- To minimize soil erosion and creek blockage
- To prolong the useful life of structures and maintain system integrity
- To improve and maintain the appearance of structures in the system

Prior	Expenditures	2010	2011	2012	2013	2014	Total
60,000	Engineering		40,000				40,000

**Priority** Less Important

**Project #** W-23  
**Project Name** Ditch Analysis and Rehabilitation

**Account #** 522-65457-4331

**Description**  
 Improve existing open channel storm water flow or converting to urban cross section when possible. When ditch enclosure would adversely affect adjacent properties, the program will wait.  
 CY 2010 - Monitor Crescent and Williams improvements as pilot projects  
 CY 2011 - Ellis west of Quentin  
 CY 2012 - Warren north of US-14 Brookside, west of Quentin  
 CY 2013 - Leonard and Glencoe neighborhood  
 CY 2014 - Arlington Crest north of Olive

**Justification**  
 Improve handling of low flow rain conditions while still maintaining the 50 & 100 year conveyance  
 Improve longitudinal ditch slopes  
 Create maintainable side slopes  
 Improvements to right of way drainage and long term maintenance

**Project #** W-24  
**Project Name** Storm Water Utility Fee - Phase II Implementation

**Account #** 522-65465-4331

**Description**

Phase II of this project is to implement the Storm Water Utility as recommended by the 2008/2009 Feasibility Study. Under this phase, the following activities would take place:  
 Finalize cost of service; finalize rate analysis and user fee algorithms; develop a credit manual, calculate storm water user fees; develop a master account file; coordinate public education efforts utilizing stakeholder or individual meetings, the Village's website, printed materials; send "mock invoices", send first storm water utility bills, provide customer services, address billing issues, errors and credits.

**Justification**

Concerns were expressed about the "fairness" of the Village's procedure of charging all residents, business, non-profits and other governmental agencies a uniform dollar for flood control, regardless of the amount of storm runoff from the property. A feasibility study conducted recommended that the Village consider implementing a process which distributes flood cost on the basis of runoff generated rather than a fixed fee. As such, a Storm Water Utility was suggested. The results of this proposed shift places the burden of storm runoff on those generating the runoff rather than equally dividing these cost among all property owners.

Prior	Expenditures	2010	2011	2012	2013	2014	Total

## Village of Palatine, IL

**Project #** W-28  
**Project Name** Sub-Watershed Analysis

**Account #** 522-65462-4331

### Description

In recent more severe rain events some sub watersheds performed below current storm sewer system standards. In response to these observations the Village brought in outside consultants to televise the trunk line storm sewers to determine if obstructions or failures had developed. With no major failures in the existing infrastructure it is believed that the original development standards allowed for facilities that would not be considered acceptable to current engineering standards. A program is recommended to systematically study sub watersheds. Tributary area, land use, and current rainfall data would be compared with existing sub-system capacity. Identified improvements would feed into the W-23 (Ditch Rehabilitation Program) or W-30 (Storm Sewer Expansion Program).  
 2012 - Smith at Colfax sub watershed  
 2013 - Rose at Lilly sub watershed  
 2014 - Eisenhower at Greenwood sub watershed  
 2015 - Pompano at Rohlwing sub watershed

### Justification

Reduce flood risk  
 Reduce maintenance costs  
 Improve the Village's approach to preservation of long term assets

## Village of Palatine, IL

Contact Matt Barry

<b>Project #</b>	<b>W-30</b>
<b>Project Name</b>	<b>Storm Sewer &amp; Drain tile Repl/Expansion</b>

Type Improvement

Useful Life 50 years

Category Water/Sewer Projects

Priority Important

Account # 522-65450-4331

### Description

Certain properties originally developed outside of the Village rely on drain tile originally installed for agricultural purposes or insect abatement. These facilities however have become primary drainage facilities that are exceedingly challenging to maintain. Systematic replacement with standard storm sewer facilities is recommended.

CY 2009 - Midblock drain tile in the block bound by Hillside, Crescent, Kenilworth and Middleton

CY 2010 - Sikh Pond (Large pond to small pond at the NEC of Deer and Winnetka)

CY 2011 - Drain tile internal to the block south of Hillcrest west of Suthers

CY 2012 - Drain tile internal to the block south of Plum Grove Road and north of Michigan Avenue

CY 2013 - Quentin near Echo

CY 2014 - Forest south of North Avenue (Development may provide portion of facility)

Future - east side of Quentin north of Echo, Barrington Woods

### Justification

- To reduce flood risk
- To improve quality of life
- To reduce maintenance costs

**Contact** Matt Barry

**Project #** W-33

**Type** Improvement

**Project Name** Fairgrounds Sanitary Sewer Diversion

**Useful Life** 50 years

**Category** Water/Sewer Projects

**Account #** 522-65473-4331

**Priority** Important

### Description

A proposed sanitary sewer has been identified on Lincoln Av from Hicks to east of Forest Ct. This sanitary sewer would serve as a diversion of waste water flows from the Fairgrounds Park and Reskin neighborhood westerly as opposed to flowing through the Palanois Park neighborhood in the current condition.

CY 2010 - Preliminary Design including geotechnical investigation

CY 2011 - Detailed design and permitting

CY 2012 - Construction

### Justification

To provide storm sewer relief and reduce flooding into areas upstream of the lift station

To enhance the pedestrian, aesthetics, and wetland qualities of the area

## Village of Palatine, IL

**Contact** Matt Barry

<b>Project #</b>	<b>W-34</b>
<b>Project Name</b>	<b>Gilbert/Glade Neighborhood Enhancements</b>

**Type** Improvement

**Useful Life** 50 years

**Category** Water/Sewer Projects

**Account #** 522-65474-4331

**Priority** Important

### Description

Following the installation of the storm water lift station a series of improvements is contemplated to enhance the area from both a functional and aesthetic approach.

CY 2010 - Sidewalk repairs on Hale and Benton Streets (\$25,000) Extension of storm sewers to address isolated depressional areas to the north (\$75,000)

CY 2011 - Cul-de-sac Oak (\$65,000) This alternative would be approximately \$35K Less than reconstructing Oak while allowing for a more comprehensive wetland enhancement in future years (400 LF @ \$250/LF = \$100K)

CY 2012 - Extension of storm sewers to address isolated depressional areas to the south

CY 2013 - Benton pavement enhancements (concrete ribbon in omission area)

CY 2014 - Wetland Enhancement east Benton

### Justification

To provide storm sewer relief and reduce flooding into areas upstream of the lift station

To enhance the pedestrian, aesthetics, and wetland qualities of the area

<b>Expenditures</b>	<b>2010</b>	<b>2011</b>	<b>2012</b>	<b>2013</b>	<b>2014</b>	<b>Total</b>

## Village of Palatine, IL

**Project #** W-36  
**Project Name** Lift Station Improvements

**Account #** 522-65463-4331

### Description

The purpose of this program is to maintain and upgrade key components of the various lift stations throughout Palatine. The improvements include telemetry, electro mechanical systems as well as the physical structures. Costs were developed from a 2008 system evaluation  
 CY2010 - Engineer and permit Capri/Rand forcemain replacement \$50,000  
 CY2011 - Construct Capri/rand forcemain reconstruction 2,000 lf at \$200/LF \$400,000  
 CY2012 - Cathodic Protection of 1/3 of stations  
 CY2013 - Cathodic Protection of 1/3 of stations  
 CY2014 - Cathodic Protection of 1/3 of stations  
 Future - Kasuba Grinder pump \$260,000

### Justification

to improve the reliability, reduce operating costs and to insure the long term viability of these facilities.

<b>Total</b>	<b>\$ 21,575,430</b>	<b>\$ 5,910,270</b>	<b>-72.61%</b>

**Issues & Initiatives**

- \* Maximize parking resources within Block 27 and attract a new use for the former Mia Cucina building
- \* Facilitate additional aesthetic/pedestrian improvements throughout the downtown area
- \* Manage and coordinate all efforts related to the Palatine/Plum Grove intersection improvements project.
- \* Continue to facilitate commercial redevelopment within the Dundee Rd and Rand Rd corridors, focusing on the two village owned properties
- \* Provide support for implementation of RDA's with City Limits Harley Davidson and Sonic Restaurant

## Department Summary

### Department Description

This Department accounts for the economic development activity within the Village's established Tax Increment Financing Districts.

### Department Objectives

- 1 To spur economic development within the designated tax increment financing areas.

### Budget Summary

	2008 Actual	2009 Amended Budget	2010 Adopted Budget	2011 Projected Budget
<b><u>Expenditures</u></b>				
Development	\$ 17,152,232	\$ 21,575,430	\$ 5,910,270	\$ 3,083,000
<b>Department Total</b>	<b>\$ 17,152,232</b>	<b>\$ 21,575,430</b>	<b>\$ 5,910,270</b>	<b>\$ 3,083,000</b>

**Rand Dundee TIF #1 & #2**

**Program Description**

Provides for the economic development activity occurring the Village's Rand Dundee Area TIF that was established in 1995.

**Program Objectives**

- 1 To bring economic development to the area.
- 2 To provide the needed public improvements within the aging district.

**Budget Summary**

**Project #** DT-320  
**Project Name** DT Street Rehabilitation & Landscaping

**Account #** 220-67320

**Description**  
 This program is designed to upgrade existing downtown streets by replacing all curb and gutter, resurfacing, improving sidewalks, upgrading street lighting, replacing all signage, as well as improving streetscape and landscaping. Subsurface utilities to be evaluated and replaced as needed. Based upon anticipated development opportunities that may occur over the next five years, the following projects have been identified:  
 2010: Slade from Bothwell to Greeley (Design)  
 2011: Brockway from Slade to Johnson (Construct)  
 2012: Slade from Bothwell to Greeley (Construct)

**Justification**  
 This program is designed to promote the downtown business district by improving pedestrian access, encouraging pedestrian movement, improving aesthetics, and enhancing the overall business environment.

<b>Prior</b>	<b>Expenditures</b>	<b>2010</b>	<b>2011</b>	<b>2012</b>	<b>2013</b>	<b>2014</b>	<b>Total</b>
1,600,000	4745 - Public Improvement	75,000	1,200,000	750,000			2,025,000
<b>Total</b>	<b>Total</b>	75,000	1,200,000	750,000			2,025,000

<b>Prior</b>	<b>Funding Sources</b>	<b>2010</b>	<b>2011</b>	<b>2012</b>	<b>2013</b>	<b>2014</b>	<b>Total</b>
1,600,000	TIF-220	75,000	1,200,000	750,000			2,025,000
<b>Total</b>	<b>Total</b>	75,000	1,200,000	750,000			2,025,000

**Budget Impact/Other**  
 The projects will be funded using TIF dollars. It is anticipated that maintenance of these improvements will be approximately \$4,000 per year due in large part to the streetscape being provided.

**Project #** DT-321  
**Project Name** Railwalk Program

**Account #** 220-67321

**Description**  
 The total program is to extend railwalks from Maple Street on the west to Plum Grove Road on the east. Amenities to be included are lights, signage, and landscaping. Remaining sections to complete this project are:  
 2010 - Plum Grove to Bothwell  
 2011 - Brockway to Greeley (D)  
 2012 - Brockway to Greeley ©  
 2013 - Greeley to Smith with Parking Deck construction

**Justification**  
 The railwalk is considered an aesthetic improvement along the railroad tracks while also providing the functionality of a pedestrian walkway to encourage free-flow access through the downtown.

**Project #** DT-327  
**Project Name** Downtown Amenities Program

**Account #** 220-67327

**Description**  
 Addition of amenities that are becoming commonplace in most downtown business districts. Projected improvements include:  
 2011: Community Information Electronic Sign (\$50,000)  
 2013: Street Light Electrical System Replacement (\$300,000)  
 2014: Irrigation System (\$200,000)  
 2015: Sound System (\$150,000)  
 2016: Special Events Electrical System (\$200,000)

**Justification**  
 The purpose of this program is to promote the downtown business district as a community focal point by enhancing the overall experience in the downtown area. These improvements are designed to improve communication, promote safety, reduce maintenance cost, and encourage residents to visit downtown.

**Project #** DT-331  
**Project Name** Palatine Road Reconstruction

**Account #** 220-67331

**Description**

The reconstruction and widening at Palatine Road between Northwest Hwy and Smith Street. Improvements include curb and gutter, storm sewers, streetlights, sidewalks and incorporation of a common left turn lane. Revenue sources have been secured from the NW Mun Conf (\$3.5M) and the Congestion Mitigation and Air Quality Program (\$1.477M) and (\$5.5M) Stimulus via NWMC. Costs shown below only represent the VOP funds.  
CY 2008 - Phase II Engineering, Land Acquisition to accommodate improvement (Estimate of Cost currently at \$2.8M  
CY 2009 - Land Acquisition and Traffic Signal/Railroad Equipment Integration (\$2.8M - \$1.3M Rollover = \$1.5M Budget)  
CY 2010, 2011, 2012 - Construction (\$7.8M Roadway, \$2.5M Railroad Improvements, \$1.5M in construction Engineering and Contingency)  
(\$11.8M - \$2.5M(NWMC) - \$1.477 (CMAQ) = \$7.825 over 3 years)

**Justification**

To improve traffic flow characteristics and street capacity  
To improve safety  
To improve drainage  
To reduce long term maintenance and operating costs  
To conform with downtown master plan  
To implement the Palatine Road Study

**Prior**

## Rand Corridor TIF

### Program Description

Provides for the economic development activity occurring the Village's Rand Road Corridor TIF that was established in 2003.

### Program Objectives

- 1 To provide the economic incentives to revitalize this commercial corridor.
- 2 Provide assistance via pay-as-you-go agreements.

### Budget Summary

### Description

The total TIF Eligible Expenses to be reimbursed are as follows: (a) the actual land costs up to a maximum of \$2,500,000; plus (b) the interest incurred by Developer on Developer's mortgage loan for the purchase of the property from the origination date thereof through and including the date of final payment by the Village, plus (c) other related TIF Eligible land acquisition costs in an amount not to exceed \$62,500 plus the cost of a Phase II environmental report if required by Developer's Lender; plus (d) \$250,000 for site preparation costs, which are limited to site grading, tree removal, and sewer and water extensions subject to the condition that said costs are TIF eligible under the Act and Developer constructs and opens a related themed restaurant, of not less than 5,000 square feet, on the Property no later than July 31, 2013; plus (e) building and engineering permits, sewer and water connection and other fees.

\*Reimbursement of land acquisition and other TIF Eligible land acquisition expenses set forth above shall be made in six (6) installments as follows:

(i) Within thirty (30) days of the Developer's Closing Date, a sum equal to the total of (A) the first twelve months of principal and interest payments to become due and payable under the Developer's mortgage loan as calculated in advance by the Developer's Lender, plus (B) all other TIF Eligible Expenses to be reimbursed in (c) and (e) above.

(ii) On or before the first anniversary of the Developer's Closing Date, a sum equal to the second twelve months of principal and interest payments to become due and payable under the Developer's mortgage loan as calculated in advance by the Developer's Lender.

(iii) On or before the second anniversary of the Developer's Closing Date, a sum equal to the third twelve months of principal and interest payments to become due and payable under the Developer's mortgage loan as calculated in advance by the Developer's Lender.

(iv) On or before the third anniversary of the Developer's Closing Date, a sum equal to the fourth twelve months of principal and interest payments to become due and payable under the Developer's mortgage loan as calculated in advance by the Developer's Lender.

(v) On or before the fourth anniversary of the Developer's Closing Date, a sum equal to the fifth twelve months of principal and interest payments to become due and payable under the Developer's mortgage loan as calculated in advance by the Developer's Lender.

(vi) To the extent any remaining balance of the sums due above are not yet paid, these funds shall be payable on or before the fifth anniversary of the Developer's Closing Date.

\*Site Preparation Costs up to \$250,000 shall be reimbursed within 30 days of Developer providing Village paid receipts and proof of payment of said TIF Eligible Expenses.

\*Permit and Sewer and Water Connection Fees shall be reimbursed within 30 days of payment thereof by the Developer. Developer shall submit paid receipts and proof of payment to establish amount of said fees.

\*This project will also include the public improvement of a water main extension @ \$50K across the redevelopment site to complete a gap in the Village's system.

### Justification

On June 11, 2007, the Council passed Ordinance O-91-07 authorizing the execution of an RDA with OAG Motorcycle Ventures, Inc., and Lone Star-Cardinal Motorcycle ventures IV, LLC for 2009 - 2015 Rand Road. This project consists of the development, construction, financing, and completion of a commercial building consisting of approximately 40,000 square feet for purposes of operating a Harley Davidson Motorcycle Dealership, and a not less than five thousand square foot related themed restaurant as part of a potential future phase (at Developer's sole option - not as a requirement hereunder) and any other public improvements required by the Village or Illinois Department of Transportation.

### Description

Commercial properties on the north side of Dundee and the east side of Rand were originally developed without standard stormwater collection and conveyance. Many of the properties allow un-detained stormwater to sheet flow into the residential Capri Gardens neighborhood. A conceptual study was completed in 2008 indicating a storm sewer extension was feasible and would not adversely impact downstream properties.

The proposed storm sewer would be installed along the rear of the commercial properties, head towards Buffalo Creek via Capri Drive, and ultimately discharge downstream of the box culvert at Capri Drive over Buffalo Creek. This improvement would follow the Buffalo Creek channelization and bank stabilization project proposed for 2010.

### Justification

Reduce flood risk  
 Improve quality of life  
 Reduce maintenance costs

### Description

This RDA provides for the construction of a Sonic Drive-In Restaurant at the site of the vacant Fuddrucker's Restaurant. Financial Assistance not to exceed \$125,000 shall be provided for TIF eligible land acquisition expenses under the TIF Act. The first \$75,000 shall be paid within 30 days of the issuance of either a temporary or final occupancy certificate. The remaining \$50,000 shall be paid annually on a pay as you go basis in an amount not to exceed 50% of the annual Food & Beverage Taxes received from the restaurant the preceding year, not to exceed \$25,000 in any one year. These annual payments shall be made no later than May 31st of each year.

CY 2010 - \$75,000

CY 2011 - Est. \$25,000

CY 2012 - Est. \$25,000

### Justification

The purpose of this program is to promote, encourage and support business development by enhancing the aesthetics of the area.

Issues & Initiatives

- \* \$6,869,145 (53.37%) of debt service to be paid by TIF revenues
- \* \$2,305,890 (17.92%) of debt service to be paid by Water and Sewer Funds
- \* \$ 1,080,460 (8.39%) of debt service paid by Flood Control Fee

## Department Summary

### Department Description

This Department provides for the payment of principal and interest due on the Village's long-term debt.

### Department Objectives

- 1 Long-term debt shall only be used to fund capital projects and not operations.
- 2 Overall debt service payments shall be structured on a level debt service basis.
- 3 Utilize funds reserves and other sources of revenue to abate property taxes on bonds whenever fiscally possible.
- 4 Take advantage of refunding opportunities, when available, to lower total debt service payments.

### Budget Summary

	2008	2009	2010	2011
	Actual	Amended Budget	Adopted Budget	Projected Budget
<b><u>Expenditures</u></b>				
Principal	\$ 14,275,146	\$ 15,262,125	\$ 7,617,275	\$ 7,267,250

## General Obligation Bonds

### Program Description

Provides for the payment of principal and interest on the Village's outstanding General Obligation Bonds.

### Program Objectives

- 1 Make timely payments of principal and interest in accordance with the established debt service schedule.

Issues & Initiatives

- \* Develop comprehensive report of the Village's Casualty & Liability Claims
- \* Conduct an audit of Worker's Compensation trend to determine the areas of greatest risk. Develop goals to address the greatest risk trends
- \* Conduct training for supervisors on Investigating Accidents
- \* Implement and monitor new network

## Department Summary

### Department Description

Other expenditures includes expenditure centers that are not associated with a single department of the Village. Other expenditures includes Public Safety Employee Pensions, Casualty & Liability Insurance, Medical Insurance, and Interfund Transfers.

### Department Objectives

- 1 Provide the retirement benefits for the Village's public safety employees as mandated by Illinois State Statute.
- 2 Provide casualty and liability insurance to the Village of Palatine.
- 3 Provide for the self-insured health insurance plan for the Village of Palatine.
- 4 Facilitate interfund transfers between various Village funds.

### Insurance Programs

#### Program Description

This program provides organization-wide casualty and liability insurance coverage and health care benefits. This program provides the means to pay coverage premiums, fees to third party administrators, plan consultant/brokers, and retained incurred expenses.

#### Program Objectives

- 1 To provide cost effective casualty and liability, and health insurance to the Village of Palatine.

#### Budget Summary

	2008	2009	2010	2011
	Actual	Amended Budget	Adopted Budget	Projected Budget

### Casualty & Liability Insurance

#### Program Description

The Village of Palatine is self insured since leaving IRMA in 2008. The program proactively manages risk and claims through a variety of resources. Claims are handled through a third party administrator; coverage is negotiated through a broker. Loss prevention practices are reviewed through an independent auditor. Safety training is handled through a variety of resources including internal trainers and outsourced training. Department safety committees and a village-wide safety committee review provide feedback on auto accidents, work-related injuries and general safety and liability practices. Safety practices are guided by a Safety Policy Manual and Fleet Safety Policy. A light duty return-to-work program is actively used.

#### Program Objectives

- 1 To provide casualty and liability insurance to the Village of Palatine.
- 2 To provide cost-effective claims management
- 3 Continually strive for best work practices in safety by using positive reinforcement of safe work practices (even in unsafe conditions), open communication between supervisors and staff and review of accidents.

## Health Insurance

### Program Description

This program provides health care benefits for employees.

### Program Objectives

- 1 To provide cost effective plan services and administration
- 2 Provide competitive benefits comparable to Palatine's surrounding communities
- 3 Ensure plan remains in compliance with regulations affecting health insurance plan administration including COBRA, HIPPA, etc.
- 4 Work with Employee Health Insurance Advisory Committee to maintain open communication regarding health benefit plans
- 5 Review network and other vendor performance; resolve open claim issues

## Employee Wellness

### Program Description

This program provides health and fitness programs and activities for employees to encourage healthy behaviors of employees and their families. Healthy employees have lower absenteeism and less frequent use of health insurance plan benefits.

### Program Objectives

- 1 Arrange employee wellness activities to include: Wellness Fair, Employee Wellness Walks and a cancer awareness event
- 2 Maintain and monitor the wellness room to provide for 1800+ visits per year
- 3 Conduct a Village-Wide competition to encourage exercise and wellness behaviors (similar to Average Joe conducted in 2008)
- 4 Conduct employee wellness screenings and provide reports of feedback to employees that will support improving health and fitness
