**Structure Fire**  
**1504 North Waterbury Circle**  
**Palatine, Illinois**

The Palatine Fire Department responded to a fire at 1504 North Waterbury Circle at 11:08 p.m. on Tuesday, October 10, 2006. First arriving fire companies found a car on fire in the attached garage to the house. Through aggressive efforts of the Palatine Fire Department, severe fire damage was limited to the car, garage structure and contents. The house suffered smoke damage throughout and is uninhabitable.

Occupants were alerted by smoke detectors and no injuries were reported. The fire was under control within 10 minutes. Smoke spread to the house is attributed to an open interior door leading from garage into the house. Initial damage is estimated at \$40,000. The cause of the fire is under investigation by Palatine Fire Department investigators.
