Alternative Automatic Fire-Extinguishing System Plan Deferral

Date _____

Address _____

By signing below, the owner and applicant acknowledge that alternative automatic fire-extinguishing system shop drawings are required for this project.

Alternative automatic fire-extinguishing suppression system shall comply with the International Fire Code Section 903.1.1, be designed per an approved applicable standard and shall be monitored by an approved fire alarm with direct connection to the Palatine Fire Department.

Shop drawings are required to be submitted and approved prior to scheduling the final inspections.

Should the shop drawings differ or alter the approved plans, the responsibility for any required field changes lies solely with the permit holder and owner.

If the shop drawings are not received a stop work order will be issued. Once the shop drawings are received a second plan review will be required.

If you wish to proceed, please sign below. The signatures of the applicant and owner of the property are required.
