Hood & Duct Suppression System Plan Deferral

Date _____

Address _____

By signing below, the owner and applicant acknowledge that hood and duct suppression system shop drawings are required for this project.

Hood and duct suppression system shall be designed per NFPA 96, UL 300 and shall be monitored by an approved fire alarm with direct connection to the Palatine Fire Department.

Shop drawings are required to be submitted prior to scheduling the final inspections.

Should the shop drawings differ or alter the approved plans, the responsibility for any required field changes lies solely with the permit holder and owner.

If the shop drawings are not received a stop work order will be issued. Once the shop drawings are received a second plan review will be required.

If you wish to proceed, please sign below. The signatures of the applicant and owner of the property are required.
